

## Turelar B0CCXW4LHR

# Turelar 5-in-1 Hand Blender Instruction Manual

Model: B0CCXW4LHR

Brand: Turelar

## 1. INTRODUCTION

Thank you for purchasing the Turelar 5-in-1 Hand Blender. This versatile kitchen appliance is designed to simplify your food preparation with its powerful motor and multiple attachments. Please read this manual carefully before use to ensure safe and optimal performance. Keep this manual for future reference.

## 2. SAFETY INFORMATION

- Always ensure the appliance is unplugged before assembling, disassembling, or cleaning.
- Do not immerse the motor body in water or any other liquid. Wipe with a damp cloth only.
- Keep hands, hair, clothing, and utensils away from moving parts during operation to prevent injury.
- Blades are sharp. Handle with care.
- Do not operate the blender for longer than the specified rated times to prevent motor overheating. Allow the motor to cool down between uses.
- Keep out of reach of children.
- Use only original Turelar attachments with this appliance.

### 3. PACKAGE CONTENTS

Verify that all items are present in your package:

- Motor Body
- Blending Stick
- Chopper (with blade and bowl)
- Whisk Attachment
- Measuring Cup
- Storage Stand
- Instruction Manual

### 4. SETUP AND ASSEMBLY

#### 4.1 Attaching/Detaching Accessories

The Turelar Hand Blender features a one-touch attachment system for easy swapping between functions.

1. To attach an accessory (blending stick, whisk, or chopper lid), align the accessory with the motor body and twist until it clicks into place.
2. To detach, press the release buttons on the sides of the motor body and twist to unlock the accessory.

## 4.2 Initial Cleaning

Before first use, wash all parts that will come into contact with food in warm soapy water, rinse thoroughly, and dry. The motor body should only be wiped with a damp cloth.

## 5. OPERATING INSTRUCTIONS

### 5.1 Power and Speed Control

The hand blender features a powerful 500W motor with 15,000 RPM for efficient processing. It offers two main modes and stepless speed adjustment:

- **Normal Mode:** Use the speed adjustment dial on top of the motor body to select speeds 1-7 for softer ingredients or delicate tasks.
- **Turbo Mode:** Press the 'TURBO' button for maximum power (15,000 RPM) to process hard ingredients like ice or tough meats quickly.

Image: Speed adjustment dial and Turbo button for precise control.

## 5.2 Functions and Usage

This 5-in-1 appliance can perform the following tasks:

- **Blend/Puree:** Use the blending stick for soups, sauces, smoothies, and baby food. The dome-shaped cover prevents splashing. You can blend directly in pots or bowls (excluding glass/ceramic to prevent scratches).
- **Chop/Mince:** Use the chopper attachment for vegetables, meat, nuts, and herbs.
- **Whisk/Whip:** Use the whisk attachment for whipping cream, egg whites, and batters.
- **Crush Ice:** Use the chopper or blending stick (with appropriate container) to crush ice for drinks.

## 5.3 Rated Operating Times

To protect the motor and ensure longevity, adhere to the following maximum continuous operating times:

- **Blending Stick:** 1 minute continuous operation, followed by 1 minute rest.
- **Chopper:** 15 seconds continuous operation, followed by 1 minute rest.
- **Whisk Attachment:** 2 minutes continuous operation, followed by 1 minute rest.

**After 3 sets of operation, allow the main unit to rest for approximately 30 minutes to prevent motor overheating.**

## 6. MAINTENANCE AND CLEANING

### 6.1 Easy Cleaning

The detachable design makes cleaning simple. After use, detach the blending stick, whisk, or chopper blade.

- **Self-Cleaning:** For the blending stick, simply immerse the blade end in a cup of water with a small amount of detergent and run the blender for a few seconds.
- **Rinsing:** All attachments (blending stick, whisk, chopper bowl, and blades) can be rinsed under running water.
- **Dishwasher Safe:** The cup, chopper bowl, and whisk attachment are dishwasher safe (up to 70°C for 2 hours).
- **Motor Body:** The motor body should never be immersed in water. Wipe it clean with a dry or slightly damp cloth.

## 7. TROUBLESHOOTING

- **Overload Protection:** The blender is equipped with overload protection. If the motor stops due to excessive load, unplug the unit, remove some ingredients, and wait a few minutes before restarting.
- **Overheat Protection:** The blender also has overheat protection. If the motor becomes too hot, it will automatically shut off. Unplug the unit and let it cool down completely (approx. 30 minutes) before resuming use.
- **Appliance Not Starting:** Ensure the unit is properly assembled and plugged into a working power outlet. Check if the power button is pressed correctly.
