## 6. TROUBLESHOOTING

---

If you encounter issues with your ETOE TV Box, refer to the following common troubleshooting steps.

- **No Power:** Ensure the power adapter is securely connected to both the device and a working power outlet. Try a different outlet if necessary.
- **No Picture on TV:** Verify that the HDMI cable is firmly connected to both the TV Box and the TV. Confirm that your TV is set to the correct HDMI input source.
- **No Wi-Fi Connection:** Check your router to ensure it is powered on and functioning correctly. Re-enter your Wi-Fi password in the device settings to confirm it is correct. Move the device closer to the router if signal strength is weak.
- **App Freezing/Crashing:** Close and restart the application. If the issue persists, try clearing the app's cache and data in the device settings (Settings > Apps > [App Name] > Clear Cache/Clear Data).
- **Remote Control Not Responding:** Check the batteries in the remote control and replace them if needed. Ensure there are no obstructions between the remote and the TV Box.
- **Slow Performance:** Close any unused applications running in the background. Consider restarting the device.

## 7. MAINTENANCE

---

Proper maintenance helps ensure the longevity and optimal performance of your ETOE TV Box.

- **Cleaning:** Use a soft, dry cloth to wipe the exterior of the device. Do not use liquid cleaners or abrasive materials.
- **Ventilation:** Ensure the device is placed in a well-ventilated area to prevent overheating. Do not block any ventilation openings.
- **Software Updates:** Periodically check for and install system software updates to ensure you have the latest features and security enhancements. You can usually find this option in the device's settings menu under 'About' or 'System Update'.
- **Storage Management:** Regularly clear unnecessary apps and data to free up storage space, which can improve performance.
