Luminzone 7J9F BG

Luminzone Industrial Flush Mount Ceiling Light User Manual

Model: 7J9F BG

INTRODUCTION

Thank you for purchasing the Luminzone Industrial Flush Mount Ceiling Light. This manual provides important information regarding the installation, operation, and maintenance of your new lighting fixture. Please read this manual thoroughly before installation and retain it for future reference.

This fixture features a unique glass shade, a gold metal base, and handmade hemp rope, designed to create a farmhouse and retro aesthetic in your home. It is suitable for various indoor and outdoor covered areas.

SAFETY INFORMATION

- Always turn off the power at the main circuit breaker before beginning installation or performing any maintenance.
- Consult a qualified electrician if you are unsure about the installation process.
- Ensure all electrical connections comply with local codes and ordinances.
- Do not exceed the maximum wattage specified for the bulbs.
- Handle glass components with care to prevent breakage.
- This product is ETL listed for safety.

PACKAGE CONTENTS

Verify that all parts are included before beginning installation. If any parts are missing or damaged, contact customer service.

Component	Quantity
Light Fixture Assembly	1
Mounting Hardware Kit (screws, wire nuts, mounting bracket)	1 Set
Instruction Manual	1

Note: Bulbs are not included. This fixture requires 2 E26 base bulbs (Max 60W each).

SETUP AND INSTALLATION

Follow these steps for safe and proper installation of your Luminzone ceiling light.

- 1. Turn off Power:** Before starting, ensure the power to the circuit is turned off at the main breaker or fuse box.
- 2. Prepare Mounting Surface:** If replacing an existing fixture, carefully remove it. Ensure the junction box is securely mounted and capable of supporting the fixture's weight.
- 3. Attach Mounting Bracket:** Secure the mounting bracket to the junction box using the provided screws. Ensure it is flush and stable.
- 4. Make Electrical Connections:** Connect the fixture's wires to the corresponding house wires using the provided wire nuts. Connect the black wire (live) to the black wire, the white wire (neutral) to the white wire, and the ground wire to the ground wire (bare copper or green). Ensure all connections are tight and secure.
- 5. Mount the Fixture:** Carefully align the fixture with the mounting bracket and secure it in place with the provided screws. Ensure no wires are pinched.
- 6. Install Bulbs:** Screw in two E26 base bulbs (not included) into the sockets. Do not exceed 60W per bulb.
- 7. Install Glass Shade:** Carefully attach the frosted glass shade to the fixture according to the design. Ensure it is securely fastened.
- 8. Restore Power:** Once installation is complete, turn the power back on at the main circuit breaker.

OPERATING INSTRUCTIONS

Once installed, operating your Luminzone ceiling light is straightforward.

- **Power On/Off:** Use your wall switch to turn the light fixture on or off.
- **Bulb Compatibility:** This fixture is compatible with E26 base bulbs, including incandescent, LED, CFL, and halogen types. Choose bulbs that provide the desired light output and color temperature for your space.
- **Dimming (if applicable):** If you wish to use dimmable bulbs, ensure both the bulbs and your wall switch are compatible with dimming functionality.

Image Description: This image shows the Luminzone ceiling light installed in a living room setting. The top half of the image depicts the light turned off, while the bottom half shows the light turned on, illustrating its illumination in the room.

MAINTENANCE

Regular maintenance will help prolong the life and appearance of your light fixture.

- **Cleaning:** To clean the fixture, turn off the power and allow it to cool. Wipe with a soft, dry cloth. Do not use abrasive cleaners or polishes as they may damage the finish or glass.
- **Bulb Replacement:** Ensure the power is off before replacing bulbs. Allow old bulbs to cool before removal. Screw in new E26 base bulbs, ensuring they are securely seated.
- **Inspection:** Periodically inspect the wiring and connections for any signs of wear or damage. If any issues are found, consult a qualified electrician.

TROUBLESHOOTING

If you encounter issues with your light fixture, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Light does not turn on.	No power to the fixture; Loose wiring connection; Faulty bulb; Tripped circuit breaker.	Check power supply at the breaker; Verify all wire connections are secure; Replace bulb; Reset circuit breaker.
Light flickers.	Loose bulb; Incorrect bulb type; Loose wiring connection.	Tighten bulb; Ensure bulb is compatible; Check wire connections.
Glass shade is loose.	Mounting screws not tightened sufficiently.	Carefully tighten the screws securing the glass shade.

If the problem persists after trying these solutions, please contact Luminzone customer support.
