iPettie Waterfall

iPettie Waterfall Dog Water Fountain User Manual

Model: Waterfall

Brand: iPettie

1. PRODUCT OVERVIEW

The iPettie Waterfall Dog Water Fountain is designed to provide a continuous supply of fresh, filtered water for your pets. Featuring a large 6-liter (203 oz) capacity, a 5-stage filtration system, and a quiet pump, it ensures your pets stay well-hydrated with clean water. The fountain also includes a night light and a water shortage alert system for convenience and safety.

2. KEY FEATURES

- **203 OZ (1.6 GAL) Capacity:** Large reservoir suitable for multi-pet households, reducing the frequency of refills.
- **Dual Drinking Heights:** Features two heights for drinking, accommodating both senior and young pets comfortably.
- **5-Stage Circulating Filtration System:** Provides healthy, oxygen-enriched, and clean water by removing impurities.
- **Ultra-Quiet Pump:** Operates at a low noise level ($\leq 35\text{dB}$), ensuring a peaceful environment.
- **Night Light with ON/OFF Switch:** An integrated LED light provides visibility in the dark and can be turned on or off as desired.
- **Water Shortage Alert:** A transparent water level window with an LED light indicates when refilling is needed. The

pump automatically shuts off and the light turns red when water levels are critically low.

