2.3 Connection

The DEQSTER Pencil 2 does not require Bluetooth pairing. Simply power it on, and it will automatically connect to a compatible tablet, allowing for immediate use.

3. OPERATING INSTRUCTIONS

3.1 Writing and Drawing

Hold the DEQSTER Pencil 2 as you would a traditional pen or pencil. The stylus is designed for intuitive and natural interaction with your tablet screen.

3.2 Palm Rejection

The stylus features automatic palm rejection. This allows you to rest your hand naturally on the tablet screen while writing or drawing without interfering with the stylus input.

3.3 Tilt Function

The integrated tilt function allows for dynamic line thickness and shading. By tilting the stylus, you can achieve different artistic effects, similar to using a real pencil.

3.4 Magnetic Attachment

The DEQSTER Pencil 2 can magnetically attach to the side of compatible iPads for convenient storage and accessibility.

4. MAINTENANCE

4.1 Charging

To maintain optimal performance, charge the stylus when the battery is low. The USB-C charging port is designed for quick and efficient power replenishment.

4.2 Tip Replacement

The DEQSTER Pencil 2 features interchangeable tips. If the tip becomes worn or damaged, it can be easily replaced. Gently unscrew the old tip and screw on a new one.

4.3 Cleaning

Wipe the stylus body with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials that could damage the finish or internal components.

5. TROUBLESHOOTING

- **Stylus not responding:**

- Ensure the stylus is charged. Connect it to a USB-C power source for at least 5-10 minutes.
- Tap the top of the stylus to ensure it is powered on.
- Check if the tip is securely screwed in. A loose tip can cause intermittent functionality.
- Ensure your tablet is compatible with the DEQSTER Pencil 2.
- Restart your tablet.

- **Battery drains quickly:**

- Ensure the stylus is fully charged before use.
- Verify that the stylus is powering off when not in use. Tap the top to manually turn it off if needed.
- Avoid extreme temperatures, which can affect battery life.

- **Inaccurate input or skipping:**

- Check the stylus tip for wear or damage. Replace if necessary.
- Ensure the tablet screen is clean and free of debris.
- Confirm that no other stylus or input device is actively connected to the tablet, which might cause interference.
