GO TECH CMMK-01 WIRELESS KEYBOARD AND MOUSE KIT

Brand: GOTECH | Model: CMMK-01

Introduction

This manual provides detailed instructions for the installation, operation, and maintenance of your Go Tech CMMK-01 Wireless Keyboard and Mouse Kit. Please read this manual carefully before using the product to ensure correct usage and prolong the lifespan of your device.

The Go Tech CMMK-01 Wireless Keyboard and Mouse Kit offers practicality and comfort, eliminating the need for wires on your desktop. Featuring high-performance wireless frequency, it operates at a maximum wireless distance of approximately 10 meters.

Package Contents

- 1x Go Tech CMMK-01 Wireless Keyboard
- 1x Go Tech CMMK-01 Wireless Mouse
- 1x Wireless USB Receiver (usually located inside the mouse or in the battery compartment)
- 1x User Manual (this document)

Initial Setup

1. Battery Installation

The keyboard and mouse are powered by batteries (not included). Check the battery compartments for correct polarity.

1. **Keyboard:** Open the battery compartment on the underside of the keyboard and insert the batteries as indicated.
2. **Mouse:** Open the battery compartment on the underside of the mouse and insert the batteries as indicated. The wireless USB receiver may be stored in this compartment.

2. USB Receiver Connection

The kit uses a single USB receiver to connect both the keyboard and mouse to your computer.

1. Locate the wireless USB receiver. It is usually stored in the mouse's battery compartment.
2. Connect the USB receiver to an available USB port on your compatible computer, laptop, or tablet.
3. The operating system should automatically recognize and install the drivers. Please wait a few seconds.
4. Turn on the keyboard and mouse (if there is an on/off switch).

Your keyboard and mouse should now be ready for use. If they do not work immediately, try moving the mouse and pressing some keys to activate them.

Operation

Keyboard

The Go Tech CMMK-01 keyboard features 107 keys with an ABNT2 standard layout, ideal for the Brazilian Portuguese language. It offers a comfortable and efficient typing experience.

- **ABNT2 Layout:** Includes the "Ç" key and other characteristics of the Brazilian layout.
- **Function Keys (F1-F12):** May have multimedia or shortcut functions when combined with the **Fn** key (if applicable, check the keyboard for icons).
- **LED Indicators:** Typically for Num Lock, Caps Lock, and Scroll Lock.

Mouse

The Go Tech CMMK-01 wireless mouse features an ergonomic design with 3 buttons and a scroll wheel, providing precise and comfortable navigation. Its estimated lifespan is approximately 3 million clicks.

- **Buttons:** Left button, right button, and scroll wheel which can also function as a third button.
- **Optical Sensor:** For precise tracking on various surfaces.

- **Power Saving Mode:** The mouse may enter sleep mode after a period of inactivity to save battery. Move it or click to reactivate.

Wireless Range

The kit operates with a maximum wireless distance of approximately 10 meters. Performance may vary depending on the environment and the presence of interference.

Maintenance

Cleaning

- Turn off the keyboard and mouse before cleaning.
- Use a soft cloth lightly dampened with water or a mild electronics cleaner.
- Avoid using harsh chemicals or abrasive cleaners.
- For the keyboard, use compressed air to remove dust and debris between the keys.

Battery Replacement

When the performance of the keyboard or mouse begins to decline, or if they stop responding, the batteries likely need to be replaced. Follow the battery installation instructions in the "Initial Setup" section. Dispose of used batteries responsibly.

Troubleshooting

Problem	Solution
Keyboard/Mouse not responding	<ul style="list-style-type: none">◦ Check if the batteries are installed correctly and are not depleted. Replace if necessary.◦ Ensure the USB receiver is firmly connected to an active USB port.◦ Try connecting the USB receiver to a different USB port.◦ Check if the keyboard and mouse are turned on (if there is an on/off switch).◦ Move the keyboard/mouse closer to the USB receiver to check the range.
Lag or connection interruptions	<ul style="list-style-type: none">◦ Reduce the distance between the device and the USB receiver.◦ Avoid large metallic or electronic obstacles between the device and the receiver.◦ Check for other nearby wireless devices that might be causing interference.◦ Replace the batteries.
Mouse not tracking correctly	<ul style="list-style-type: none">◦ Clean the optical sensor on the underside of the mouse.◦ Use the mouse on a suitable surface (mouse pad or opaque, uniform surface).◦ Replace the batteries.

Technical Specifications

Feature	Detail
Brand	GOTECH
Model	CMMK-01

Feature	Detail
Color	Black
Connectivity Technology	Wireless
Wireless Range	Approximately 10 meters
Power Source	Battery-powered (3V for keyboard, 3V for mouse)
Number of Units	2 (Keyboard and Mouse)
Keyboard - Number of Keys	107 Keys
Keyboard - Layout Standard	ABNT2
Keyboard - Dimensions (Width x Height x Depth)	380mm x 115mm x 10mm
Mouse - Buttons	3 + Scroll
Mouse - Lifespan	Approx. 3 Million clicks
Mouse - Dimensions (Height x Width x Depth)	110mm x 55mm x 18mm
Compatible Devices	Personal Computer, Laptop, Tablet
