HP TPC-F125-SF

HP Slim Desktop User Manual

Model: TPC-F125-SF

PRODUCT OVERVIEW

The HP Slim Desktop is a compact and efficient personal computer designed for everyday use. It features an Intel Core i3-10105 Processor, ample DDR4 RAM, and a fast PCIe M.2 SSD for quick boot-up and data transfer. This desktop comes with Windows 11 Home pre-installed and includes wireless keyboard and mouse for a clutter-free setup.

Key Features

- **Processor:** Intel Core i3-10105 (4 Cores, 8 Threads, up to 4.20 GHz)
- **Memory:** 12GB DDR4 RAM (expandable up to 32GB)
- **Storage:** 512GB PCIe NVMe M.2 Solid State Drive (expandable up to 2TB)
- **Operating System:** Windows 11 Home
- **Graphics:** Intel UHD Graphics 630
- **Connectivity:** Wi-Fi 5, Bluetooth 5, Multiple USB ports (USB 3.1 Gen 1 Type-A, USB 2.0 Type-A), HDMI, VGA, Serial 9-pin, Headphone/Microphone combo
- **Peripherals:** Wireless Keyboard and Mouse included

SETUP GUIDE

Follow these steps to set up your HP Slim Desktop:

1. **Unpack the Components:** Carefully remove the desktop, wireless keyboard, wireless mouse, power adapter, and any documentation from the packaging.
2. **Connect the Monitor:** Connect your monitor to the desktop using an HDMI or VGA cable. Ensure the cable is securely plugged into both the desktop and the monitor.
3. **Connect Peripherals:**
 - Insert the USB receiver for the wireless keyboard and mouse into an available USB port on the desktop.
 - Install batteries into the wireless keyboard and mouse if not pre-installed.
 - Connect any other desired peripherals such as speakers, printers, or external drives to the appropriate ports.
4. **Connect to Power:** Plug the power adapter into the desktop's power input, then plug the other end into a wall outlet

or surge protector.

5. **Power On:** Press the power button on the front of the desktop. The system will boot up, and you will be guided through the initial Windows 11 setup process.

OPERATING INSTRUCTIONS

Initial Windows 11 Setup

Upon first boot, Windows 11 will guide you through a series of setup screens. This includes connecting to a Wi-Fi network, setting up user accounts, and configuring privacy settings. Follow the on-screen prompts to complete this process.

Stay connected to Wi-Fi and to Bluetooth® accessories with **wireless technology**

Figure 2: HP Slim Desktop highlighting wireless connectivity. This image illustrates the desktop's capability to connect to Wi-Fi and Bluetooth accessories, emphasizing its wireless technology.

Connecting to the Internet

- **Wi-Fi:** During initial setup or via Windows Settings > Network & Internet > Wi-Fi, select your desired network and

enter the password.

- **Wired (Ethernet):** Connect an Ethernet cable from your router or modem to the RJ-45 port on the back of the desktop. The connection should be automatically established.

Using Peripherals

The included wireless keyboard and mouse are pre-paired with their USB receiver. Ensure the receiver is plugged into a USB port. For other USB devices, simply plug them into any available USB port. The system will typically install necessary drivers automatically.

MAINTENANCE

Regular maintenance helps ensure the longevity and optimal performance of your HP Slim Desktop.

- **Software Updates:** Regularly check for and install Windows updates and driver updates for your hardware. Go to

Settings > Windows Update.

- **Dust Removal:** Periodically clean the exterior of the desktop with a soft, dry cloth. Use compressed air to gently clear dust from vents to prevent overheating. Ensure the system is powered off and unplugged before cleaning.
- **Disk Cleanup:** Use Windows built-in tools (Disk Cleanup, Storage Sense) to remove temporary files and free up disk space.
- **Antivirus Protection:** Keep your antivirus software up-to-date and perform regular scans to protect against malware.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No power	Power cable loose; power outlet issue	Check power cable connections; try a different power outlet.
No display on monitor	Monitor cable loose; monitor off; incorrect input source	Ensure monitor cable is secure; turn on monitor; select correct input source on monitor.
Wireless keyboard/mouse not responding	Low batteries; USB receiver unplugged; interference	Replace batteries; ensure USB receiver is plugged in; move receiver closer to devices.
No internet connection	Wi-Fi disconnected; Ethernet cable loose; router issue	Reconnect to Wi-Fi; check Ethernet cable; restart router/modem.

SPECIFICATIONS

Component	Detail
Model Number	TPC-F125-SF
Processor	Intel Core i3-10105 (4 Cores, 8 Threads, 3.70GHz Base, up to 4.20 GHz Max Turbo)
RAM	12GB DDR4 (expandable to 32GB)
Storage	512GB PCIe NVMe M.2 SSD (expandable to 2TB)
Graphics	Intel UHD Graphics 630
Operating System	Windows 11 Home
Ports	4x USB 3.1 Gen 1 Type-A, 4x USB 2.0 Type-A, 1x HDMI, 1x Serial 9-pin, 1x VGA 15-pin, 1x Headphone/Microphone combo
Wireless Connectivity	Wi-Fi 5, Bluetooth 5
Dimensions (LxWxH)	19.5" x 7.5" x 13.5"
Weight	12.1 lbs (approx. 5.49 kg)
