Tom Ford FT 5877

Tom Ford Eyeglasses FT 5877 User Manual

Model: FT 5877-B 046

INTRODUCTION

This manual provides essential information for the proper use, care, and maintenance of your Tom Ford Eyeglasses model FT 5877-B 046. Please read these instructions carefully to ensure the longevity and optimal performance of your eyewear.

PRODUCT OVERVIEW

The Tom Ford Eyeglasses FT 5877-B 046 feature a sophisticated design with a combination of shiny rose gold and matte brown enamel. These frames are equipped with durable polycarbonate lenses, offering clarity and protection.

Image: A pair of Tom Ford FT 5877 eyeglasses, featuring a cat-eye frame design in matte brown enamel with shiny rose gold metal accents. The lenses are clear polycarbonate. The temples are thin rose gold metal, transitioning to tortoise-patterned brown tips.

Key Features:

- Polycarbonate lens material for durability and optical clarity.

- Shiny rose gold and matte brown enamel frame finish.
- Designed for comfort and style.

SETUP AND PROFESSIONAL FITTING

Upon receiving your Tom Ford Eyeglasses, it is highly recommended to visit a qualified optician for professional fitting. Proper adjustment ensures optimal comfort, vision, and prevents the frames from slipping or causing discomfort.

- **Lens Prescription:** If these frames are for prescription lenses, ensure they are fitted by a professional.
- **Bridge and Temple Adjustment:** An optician can adjust the nose pads and temple arms to fit your face shape, ensuring the frames sit correctly and comfortably.

OPERATING (WEARING) INSTRUCTIONS

To ensure the longevity and proper function of your eyeglasses, follow these guidelines when wearing and handling them:

- **Two-Hand Removal:** Always remove your eyeglasses using both hands, grasping the temples near the hinges. This prevents bending the frame and loosening the hinges.
- **Proper Placement:** When not in use, place your eyeglasses in their protective case or on a clean, flat surface with the lenses facing upwards to avoid scratches.
- **Avoid Head Placement:** Do not wear your eyeglasses on top of your head, as this can stretch the frame and alter its fit.

MAINTENANCE AND CARE

Regular cleaning and proper care will maintain the appearance and performance of your Tom Ford Eyeglasses.

Cleaning Instructions:

1. Rinse your eyeglasses under lukewarm running water to remove dust and loose debris. Avoid hot water, which can damage lens coatings.
2. Apply a small drop of mild, pH-neutral dish soap to each lens.
3. Gently rub the lenses and frame with your fingertips to clean.
4. Rinse thoroughly under lukewarm water to remove all soap residue.
5. Dry the lenses and frame with a clean, soft microfiber cloth specifically designed for eyewear. Avoid using paper towels, tissues, or clothing, as these can scratch the lenses.

Storage:

- Always store your eyeglasses in the provided protective case when not in use.
- Avoid leaving eyeglasses in direct sunlight or extreme heat (e.g., on a car dashboard), as this can warp the frame or damage lens coatings.

General Precautions:

- Do not use harsh chemicals, ammonia-based cleaners, or abrasive materials on your eyeglasses.
- Avoid contact with perfumes, hairsprays, and other cosmetics, as they can damage lens coatings and

frame materials.

TROUBLESHOOTING

If you encounter minor issues with your eyeglasses, the following tips may be helpful. For significant damage or persistent problems, consult a professional optician.

- **Loose Screws:** Small screws holding the hinges or nose pads can sometimes loosen. Use a small eyewear screwdriver to gently tighten them. Avoid overtightening.
- **Slipping Frames:** If your frames frequently slip down your nose, they may need adjustment. Visit an optician for a professional fit.
- **Scratched Lenses:** Polycarbonate lenses are durable but not scratch-proof. Minor scratches cannot be removed. To prevent scratches, always clean with a microfiber cloth and store in a case.
- **Bent Frames:** If the frame is bent, do not attempt to straighten it yourself, as this can cause breakage. Take it to an optician for professional repair.

SPECIFICATIONS

Model Name	FT 5877-B 046
Item Model Number	56046
Brand	Tom Ford
Lens Material	Polycarbonate
Product Dimensions	6 x 2 x 2 inches
Item Weight	14.11 ounces
Department	Mens
ASIN	B0CCQG8VLM
Date First Available	July 24, 2023

WARRANTY AND SUPPORT

Tom Ford Eyewear products are manufactured to high standards and are typically covered by a manufacturer's warranty against defects in materials and workmanship. The specific terms and duration of the warranty may vary by region and retailer.

- **Warranty Claims:** For warranty-related inquiries or claims, please contact the authorized retailer where you purchased the eyeglasses or refer to the warranty information provided at the time of purchase.
- **Customer Support:** For additional support or questions regarding your Tom Ford Eyeglasses, please visit the official Tom Ford website or contact their customer service department.