1.6 Gal / 6L Large Capacity

No needs to be refilled frequently

**203oz
Large Capacity**

BPA free

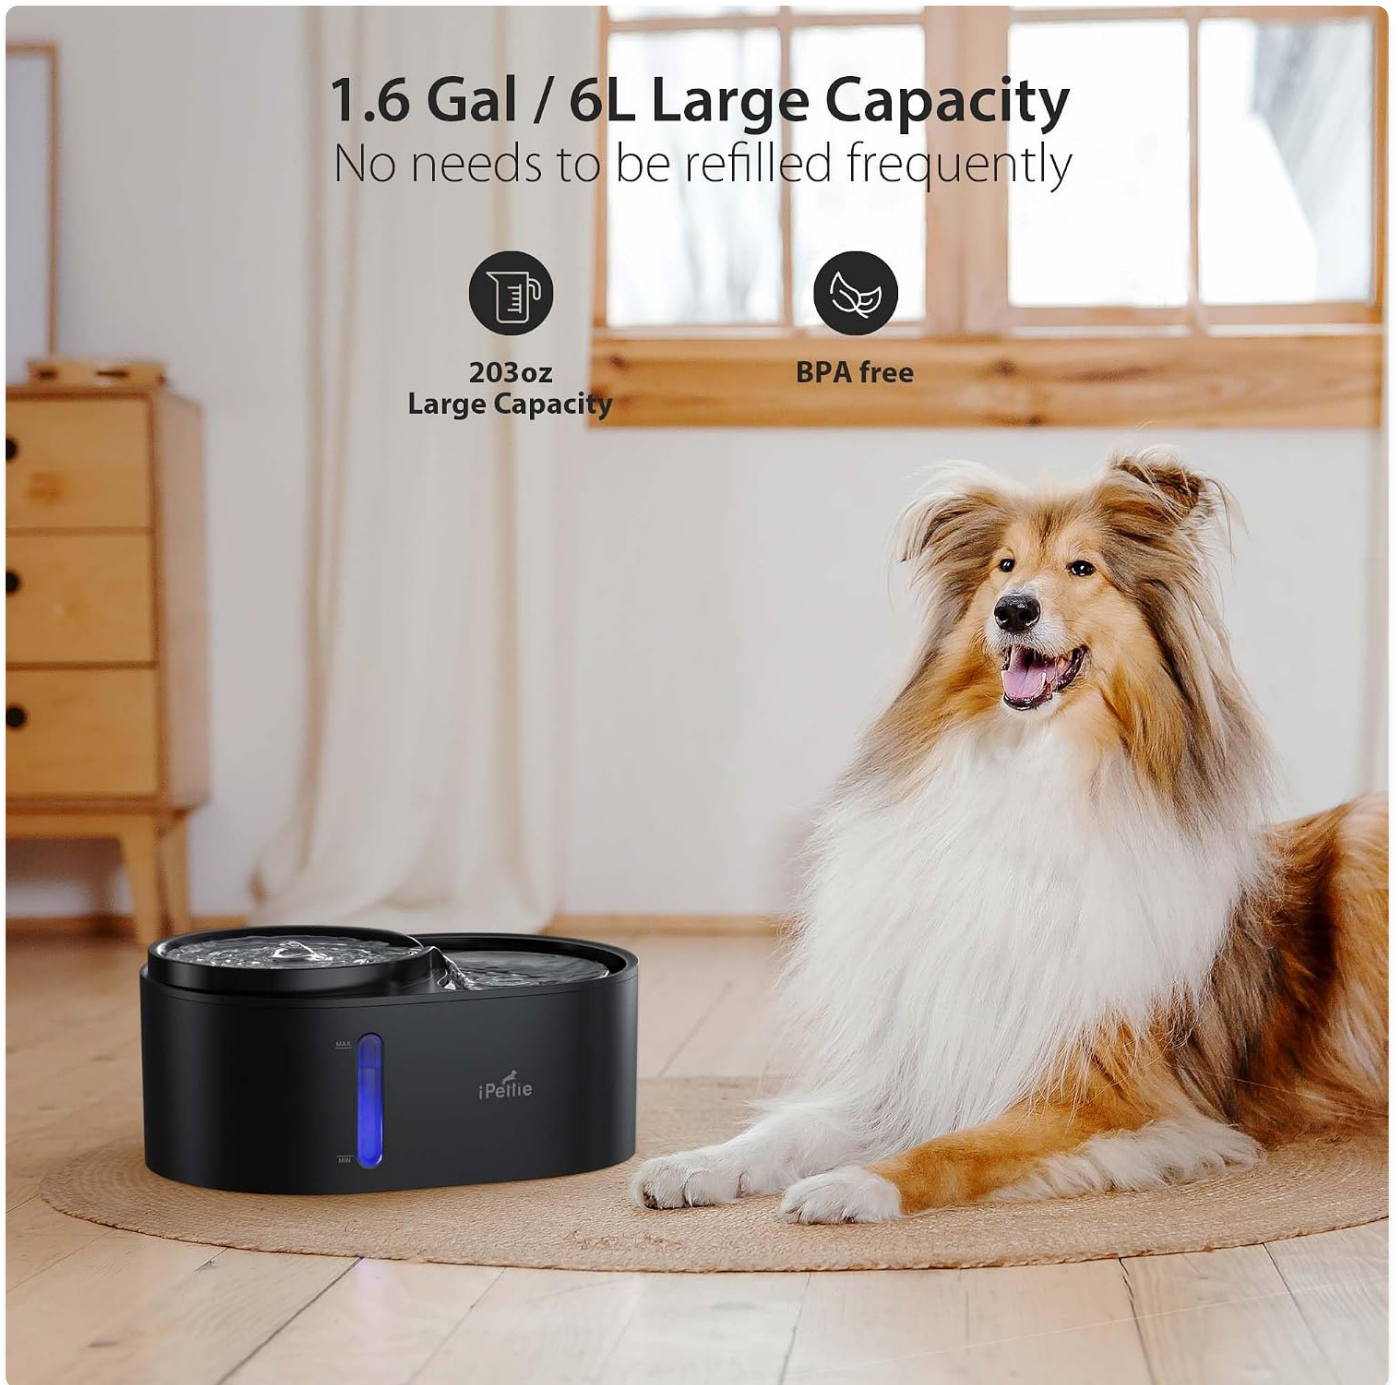

Image: The fountain next to a dog, illustrating its 1.6 Gallon (6 Liter) large capacity, designed for less frequent refills.

2 Wide Drinking Trays

Optional heights, not crowded

Image: A greyhound, a puppy, and a cat drinking from the fountain, showcasing the two wide drinking trays that accommodate multiple pets simultaneously.

Whisper Quiet
Operation $\leq 35\text{dB}$

Image: An exploded diagram showing the components of the 5-stage circulating purification system, including PP cotton, activated carbon, and ion exchange resin, along with the pre-filter sponge.

Easy to Disassemble & Clean

No cable groove, barrier-free

Image: A golden retriever sleeping peacefully next to the fountain, emphasizing its whisper-quiet operation ($\leq 35\text{dB}$).

