SETUP

Initial Charging

Before first use, fully charge the power bank using the provided USB-C to USB-C cable and a compatible USB power adapter (not included). The LED indicators will show the charging status and battery level.

OPERATING INSTRUCTIONS

Turning On/Off

- **To Turn On:** Short press the power button. The power bank will automatically turn off after a period of inactivity if no device is charging.

Magnetic Wireless Charging

Align the power bank with the back of your MagSafe-compatible iPhone or a phone equipped with a MagSafe-compatible case. The magnets will securely attach, and charging will begin automatically. The power bank provides up to 7.5W wireless charging.

Magnetic Charging

 Magnetic Case

 Non-Magnetic Case

Image: Illustration showing the UGREEN Nexode Mini Power Bank's magnetic charging compatibility with MagSafe cases and incompatibility with non-magnetic cases. Ensure your device or case supports MagSafe for optimal magnetic attachment and charging.

Low Current Charging Mode

- **Activate:** Long press the power button for 3 seconds. This mode is suitable for charging low-power devices such as wireless earbuds (e.g., AirPods) or smartwatches.
- **Deactivate:** Long press the power button again for 3 seconds, or the mode will automatically deactivate after 3 hours.

MAINTENANCE

- Keep the power bank dry and away from moisture.
- Clean the surface with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- Store in a cool, dry place when not in use.
- Avoid extreme temperatures and direct sunlight.

TROUBLESHOOTING

Issue	Possible Cause	Solution
Device not charging wirelessly.	Not MagSafe compatible; improper alignment; power bank off.	Ensure device/case is MagSafe compatible. Realign the power bank. Short press power button to turn on.
Device not charging via USB-C.	Cable issue; power bank off; device not compatible.	Try a different USB-C cable. Short press power button to turn on. Ensure device is compatible.
Power bank not charging.	Charging cable issue; power adapter issue.	Try a different USB-C cable and power adapter. Ensure power adapter meets specifications.
Power bank gets warm during charging.	Normal operation; excessive load.	Slight warmth is normal. If excessively hot, disconnect and allow to cool. Ensure proper ventilation.
