Olelica O09

Olelica Automatic Pet Feeder Instruction Manual

Model: O09

INTRODUCTION

The Olelica Automatic Pet Feeder is designed to provide convenient and consistent meal delivery for your pets. With its programmable features, voice recording function, and secure design, it ensures your pet receives their meals on time, every time, promoting healthy eating habits and peace of mind for pet owners. This manual provides detailed instructions for setup, operation, and maintenance of your new pet feeder.

- **Detachable Components for Easy Cleaning:** The food container and bowl are easily detachable for thorough cleaning, ensuring hygiene and fresh food.

Detachable For Thorough Clean

Make sure the food is clean and fresh

Washing

The feeder's components are designed for easy detachment and cleaning, promoting food freshness.

- **Dual Power Supply:** Operates via power adapter or 3 D-batteries (not included) for continuous operation, even during power outages.

Dual Power Supply

Ensuring continuous operation even during power outages

Power Adapter

Battery

The feeder offers dual power options: AC adapter for primary use and D-batteries for backup during power interruptions.

- **Dry Food Compatibility:** Suitable for various dry food types, with a recommended kibble size of 2-12mm to prevent clogging.

APPLICABLE to all forms of dry food

Recommended Kibble Size

2-12mm

2mm

8mm

12mm

Recommended Food Types

Single-Shaped Dry Kibble

Mixed-Shaped Dry Kibble

Freeze-Dried Food

Reminder:

Do not use any kibble over 12mm, or it may get stuck inside the feeder and fail to feed your pet !!!

Guidance on compatible dry food types and recommended kibble sizes for optimal feeder performance.

WHAT'S INCLUDED

Upon unboxing your Olelica Automatic Pet Feeder, please ensure all the following components are present:

- Feeder Base Unit (with control panel and motor)
- Food Reservoir (transparent container)
- Feeding Bowl
- Lid for Food Reservoir
- Power Adapter
- Desiccant Packet (for moisture absorption)
- Instruction Manual (this document)

SETUP

Follow these steps to set up your Olelica Automatic Pet Feeder:

1. **Assemble the Base and Bowl:** Place the feeding bowl onto the base unit. Ensure the plastic piece on the bowl aligns with the groove on the base unit for a secure fit.
2. **Attach the Food Reservoir:** Carefully place the transparent food reservoir onto the base unit. Ensure it is seated firmly.
3. **Insert Desiccant Packet:** Locate the compartment under the lid of the food reservoir. Insert the provided desiccant packet into this compartment. This helps absorb moisture and keep the food fresh.
4. **Secure the Lid:** Place the lid onto the food reservoir. Ensure the grooves on the lid align correctly with the reservoir for a tight, twist-lock seal.
5. **Connect Power:** Plug the power adapter into the feeder and then into a wall outlet. For backup power, you may also insert 3 D-batteries into the battery compartment at the bottom of the unit.
6. **Fill with Food:** Open the lid and fill the reservoir with your pet's dry kibble. Ensure the kibble size is between 2-12mm to prevent dispensing issues.

OPERATING INSTRUCTIONS

The control panel allows you to program the feeder's functions. The display shows current time, meal number, and portion size.

1. Set Current Time:

- Press the **Settings** button (gear icon) to enter time setting mode.
- Use the **Up** and **Down** arrows to adjust the hour (military time format).
- Press **Settings** again to move to minutes, adjust with arrows.
- Press **Settings** to confirm and exit time setting.

2. Program Meal Times and Portions:

- Press the **Settings** button repeatedly until "MEAL 1" appears on the display.
- Use the **Up** and **Down** arrows to set the desired feeding time for Meal 1.
- Press **Settings** to move to portion adjustment for Meal 1. Use arrows to select portion size (0-8).
- Repeat this process for up to 6 meals ("MEAL 2" through "MEAL 6"). If you do not wish to set a meal, simply skip it by pressing the **Settings** button.
- After setting all desired meals, continue pressing **Settings** until the display returns to the current time.

3. Record Voice Message:

- Press and hold the **Record** button (microphone icon) until you hear a beep.
- Speak your message (up to 10 seconds) into the microphone.
- Release the **Record** button to save. The message will play at each scheduled meal time.

4. Manual Feeding:

- Press the **Manual Feed** button (hand icon) to dispense one portion of food immediately. You can press it multiple times for more portions.

5. Lock/Unlock Control Panel:

- To prevent accidental changes, press and hold the **Lock** button (padlock icon) for 3 seconds to lock the control panel. A lock icon will appear on the display.
- To unlock, press and hold the **Lock** button again for 3 seconds. The lock icon will disappear.

MAINTENANCE

Regular cleaning ensures the longevity and hygienic operation of your pet feeder.

- **Cleaning the Food Reservoir and Bowl:** Detach the food reservoir and feeding bowl from the base unit. Wash them with mild soap and water. Rinse thoroughly and ensure they are completely dry before reassembling.

Detachable For Thorough Clean

Make sure the food is clean and fresh

Washing

The feeder's components are designed for easy detachment and cleaning, promoting food freshness.

- **Cleaning the Base Unit:** Wipe the base unit with a damp cloth. Do not submerge the base unit in water, as it contains electronic components.
- **Desiccant Packet:** Replace the desiccant packet periodically (e.g., every 1-2 months) to maintain optimal moisture absorption and food freshness.

TROUBLESHOOTING

If you encounter issues with your feeder, try the following solutions:

- **Feeder not dispensing food:**

- Check if the food reservoir is empty.
- Ensure the kibble size is within the recommended 2-12mm range. Larger kibble may cause blockages.
- Verify that the feeder is properly powered (either plugged in or batteries are installed and charged).
- Check if the control panel is locked. Unlock it if necessary.

- **Display not working:**

- Ensure the power adapter is securely plugged in.
- If using batteries, check if they are correctly installed and have sufficient charge.

- **Voice recording not playing:**

- Ensure a message has been successfully recorded.
- Check the volume settings if available (not explicitly mentioned in data, but common).
