

WOLFANG GA300

WOLFANG GA300 4K60FPS Action Camera User Manual

Model: GA300

1. INTRODUCTION

The WOLFANG GA300 is a high-performance 4K action camera designed to capture your adventures in stunning detail. Featuring 4K/60FPS video recording, 24MP photo capabilities, advanced EIS stabilization, and a waterproof design up to 40 meters, it is suitable for a wide range of activities from daily vlogging to extreme sports. This manual provides essential information for setting up, operating, and maintaining your GA300 action camera.

2. WHAT'S IN THE BOX

Upon unboxing your WOLFANG GA300 Action Camera, please verify that all the following components are included:

ADJUSTABLE VIEW ANGLE LENS

Image: WOLFANG GA300 Action Camera and its comprehensive accessory kit.

- 1x WOLFANG GA300 Action Camera
- 1x Remote Control
- 2x 1350mAh Battery
- 1x Waterproof Case
- 1x Bicycle Stand
- 5x Mounts (various types)
- 2x 2-sided tape
- 2x Helmet Mounts
- 4x Bandages
- 5x Tethers
- 1x USB Cable
- 1x Lens Cloth
- 1x Quick Reference Guide

3. KEY FEATURES

The WOLFANG GA300 is equipped with several advanced features to enhance your recording experience:

3.1. 4K/60FPS Video & 24MP Photo

Capture incredibly sharp and fluid footage with 4K resolution at 60 frames per second. The camera also supports high-resolution 24MP still photos, ensuring every moment is preserved with clarity.

3.2. 40M Waterproof Camera & Dive Mode

The included waterproof case allows the GA300 to be submerged up to 40 meters (131 feet), making it ideal for underwater activities. The dedicated Dive Mode automatically corrects colors to produce more vibrant and natural-looking footage in aquatic environments.

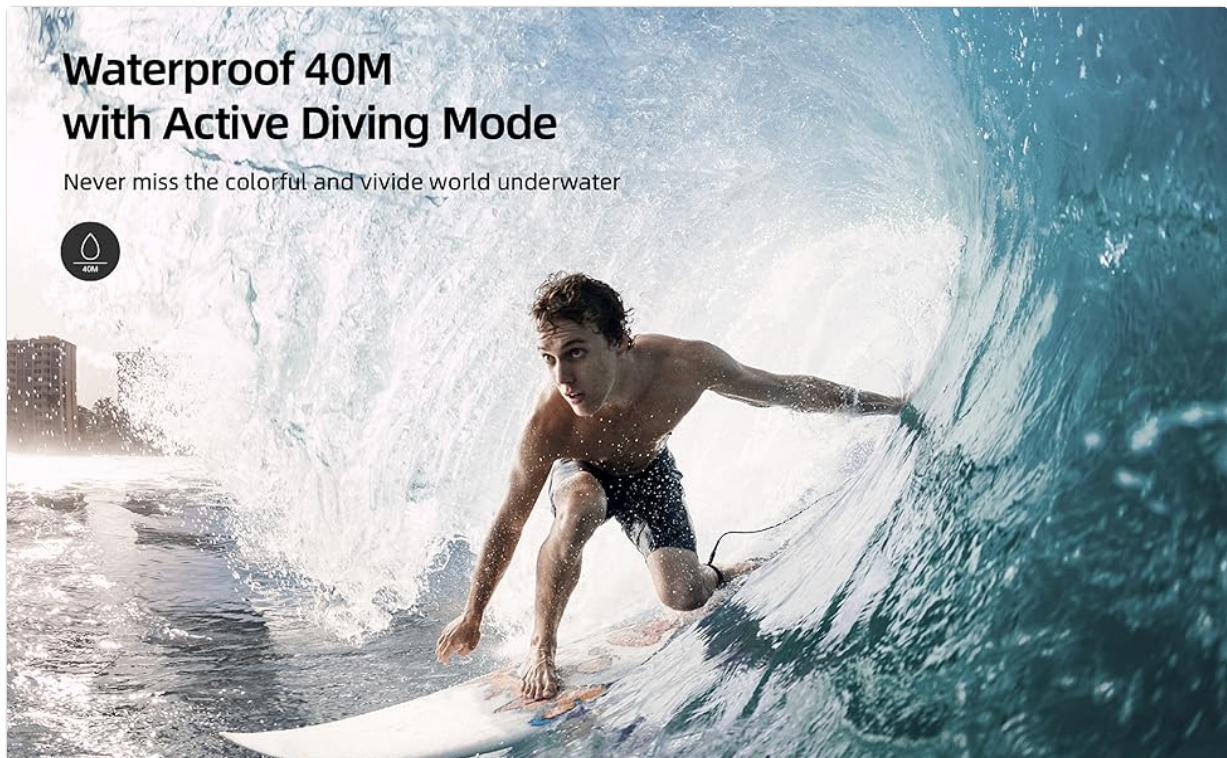

Image: Overview of the WOLFANG GA300's main features, including its waterproof capability.

