## 2. SAFETY INFORMATION

Please read and understand all safety instructions before assembling and using the cat tree. Failure to follow these instructions may result in injury or damage.

- **Adult Assembly Required:** This product requires adult assembly. Keep small parts away from children during assembly.
- **Stability:** Ensure all screws are tightened securely. The cat tree includes an anti-toppling kit; it is highly recommended to use this kit to secure the tree to a wall for enhanced stability, especially for active or multiple cats.
- **Placement:** Place the cat tree on a flat, stable surface. Avoid placing it near windows without proper safety measures or in high-traffic areas where it could be easily knocked over.
- **Regular Inspection:** Periodically check the cat tree for loose parts, wear, or damage. Tighten screws as needed and replace any worn components to prevent injury.
- **Weight Limit:** This cat tree is designed for small to medium-sized cats. While sturdy, excessive weight or aggressive play by very large cats may compromise stability.
- **Flammability:** Keep the cat tree away from open flames or heat sources.

## 4. ASSEMBLY INSTRUCTIONS

Assembly of the MUTTROS cat tree is designed to be straightforward. Please follow these steps carefully:

1. **Unpack Components:** Lay out all parts on a clean, soft surface to prevent scratches. Refer to the parts list to ensure everything is present.
2. **Base Assembly:** Begin by attaching the lowest scratching posts to the base plate using the provided screws and Allen wrench.
3. **Build Upwards:** Continue to attach platforms, condos, and additional scratching posts layer by layer, following the numerical sequence in the included diagram. Ensure each connection is firm and secure.
4. **Attach Hammock and Perches:** Install the hammock and top perches as indicated in the diagram.
5. **Install Pompoms:** Secure the dangling pompom toys to the designated areas on the perches.
6. **Final Tightening:** Once all components are in place, re-check and tighten all screws to ensure maximum stability. Do not overtighten.
7. **Install Anti-Toppling Kit:** For safety, attach the anti-toppling strap to the top of the cat tree and secure it to a wall stud using the provided wall anchor. This step is crucial for preventing accidental tipping.

## 5. PRODUCT FEATURES AND USAGE

The MUTTROS 70.9" Multi-Level Cat Tree offers a variety of features designed to enrich your cat's environment:

- **Multi-Level Design:** With a height of 70.9 inches, this tower provides ample vertical space for climbing and exploration, satisfying your cat's natural instincts.
- **Scratching Posts and Boards:** Six sisal-covered scratching posts and two scratching boards are integrated throughout the tree, offering durable surfaces for nail care and diverting scratching behavior from your furniture.
- **Comfortable Perches:** Two extra-large top perches provide elevated spots for observation, napping,

and basking. These are covered in soft, plush fabric for ultimate comfort.

## 2 Comfortable Cat Condos

For private and cozy rest

## 6. MAINTENANCE AND CLEANING

Regular cleaning and maintenance will extend the life of your cat tree and ensure a hygienic environment for your pets.

- **General Cleaning:** The plush fabric surfaces can be easily cleaned with a vacuum cleaner to remove loose fur and dust.
- **Removable Perch Covers:** The covers on the top perches are removable and machine washable for convenient deep cleaning. Follow fabric care instructions for washing.

- **Spot Cleaning:** For small stains, use a mild pet-safe cleaner and a damp cloth. Blot the area gently and allow it to air dry completely.
- **Sisal Scratching Surfaces:** The sisal material is durable but can accumulate debris. Use a stiff brush or vacuum attachment to clean the scratching posts and boards.
- **Inspection:** Periodically inspect the entire structure for any signs of wear, tear, or loose connections. Tighten any loose screws immediately.

## 7. TROUBLESHOOTING

If you encounter any issues with your MUTTROS cat tree, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Cat tree feels wobbly or unstable.	Loose screws; not using anti-toppling kit; uneven floor.	Ensure all screws are tightly secured. Install the anti-toppling kit to a wall stud. Place the tree on a level surface.
Cats are not using the scratching posts.	Preference for other surfaces; unfamiliarity.	Sprinkle catnip on the sisal posts. Gently guide your cat's paws to the scratching surface. Reward them when they use it.
Pompom toys are damaged or detached.	Normal wear and tear from play.	Replace with the spare pompom provided. Additional replacements may be available from the manufacturer.
Plush fabric is shedding excessively.	New product shedding; heavy use.	Vacuum the surfaces regularly. Initial shedding is normal and should decrease over time.