3. SETUP INSTRUCTIONS

1. **Unpack Components:** Carefully remove all parts from the packaging: the main base, water tray, pump, filter, and power adapter.
2. **Rinse Components:** Wash all parts (except the pump and power adapter) with water before first use.
3. **Assemble Pump:** Ensure the pump is clean. If disassembled for cleaning, reassemble it.
4. **Install Filter:** Place the filter into its designated slot in the water tray. Ensure it is seated correctly.
5. **Install Sponge:** Place the sponge filter on top of the main filter.
6. **Place Water Tray:** Carefully place the water tray onto the main base, ensuring it clicks into place securely.
7. **Fill with Water:** Fill the fountain with clean water up to the MAX line indicated on the transparent window. Do not overfill.
8. **Connect Power:** Plug the power adapter into a wall outlet. The fountain will begin operating.

5-Stage Circulating Purification

Each lick is fresh and clean

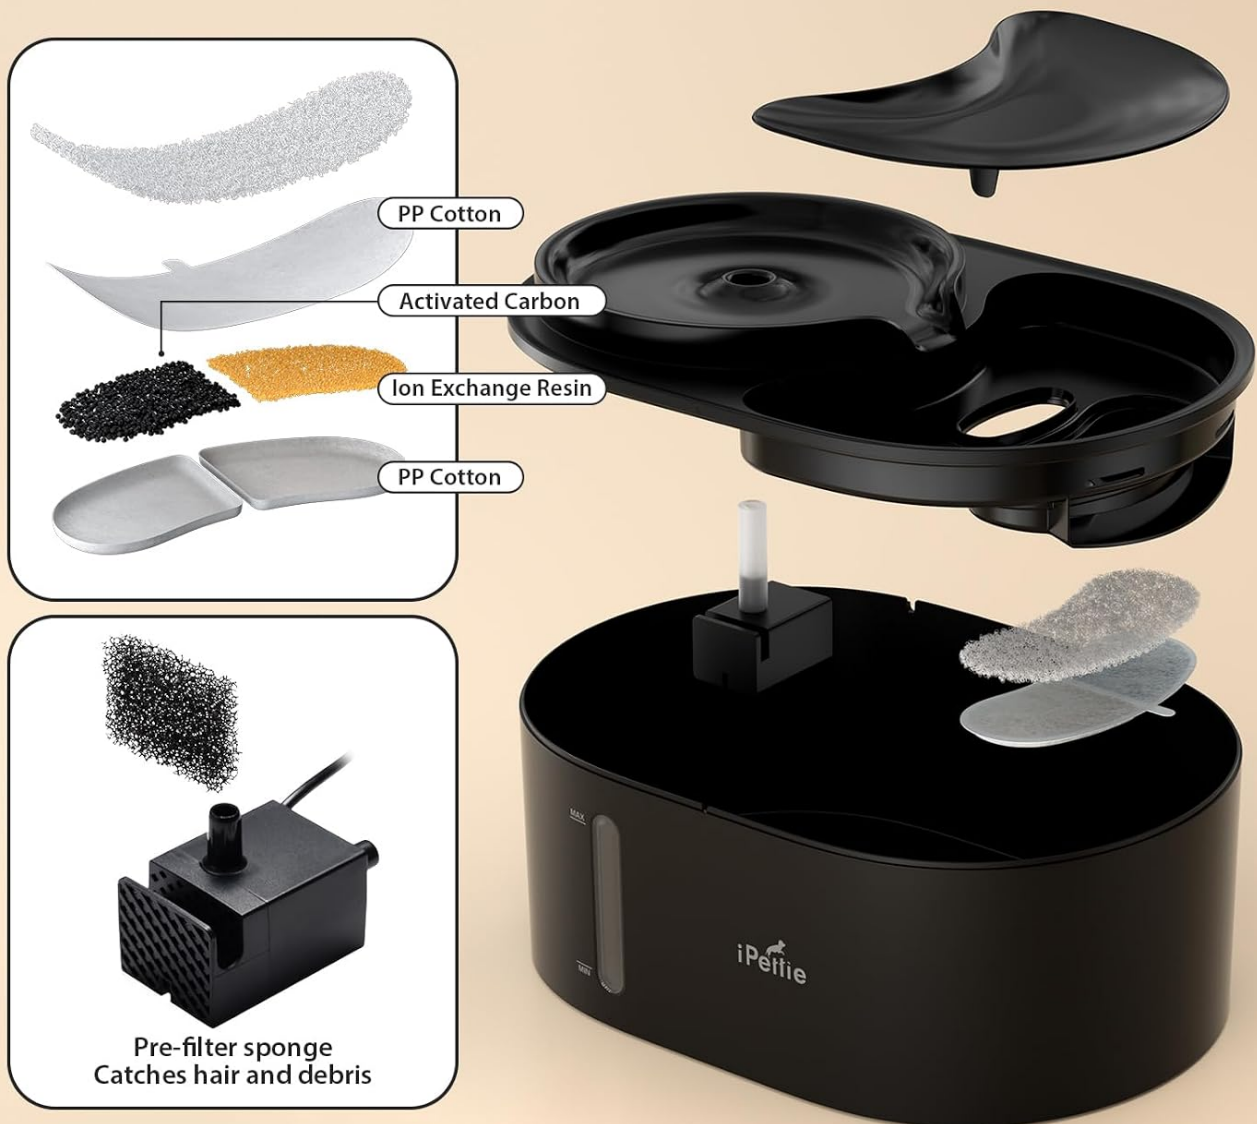

Image: An exploded view of the fountain demonstrating its easy-to-disassemble design for cleaning and setup.

Image: A four-step diagram illustrating how to change the filter: 1. Press to open the tray. 2. Put the filter in. 3. Put the sponge in. 4. Close the tray with a "click" sound.

4. OPERATING INSTRUCTIONS

- **Power On/Off:**

- To turn the fountain on, plug it into a power outlet. The night light will illuminate (blue).
- To turn the night light off, press the power button once. The fountain will continue to operate.
- To turn the fountain completely off, press the power button again.
- **Water Level Monitoring:** The transparent window on the side of the fountain allows you to easily monitor the water level.
- **Water Shortage Alert:** When the water level drops too low, the pump will automatically shut off to prevent dry running, and the LED light will turn red, indicating that a refill is needed.

Switchable Bright LED Light

On or Off, it's up to you

Image: The fountain displaying its switchable bright LED light (blue) and the water shortage reminder (red light) when the water level is low.

How to Change a New Filter

Press to open the tray.

Put the filter in.

Put the sponge in.

Close the tray with a "click" sound.

