

## FULMINARE PU-P07

# FULMINARE PU-P07 Air Purifier Replacement Filter User Manual

Model: PU-P07

---

## 1. INTRODUCTION

---

This manual provides essential information for the proper use and maintenance of your FULMINARE PU-P07 H13 HEPA Air Purifier Replacement Filter. This filter is designed to work specifically with the FULMINARE PU-P07 air purifier, ensuring optimal air quality in your home or office. It effectively filters 99.97% of particles as small as 0.01 microns, including smoke, pet dander, PM2.5, and VOCs, contributing to a healthier breathing environment.

## 2. SAFETY INFORMATION

- Always unplug the air purifier from the power outlet before attempting to replace the filter.
- Do not wash or reuse the filter. It is designed for single use and should be replaced when dirty.
- Dispose of used filters according to local regulations.
- Keep replacement filters in their sealed packaging until ready for use to maintain their effectiveness.

## 3. PRODUCT OVERVIEW

The FULMINARE PU-P07 replacement filter features a multi-layer filtration system designed for comprehensive air purification. It includes a pre-filter, H13 HEPA filter, and an activated carbon filter.

## 4. SETUP

The FULMINARE PU-P07 replacement filter is designed for easy installation. Ensure your air purifier is unplugged before proceeding.

1. Unpack the new filter from its protective plastic film.
2. Locate the bottom cover of your FULMINARE PU-P07 air purifier.
3. Rotate the bottom cover counter-clockwise to unlock and remove it.
4. If an old filter is present, carefully remove it from the air purifier.
5. Insert the new FULMINARE PU-P07 filter into the air purifier, ensuring it is seated correctly.
6. Replace the bottom cover and rotate it clockwise to lock it securely in place.

## 5. OPERATING INSTRUCTIONS

Once the new filter is installed, plug in your FULMINARE PU-P07 air purifier and power it on. The air purifier will immediately begin to filter the air. Refer to your air purifier's main user manual for specific

operating modes and settings.

## 6. MAINTENANCE

Regular filter replacement is crucial for maintaining the efficiency of your FULMINARE air purifier and ensuring optimal air quality.

### Filter Replacement

It is recommended to replace the FULMINARE PU-P07 filter every 3-6 months. This interval may vary depending on the air quality in your environment and the frequency of air purifier use. A dirty filter will show visible signs of dust and debris accumulation, as illustrated below.

Image: Visual comparison of a new filter versus a used filter, highlighting the need for replacement.

# How To Replace The Filter

Image: Step-by-step guide for replacing the air purifier filter.

## All-Around Protection

With its 360° design, the True HEPA Filter effectively captures various pollutants from all sides.

Image: Comparison of a new and old filter, demonstrating the filter's 360-degree design for comprehensive air purification.

## 7. TROUBLESHOOTING

---

If your air purifier is not performing optimally after filter replacement, consider the following:

- **Reduced Airflow:** Ensure the new filter is correctly seated and the bottom cover is securely locked. Check for any obstructions around the air intake or outlet.
- **Unusual Odors:** If new odors are present, ensure all plastic packaging has been removed from the new filter. Allow the purifier to run for a few hours to dissipate any initial manufacturing odors.
- **Indicator Light Still On:** Some air purifiers require a manual reset after filter replacement. Refer to your specific air purifier's manual for instructions on resetting the filter life indicator.

## 8. SPECIFICATIONS

---

Attribute	Detail
Model Number	PU-P07
Brand	FULMINARE
Filter Type	H13 HEPA with Activated Carbon
Filtration Efficiency	99.97% of particles as small as 0.01 microns
Recommended Replacement	Every 3-6 months
Product Dimensions	5.67 x 5.16 x 5.7 inches
Item Weight	3.2 ounces
Certifications	CARB Certified
Country of Origin	China
