

PetSnowy BASIC Automatic Cat Litter Box

PetSnowy BASIC Automatic Cat Litter Box User Manual

Model: BASIC Automatic Cat Litter Box

Brand: PetSnowy

1. INTRODUCTION

The PetSnowy automatic cat litter box is designed to make cat litter care more convenient, comfortable, and clean. It automatically deodorizes and cleans after your cat uses it, whether you are out or asleep. This product offers a stress-free experience for both cats and owners.

2. SAFETY INFORMATION

To ensure the safety of your pet and the proper functioning of the device, please observe the following guidelines:

- This product is recommended for cats aged 6 months or older, or weighing between 1.5 kg (3.3 lbs) and 9 kg (19.8 lbs).
- The device features high-precision gravity sensing to detect your cat's presence.
- A safety-focused pathway design helps prevent accidents.
- An anti-pinch reversal device immediately stops operation if an obstruction is detected.
- Light indicators on the unit display its current status.
- The device performs self-tests for safety confirmation.
- In case of any abnormality, an immediate notification will be sent via the dedicated app.

This image highlights the advanced safety features, such as high-precision gravity sensors that stop operation immediately if a cat is detected, and an anti-pinch reversal device.

3. SETUP

The PetSnowy BASIC features a magnetic structure for easy assembly and disassembly.

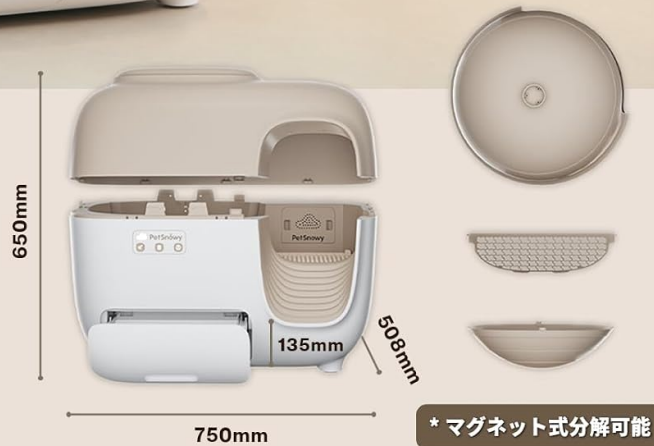

Initial Assembly Steps:

1. Unpack all components from the box.
2. Connect the main body parts using the magnetic attachments. Ensure all connections are secure.
3. Place the litter pad inside the internal pathway.
4. Add cat litter to the designated compartment.
5. Connect the power adapter to a suitable power outlet.

4. OPERATING INSTRUCTIONS

Automatic Cleaning

The PetSnowy BASIC automatically detects when your cat has used the litter box and initiates a cleaning cycle after a set delay. This ensures a consistently clean environment for your pet.

App Control (Optional)

For enhanced control and monitoring, download the dedicated PetSnowy app for iOS or Android.

1. Ensure your device is connected to a 2.4GHz Wi-Fi network. (Note: 5GHz Wi-Fi is not supported).
2. Open the app and follow the on-screen instructions to pair your device.
3. Once connected, you can remotely operate the litter box, monitor usage, and receive notifications.

A detailed Wi-Fi connection video guide is available for assistance.

This image displays various screens of the PetSnowy app, illustrating how users can remotely control the litter box and view usage statistics.

5. MAINTENANCE

Waste Disposal

The device features an automatic garbage bag sealing system, allowing for hygienic waste disposal without direct contact. The 10L large-capacity dust box can hold waste for up to 14 days for a single cat (2 days recommended in summer for optimal hygiene), reducing the frequency of emptying.

10Lゴミ袋自動密封システム、排泄物との接触0回！

The image shows a detailed view of the PetSnowy litter box's internal components, including the automatic waste sealing system and the large 10L waste bin. The text highlights the design's focus on comfort and hygiene, specifically mentioning the 14-day exchange cycle for a single cat and the 10L capacity.

This image details the automatic waste sealing system and the large 10L waste bin, designed to minimize contact with waste and reduce the frequency of emptying.

Unit Cleaning

For thorough cleaning, almost all parts of the unit, except the base, are washable with water.

1. Disassemble the unit using its magnetic structure.
2. Wash removable parts with water and a mild detergent.
3. Ensure all parts are completely dry before reassembling.

快適さと安全性の両立

6つのセーフティ機能

- 高精度な重力センシング
- 安全性重視の通路設計
- 挟まり防止逆転装置
- 本体状況のライト表示
- セルフテストで安全確認
- 異常は専用アプリで即時通知

*注意！この製品は6ヶ月以上の猫か、体重1.5キログラム以上の猫にのみ使用できます！

This image illustrates the easy maintenance and washable components of the PetSnowy BASIC, allowing for thorough cleaning.

6. TROUBLESHOOTING

Wi-Fi Connection Issues

If you experience difficulty connecting to Wi-Fi:

- Ensure your router is broadcasting a 2.4GHz signal. The device does not support 5GHz Wi-Fi.
- Check your Wi-Fi password for accuracy.
- Move the litter box closer to your Wi-Fi router.
- Restart both your router and the PetSnowy device.
- Refer to the detailed Wi-Fi connection video guide for further assistance.

Cat Not Using the Litter Box

- Ensure the litter box is placed in a quiet, accessible location.
- Gradually introduce your cat to the new litter box. You may place some of their old litter inside to make it familiar.
- Temporarily disable automatic cleaning if your cat is scared by the movement.
- Ensure the litter type is suitable for automatic litter boxes.

Cleaning Cycle Malfunctions

- Check for any obstructions in the rotating drum or waste chute.
- Ensure the litter level is within the recommended range.
- Verify that the waste bag is correctly installed and not full.
- If the issue persists, contact customer support.
