

InvisiClean BELLA

InvisiClean Bella Air Purifier User Manual

Model: **BELLA** | Brand: **InvisiClean**

1. PRODUCT OVERVIEW

The InvisiClean Bella Air Purifier is designed to provide clean, fresh air for large rooms, covering up to 1500 sq ft. It features a multi-stage filtration system, smart Wi-Fi connectivity, and quiet operation, making it ideal for homes with allergies, pets, or concerns about smoke and dust.

Key features include:

- **H13 True HEPA Filter:** Captures 99.99% of pollen, dust, pet dander, and particles as small as 0.1 microns.
- **Multi-Stage Filtration:** Includes a Mesh Prefilter, H13 True HEPA filter, and Activated Carbon filter for comprehensive air purification.
- **Smart Wi-Fi Control:** Manage settings, schedules, and monitor air quality remotely via the InvisiClean app.
- **Quiet Operation:** Designed for ultra-quiet performance, especially in sleep mode.
- **360-Degree Air Intake:** Ensures efficient air cleaning from all directions.
- **PM2.5 Sensor & Auto Mode:** Automatically adjusts fan speed based on real-time air quality.
- **User-Friendly Controls:** Touchscreen panel with timer, sleep mode, auto mode, adjustable fan speed, and child lock.

2. SETUP GUIDE

2.1 Unpacking and Placement

1. Carefully remove the air purifier from its packaging.
2. Place the unit on a flat, stable surface. Ensure there is at least 6 inches of space around all sides for optimal airflow.

