Trust 25074

Trust Lyra WL Keyboard Mouse User Manual

Model: 25074 | Brand: Trust

INTRODUCTION

This user manual provides comprehensive instructions for the setup, operation, maintenance, and troubleshooting of your Trust Lyra WL Keyboard and Mouse combo. Designed for seamless connectivity with laptops and personal computers, this wireless set offers a comfortable and efficient input solution. Please read this manual carefully before using the product to ensure optimal performance and longevity.

PACKAGE CONTENTS

- Trust Lyra WL Keyboard
- Trust Lyra WL Mouse
- USB Receiver (typically stored in the mouse or keyboard battery compartment)
- User Manual (this document)
- Batteries (may or may not be included, check packaging)

SETUP

Follow these steps to set up your Trust Lyra WL Keyboard and Mouse:

1. **Insert Batteries:** Locate the battery compartments on the underside of both the keyboard and the mouse. Insert the required batteries (typically AA or AAA, not specified in product data, so keep it general) ensuring correct polarity.

2. **Locate USB Receiver:** The small USB receiver is usually stored inside the mouse's battery compartment or a dedicated slot on the keyboard for safe keeping during transport. Carefully remove it.

3. **Connect USB Receiver:** Plug the USB receiver into an available USB port on your laptop or personal computer.

4. **Power On:** Ensure both the keyboard and mouse have their power switches (if present) set to the "ON" position. The devices should automatically connect to the receiver.

5. **Driver Installation:** Your operating system should automatically detect and install the necessary drivers. No manual driver installation is typically required.

OPERATING INSTRUCTIONS

Keyboard Usage

- **Typing:** The keyboard features a standard QWERTY layout with membrane keys for comfortable typing.
- **Function Keys:** Utilize the function keys (F1-F12) for various shortcuts. Some may require pressing the 'Fn' key simultaneously, depending on your system configuration.
- **Multimedia Controls:** Look for dedicated multimedia keys or function key combinations for volume control, play/pause, etc.

Mouse Usage

- **Basic Navigation:** Use the left and right click buttons for selection and context menus.
- **Scrolling:** The scroll wheel allows for vertical scrolling through documents and web pages.
- **DPI Adjustment (if applicable):** Some mice have a DPI button to adjust cursor sensitivity. Refer to the product's specific features if you notice such a button.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your keyboard and mouse.

- **Cleaning:**
  - Disconnect the devices from your computer before cleaning.
  - Use a soft, lint-free cloth slightly dampened with water or a mild cleaning solution.

- Avoid harsh chemicals, abrasive cleaners, or spraying liquids directly onto the devices.
- For the keyboard, use compressed air to remove dust and debris from between the keys.

- **Battery Replacement:** Replace batteries when performance degrades or the low battery indicator (if present) illuminates. Dispose of old batteries responsibly according to local regulations.
- **Storage:** When not in use for extended periods, store the keyboard and mouse in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

If you encounter issues with your Trust Lyra WL Keyboard and Mouse, try the following solutions:

- **Devices Not Responding:**

  - Ensure the USB receiver is securely plugged into a working USB port. Try a different USB port.
  - Check if the batteries are correctly inserted and have sufficient charge. Replace them if necessary.
  - Ensure the power switches on both devices are in the "ON" position.
  - Move the keyboard and mouse closer to the USB receiver to rule out range issues.
  - Restart your computer.

- **Lagging or Intermittent Connection:**

  - Interference from other wireless devices (e.g., Wi-Fi routers, cordless phones) can affect performance. Try to minimize such interference.
  - Ensure there are no large metal objects between the devices and the receiver.
  - Replace batteries.

- **Mouse Cursor Jumps or is Inaccurate:**

  - Clean the optical sensor on the underside of the mouse.
  - Use the mouse on a clean, non-reflective surface. A mouse pad is recommended.

- **Specific Keys Not Working:**

  - Ensure no debris is lodged under the key.
  - Test the keyboard on another computer to determine if the issue is with the keyboard or the computer's software/drivers.

SPECIFICATIONS

Feature	Detail
Brand	Trust
Model Number	25074
Color	White
Connectivity Technology	USB Wireless (via receiver)
Compatible Devices	Laptop, Personal Computer
