Vibe Heather Grey Gel Memory Foam Mattress (8-Inch, Twin) Instruction Manual

Model: 20.2153.23.01.96

1. INTRODUCTION

This manual provides essential information for the setup, operation, maintenance, and troubleshooting of your Vibe Heather Grey Gel Memory Foam Mattress. Designed for comfort and support, this 8-inch Twin mattress features gel memory foam and a high-density core. Please read these instructions carefully to ensure proper use and longevity of your product.

2. SETUP INSTRUCTIONS

Your Vibe mattress is shipped in an ultra-compressed package for convenience. Follow these steps to set up your new mattress:

1. **Unpack the Box:** Carefully remove the mattress from its shipping box.
2. **Position the Mattress:** Place the rolled, compressed mattress on your bed frame or foundation. This mattress is compatible with platform beds and adjustable bed frames.
3. **Remove Packaging:** Carefully cut and remove the outer plastic wrapping. Avoid using sharp objects that could damage the mattress fabric.
4. **Unroll and Decompress:** Unroll the mattress. It will begin to decompress immediately. Allow 24-72 hours for the mattress to fully expand to its intended size and firmness. Walking or sleeping on the mattress can help speed up this process.

3. OPERATING INFORMATION

The Vibe Gel Memory Foam Mattress is designed to provide a comfortable and supportive sleep experience. It features two proprietary foam layers:

- **2-inch Gel Memory Foam Top Layer:** This layer offers pressure point relief, body contouring, and helps regulate temperature for a cooler sleep.
- **6-inch High-Density Foam Core:** Provides durable, long-lasting support and prevents sagging.

The mattress cover is made from a breathable circular-knit fabric, further enhancing airflow and reducing heat build-up.

**PRESSURE-RELIEVING
GEL MEMORY FOAM:**

Provides excellent pressure-point relief,
body contouring comfort, and a
breathable sleep surface for a great
night's sleep

SUPPORTIVE FOAM CORE:

Extra-firm foam base prevents
sagging and provides long lasting
durability and support.

Image: A hand gently pressing into the mattress surface, demonstrating the conforming nature of the gel memory foam.

4. MAINTENANCE AND CARE

Proper care will extend the life of your mattress:

- **Cleaning:** Spot clean only. Do not remove the mattress cover for washing. Use a mild detergent and a damp cloth for any spills or stains.
- **Protection:** Consider using a mattress protector to shield against spills, dust, and allergens.
- **Rotation:** While not required, rotating your mattress 180 degrees every 3-6 months can help promote even wear.
- **Ventilation:** Ensure adequate airflow around the mattress, especially if using a solid platform bed, to prevent moisture buildup.

5. TROUBLESHOOTING

Here are solutions to common concerns:

- **Initial Odor:** A new mattress may have a slight odor upon unboxing, often referred to as 'off-gassing'. This is normal and harmless. Allow the mattress to air out in a well-ventilated room for 24-72 hours.
- **Incomplete Expansion:** If the mattress does not fully expand within 72 hours, ensure it is on a flat surface and has ample space. Temperature can affect expansion; a warmer room may help.
- **Sagging:** The high-density foam core is designed to prevent sagging. Ensure your bed frame or foundation provides adequate support across the entire mattress surface. If sagging occurs prematurely, refer to the warranty information.

6. SPECIFICATIONS

| Feature | Detail |
|--------------|------------------|
| Brand | Vibe |
| Model Number | 20.2153.23.01.96 |

| | |