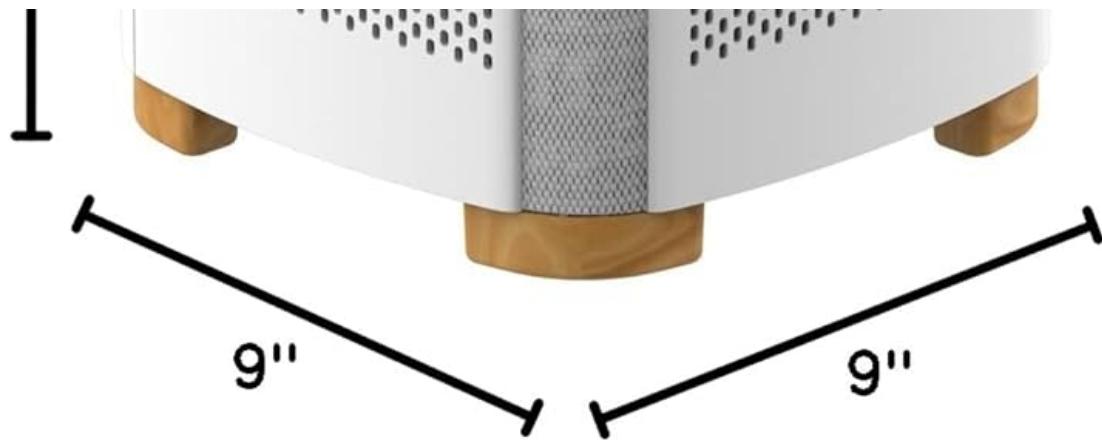

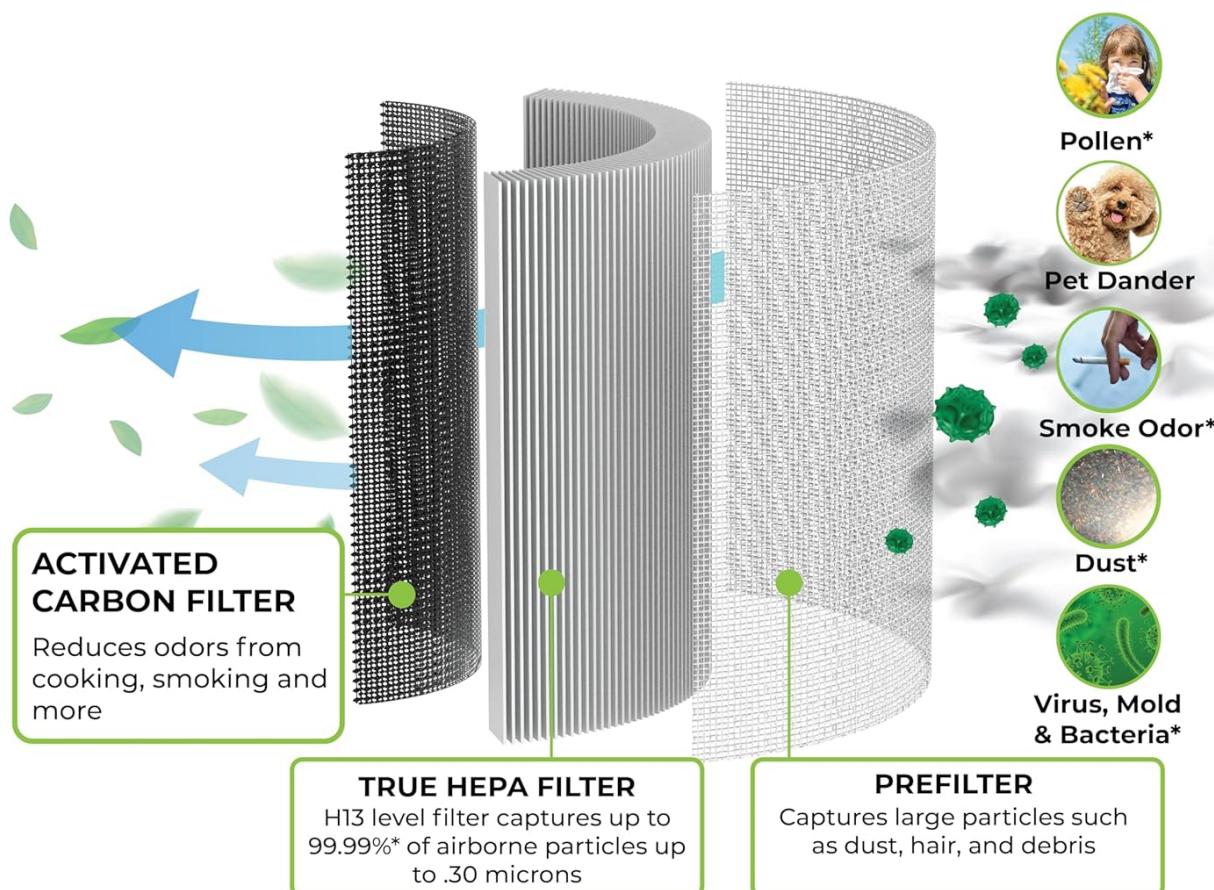

Image: Dimensions of the InvisiClean Bella Air Purifier (9"D x 9"W x 22.24"H), illustrating its compact footprint.

2.2 Filter Installation

The InvisiClean Bella comes with its filter pre-installed, but it may be wrapped in plastic for shipping. Please follow these steps to ensure proper filter setup:

1. Locate the magnetic side panel on the air purifier. Gently pull it open to reveal the filter compartment.
2. If the filter is wrapped, carefully remove it from the unit and unwrap any plastic packaging.
3. Insert the filter back into the compartment. The filter is cylindrical and designed for 360-degree air intake. Ensure it sits securely at the bottom.
4. Close the magnetic side panel until it clicks firmly into place.

Multi Stage Filtration

* Based on third-party testing, specifically, for dust at 0.5-3 microns (10-600 CADR), tobacco smoke at 0.1-1.0 microns (10-600 CADR), and pollen at 5-11 microns (25-450 CADR, as indicated by third-party testing conducted pursuant to ANSI/AHAM AC-1-2020 at 120 V 60 Hz and with Turbo Speed, the Ionizer, and UV-C function turned on. Independently tested by third-party lab to remove 99.99% for H1N1 Influenza A virus, 99.99% for Escherichia Coli, 99.99% for Staphylococcus Aureus, and 99.99% for Aspergillus Niger. True HEPA filter efficiency of 99.999% with respect to .03 μ m in diameter indicated by third party testing conducted pursuant to method EN ISO 29463-3:2018. InvisiClean makes no claim that this product helps eliminate or reduce the transmission of COVID-19.

2.3 Power Connection

Plug the power cord into a standard electrical outlet (110V-220V compatible).

3. OPERATING INSTRUCTIONS

3.1 Control Panel Overview

The InvisiClean Bella features an intuitive touchscreen control panel on its top surface. The digital display shows the PM2.5 reading and air quality indicator.

1. Timer Button

Select from 1- 12 hours

2. Sleep Mode

3. Auto Mode

4. Power Button

5. Fan Speed

6. Child Lock

7. Replace Filter Indicator

8. PM2.5 Indicator

9. Air Quality Indicator

Image: Close-up view of the InvisiClean Bella Air Purifier's top control panel, detailing the various touch buttons and digital display.

- **Power Button:** Turns the unit on/off.
- **Fan Speed Button:** Cycles through low, medium, high, and turbo fan speeds.
- **Auto Mode Button:** Activates intelligent mode where the unit adjusts fan speed based on detected air quality.
- **Sleep Mode Button:** Dims display lights and operates at the lowest fan speed for quiet night-time use.
- **Timer Button:** Sets an auto-off timer (1-12 hours).
- **Child Lock Button:** Press and hold to lock/unlock the control panel, preventing accidental changes.
- **Filter Reset Indicator:** Illuminates when filter replacement is needed.

3.2 Smart Wi-Fi App Control

For enhanced control and scheduling, download the InvisiClean app on your smartphone.

1. Download the "InvisiClean" app from your device's app store.
2. Follow the in-app instructions to connect your Bella Air Purifier to your home Wi-Fi network.
3. Once connected, you can remotely control all functions, set daily schedules, monitor real-time air quality, and receive filter replacement reminders.

4. MAINTENANCE

4.1 Filter Replacement

The filter should be replaced approximately every 6-8 months, depending on usage and air quality. The filter reset indicator light will illuminate when it's time for a change.

1. Turn off and unplug the air purifier.
2. Open the magnetic side panel.
3. Pull the old filter out using the tabs provided.
4. Insert a new InvisiClean Bella replacement filter (search for B0CCXNSGZX or B0CD17DRTN).
5. Close the side panel.
6. Plug in the unit. Press and hold the Filter Reset button on the control panel for 3-5 seconds until the indicator light turns off.

Whisper QUIET Performance

FAN SPEED NOISE LEVEL: 18.4DB
COMPARED TO OTHERS: 25-30DB

Image: Diagram illustrating the multi-stage filtration system of the InvisiClean Bella, including the prefilter, True HEPA filter, and activated carbon filter.

4.2 Exterior Cleaning

Wipe the exterior of the unit with a soft, dry cloth as needed to remove dust. Do not use abrasive cleaners or solvents.

5. TROUBLESHOOTING

- Unit not turning on:** Ensure the power cord is securely plugged into both the unit and the wall outlet. Check if the outlet is functional.
- Poor airflow or unusual noise:** Check if the filter is correctly installed and unwrapped. The filter might be clogged and require replacement. Ensure no obstructions are blocking the air intake or outlet.
- Wi-Fi connectivity issues:** Ensure your Wi-Fi network is 2.4GHz. Restart the air purifier and your router. Follow the app's troubleshooting steps for pairing.
- Filter indicator light remains on after replacement:** Press and hold the Filter Reset button on the control

panel for 3-5 seconds until the light turns off.
