GEEKVAPE GALENDG5K

GEEKVAPE Aegis Legend 5 Kit: 200W TC Box Mod & Z Sub Ohm Tank 5 User Manual

Model: GALENDG5K | Brand: GEEKVAPE

INTRODUCTION

Welcome to the GEEKVAPE Aegis Legend 5 Kit user manual. This kit features the powerful 200W TC Box Mod and the 7ml Z Sub Ohm Tank 5, designed for an enhanced vaping experience. The Aegis Legend 5 is built to be durable, with IP68 rating for water, dust, and shock resistance. Please read this manual thoroughly before using your device to ensure proper operation and safety.

WHAT'S IN THE BOX

Upon unboxing your GEEKVAPE Aegis Legend 5 Kit, please verify that all the following components are included:

- 1 * Aegis Legend 5 Box Mod (*batteries not included*)
- 1 * Z Sub Ohm Tank 5 (5.5 ml) (New Edition 2026)
- 1 * Pre-installed Z0.2XM Coil (Boost version, 70-80 W)
- 1 * Spare Z0.4XM Coil (Boost version, 50-60 W)
- 1 * Spare Glass Tube (7 ml)
- 1 * Spare Parts Kit
- 1 * User Manual and Warning & Information Cards

SETUP

1. Battery Installation

The Aegis Legend 5 Mod requires two external 18650 batteries (not included).

1. Open the battery compartment cover located at the bottom of the mod.
2. Insert two 18650 batteries according to the correct polarity markings (+/-).
3. Close the battery compartment cover securely.

2. Coil Installation

1. Unscrew the base of the Z Sub Ohm Tank 5.
2. Push the coil into the designated slot in the tank base. Ensure it is firmly seated.
3. Reattach the tank base to the tank.

3. Filling the Tank

1. Push the top cap of the Z Sub Ohm Tank 5 to open the filling port.
2. Insert the e-liquid bottle nozzle into the filling port and fill the tank. Do not overfill.
3. Close the top cap securely.
4. After filling, wait at least 5 minutes for the coil to become fully saturated with e-liquid before first use. This prevents dry hits and extends coil life.

OPERATING INSTRUCTIONS

Power On/Off

- To turn on: Press the fire button 5 times rapidly.
- To turn off: Press the fire button 5 times rapidly. The screen will display "Power Off".

Mode Selection

The Aegis Legend 5 offers multiple operating modes. Press the fire button 3 times rapidly to enter the mode selection menu. Use the adjustment buttons (+/-) to navigate and the fire button to confirm.

- **Smart Mode:** Automatically sets optimal power based on tank resistance.
- **Normal Mode:** Balances flavor and battery life based on resistance.
- **Eco Mode:** Minimizes power consumption based on tank resistance for extended battery life.
- **Custom Mode:** Allows full manual power adjustment, resistance is irrelevant.
- **TC (Temperature Control) Mode:** Temperature-defined output, resistance is irrelevant.

A-Lock Function

The A-Lock switch, located on the side of the mod, allows you to instantly lock all buttons to prevent accidental firing or setting changes. Slide the switch up to lock and down to unlock.

Image: Close-up of the A-Lock switch and the dynamic screen display on the Aegis Legend 5.

Screen Display

The 1.08-inch TFT color screen displays essential information such as wattage, battery level, coil resistance, and puff count. The dynamic light strip provides additional visual feedback.

MAINTENANCE

Cleaning

- Regularly clean the 510 connection on the mod and the tank base with a dry cloth to ensure good conductivity.
- If e-liquid accumulates, gently wipe it away.
- The tank can be disassembled and rinsed with warm water (without the coil) to remove e-liquid residue. Ensure all parts are completely dry before reassembly.

Coil Replacement

Coils are consumable parts and should be replaced when you notice a burnt taste, reduced vapor production, or diminished flavor.

1. Ensure the tank is empty or nearly empty of e-liquid.
2. Unscrew the base of the Z Sub Ohm Tank 5.
3. Pull out the old coil from the tank base.
4. Push a new coil firmly into the slot.
5. Reattach the tank base and refill the tank. Remember to prime the new coil by waiting 5 minutes after filling.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not turning on	Batteries incorrectly installed or depleted. Device locked.	Check battery polarity and charge level. Ensure A-Lock switch is in the unlocked position. Press fire button 5 times rapidly.
No vapor production	Coil not installed correctly, coil burnt out, tank empty, wattage too low.	Check coil installation. Replace coil if burnt. Refill tank. Increase wattage.
Burnt taste	Coil dry or burnt out, insufficient e-liquid, wattage too high.	Ensure coil is saturated (wait 5 mins after filling). Refill tank. Replace coil. Reduce wattage.
Leaking tank	Coil not seated properly, O-rings damaged, tank overfilled, loose connections.	Ensure coil is firmly seated. Check O-rings for damage and replace if necessary. Do not overfill. Tighten all tank connections.
"No Atomizer" error	Tank not connected, coil not detected, faulty coil.	Ensure tank is securely screwed onto the mod. Check coil installation. Try a new coil. Clean 510 connection.

SPECIFICATIONS

- **Product Name:** Aegis Legend 5 Kit
- **Model Number:** GALENDG5K
- **Battery Specification:** Dual external 18650 (*not included*)
- **Output Power:** 5 - 200 W
- **Chipset:** AS 4.0 Chip
- **Charging Port:** Type-C
- **Screen:** 1.08 inch TFT Color Screen

- **Tank Capacity:** 5.5 ml (with Z Sub Ohm Tank 5)
- **Filling:** Top Filling System
- **Airflow:** Top Airflow System
- **Coil Compatibility:** GeekVape Z Series Coils (Z0.2XM, Z0.4XM, etc.)
- **Special Features:** IP68 Water, Dust, and Shock Resistant; Smart Mode, Normal Mode, Eco Mode, Custom Mode, TC Mode.
- **Dimensions (L x W x H):** 8 x 3 x 4 centimeters (Mod only, approximate)

Safety Information

Important Safety Warnings:

- This product is intended for adult users only. Sale is prohibited to persons under the age of 18.
- This product does not contain nicotine or tobacco. E-liquid is not included.
- Use only high-quality, authentic 18650 batteries with appropriate discharge rates.
- Do not expose the device to extreme temperatures, direct sunlight, or water beyond its IP68 rating.
- Do not use if the device or batteries are damaged.
- Keep out of reach of children and pets.
- Always charge batteries using a suitable external charger for optimal safety and battery life. While the device has a Type-C port, external charging is recommended.
- Do not disassemble the device.

Warranty and Support

GEEKVAPE products come with a limited warranty. Please refer to the warranty card included in your package for specific terms and conditions. For technical support, troubleshooting assistance, or warranty claims, please contact GEEKVAPE customer service through their official website or the retailer where you purchased the product.