3.3. Dual Microphone & Plenty of Accessories

The GA300 comes with an external noise-canceling microphone for superior audio capture in noisy settings. A wide array of mounting accessories is included, providing versatile options for attaching the camera to bikes, helmets, and other gear without additional purchases.

Image: The WOLFANG GA300 camera shown with its external microphone and remote control.

3.4. 6-Axis EIS Stabilization & Eight Times Zoom

Equipped with advanced 6-axis Electronic Image Stabilization (EIS), the GA300 ensures smooth and steady video footage even during intense activities. The 8x digital zoom allows you to capture distant subjects with clarity.

3.5. Sensitive Touchscreen & Extensive Functions

Navigate settings and preview footage effortlessly with the responsive touchscreen. The camera offers a variety of functions including loop recording, time-lapse, slow-motion, burst recording, and a convenient auto video recording mode for dashcam functionality.

Image: The WOLFANG GA300's intuitive touchscreen interface and accessible battery compartment.

Image: Visual examples of various shooting modes available on the WOLFANG GA300, including Time Lapse and Slow Motion.

4. SETUP

4.1. Charging the Battery

Before first use, fully charge both 1350mAh Lithium Ion batteries. Insert a battery into the camera or an external charger (if provided) and connect the USB cable to a power source. The charging indicator will show progress and turn off when fully charged.

4.2. Inserting MicroSD Card

The GA300 requires a MicroSD card (not included) for storing photos and videos. Open the MicroSD card slot cover, and gently insert the card with the gold contacts facing the back of the camera until it clicks into place. Ensure the card is formatted in the camera's settings before recording.

4.3. Attaching Waterproof Case

For underwater use or protection against dust and impact, place the camera inside the waterproof case. Ensure the case is properly sealed and the latch is securely fastened. Test the case without the camera in water first to confirm it is watertight.

5. OPERATING INSTRUCTIONS

5.1. Power On/Off

Press and hold the Power/Mode button on the front of the camera for 3 seconds to turn it on or off.

5.2. Mode Switching

Short press the Power/Mode button to cycle through different modes: Video, Photo, Playback, and Settings.

5.3. Recording Video

In Video mode, press the Shutter/OK button on top of the camera to start recording. Press it again to stop recording.

5.4. Taking Photos

In Photo mode, press the Shutter/OK button to take a picture.

5.5. Wi-Fi Connection

Enable Wi-Fi in the camera's settings. Download the official WOLFANG app on your smartphone. Connect to the camera's Wi-Fi network (SSID and password displayed on camera screen). Use the app for live preview, remote control, and file transfer.

5.6. Touchscreen Navigation

Swipe left/right to switch between modes, swipe up/down to access settings or playback options. Tap icons to select functions or confirm actions.

6. MAINTENANCE

6.1. Cleaning

Use the provided lens cloth to clean the camera lens and screen. For the waterproof case, rinse with fresh water after saltwater use and allow to air dry. Do not use harsh chemicals.

6.2. Battery Care

Store batteries in a cool, dry place. For long-term storage, charge batteries to about 50% capacity. Avoid fully discharging batteries frequently to prolong their lifespan.

6.3. Storage

When not in use, store the camera and accessories in a protective case away from direct sunlight, high temperatures, and humidity.

7. TROUBLESHOOTING

- **Camera not turning on:** Ensure the battery is fully charged and correctly inserted. Try a different battery.
- **SD card error:** Reformat the MicroSD card in the camera's settings. Ensure the card is a genuine, high-speed card (U3 or higher recommended) and not exceeding the maximum supported capacity.
- **Poor video/photo quality:** Check the resolution settings. Ensure the lens is clean. Verify lighting conditions are adequate.
- **Wi-Fi connection issues:** Ensure Wi-Fi is enabled on the camera and your smartphone. Restart both devices. Check the Wi-Fi password.
- **Camera freezing:** Remove and reinsert the battery to reset the camera.

8. SPECIFICATIONS

Specification	Value
Product Dimensions	1.18 x 1.65 x 2.36 inches
Item Weight	1.26 pounds
