To ensure the longevity of your crochet tools and finished projects:

- **Tool Care:** Keep crochet hooks and needles clean and dry. Store them in the kit's bag to prevent loss or damage.
- **Yarn Storage:** Store unused yarn in a cool, dry place away from direct sunlight to prevent fading or damage.
- **Finished Projects:** Hand wash finished crochet items with mild soap and cold water. Gently squeeze out excess

water and lay flat to dry to maintain shape.

6. TROUBLESHOOTING

If you encounter difficulties during your crochet project, consider the following common issues and solutions:

Issue	Possible Cause	Solution
Difficulty with stitches (too tight/loose)	Inconsistent tension.	Practice basic stitches to achieve consistent tension. Ensure the yarn slides smoothly over the hook.
Yarn unraveling or splitting	Hook size incompatible with yarn, or yarn quality.	Ensure you are using the recommended hook size. If yarn continues to split, try a different hook or adjust your technique.
Project not matching pattern size	Incorrect stitch count or tension.	Count your stitches carefully after each round/row. Use stitch markers to keep track. Adjust tension if necessary.
Difficulty understanding instructions	New to crochet terminology or visual learning preference.	Refer to the video tutorials for visual demonstrations. Look up crochet terminology online if needed. Practice small swatches.