Image: A diagram illustrating the power control options: Light On (plug in), Light Off (press power button once), Power Off (press power button again).

5. MAINTENANCE

5.1 Regular Cleaning

For optimal performance and hygiene, it is recommended to clean the fountain regularly, ideally once a week. Disassemble all parts and wash them thoroughly with water. The fountain's design allows for barrier-free cleaning.

5.2 Pump Cleaning

The pump should be cleaned periodically to prevent mineral buildup and ensure smooth operation. Follow these steps:

1. Take the pump cover off.
2. Remove the sponge for rinsing.
3. Remove the impeller with tweezers.
4. Clean the inside of the pump with a brush to remove any debris or residue.

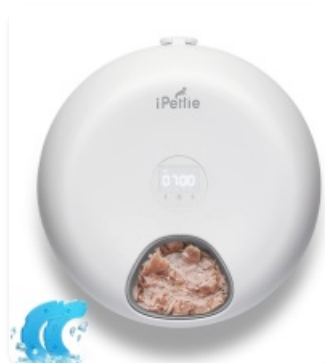

Image: A four-step diagram illustrating the pump cleaning process: 1. Take the pump cover off. 2. Remove the sponge for rinse. 3. Remove the impeller with the tweezers. 4. Clean the inside with a brush.

5.3 Filter Replacement

The 5-stage filter and sponge should be replaced regularly to maintain water quality. The frequency depends on usage and water hardness, but generally, it is recommended to replace the filter every 2-4 weeks and the sponge every 1-2 weeks.

1. Press to open the water tray.
2. Remove the old filter and sponge.

3. Insert the new filter into the designated slot.
4. Place the new sponge on top of the filter.
5. Close the tray securely until you hear a "click" sound.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Fountain not working / No water flow	Water level is too low. Power adapter not properly connected. Pump is clogged with debris or hair. Pump impeller is stuck.	Refill water to the MAX line. Check power connection and wall outlet. Clean the pump thoroughly as per maintenance instructions. Remove and clean the impeller.
Fountain is noisy	Water level is too low. Pump is dirty or has mineral buildup. Fountain not placed on a flat surface.	Refill water to the MAX line. Clean the pump and all fountain components. Ensure the fountain is on a stable, level surface.
Water appears dirty or has odor	Filter needs replacement. Fountain needs cleaning.	Replace the filter and sponge. Clean all fountain components thoroughly.
LED light is red	Water level is critically low.	Refill water immediately. The pump will resume operation once sufficient water is added.
