Betatree 1.6" Touch Screen Smart Watch for Women - Instruction Manual

Model: 692338b0-f6cb-4a85-9b66-fbfe6835baf9

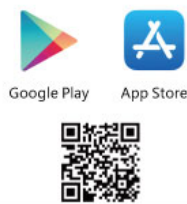

INTRODUCTION

This manual provides detailed instructions for setting up, operating, and maintaining your Betatree 1.6-inch Touch Screen Smart Watch. This smartwatch is designed for women, featuring a 1.6-inch full touch screen with 240*288 high-definition resolution and a metal frame embellished with diamonds. It offers Bluetooth call functionality, smart notifications, over 100 sports modes, and comprehensive health monitoring features including heart rate, blood pressure, blood oxygen, and sleep tracking. Please read this manual carefully to ensure proper use and to maximize your experience with the device.

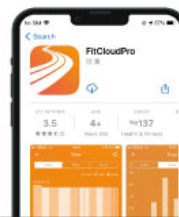

Turn on your mobile phone Bluetooth, connect our smart watch to the "FitCloudPro" App

1. Turn on the "Bluetooth" function of your phone.

2. Open "Google Play" or the "App Store".

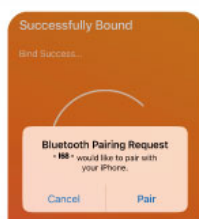

3. Search for the "FitCloudPro" App and download it.

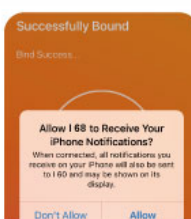

4. Open the App, click "Device", find "I68" and bind it.

5. Click "✓" to agree to the phone binding request.

6. Click "Pair" to consent to pair the watch with your phone.

7. Click "Allow" to permit the watch to receive your phone notifications.

8. Open the dropdown menu on the watch, click on the call icon, and choose to enable or disable media audio.

Tip: Media audio can only be activated when the Call audio is enabled and cannot be turned on independently.

SETUP GUIDE

1. App Download and Installation

1. Ensure your mobile phone's Bluetooth is turned on.
2. Search for "FitCloudPro" in the Google Play Store (for Android) or Apple App Store (for iOS).
3. Download and install the "FitCloudPro" application.
4. When opening the app for the first time, grant all necessary permissions (e.g., WLAN & Cellular, Bluetooth access, tracking).
5. You can choose to register an account or proceed as a guest.
6. Fill in your basic information (date of birth, gender, height, weight, daily steps goal) to ensure accurate data tracking.

For direct download, scan the QR code or visit: <http://fitcloud.hetangsmart.com/qrcode/>

2. Initial Pairing

1. In the FitCloudPro app, navigate to the 'Device' section.
2. Click 'Search now' to find your device. The watch will typically appear as "I68" or a similar identifier.
3. Select your watch from the list and confirm the pairing request on both your phone and the watch.
4. Allow the app to receive notifications from your phone.

3. Bluetooth Call Function Setup

1. On your smartwatch, swipe down from the top of the screen to access the quick settings panel.
2. Tap the phone icon (Bluetooth call toggle) to enable the Bluetooth call function on the watch.
3. On your phone, go to Bluetooth settings. You should see "Watch Call" as an available device.
4. Connect to "Watch Call" from your phone's Bluetooth settings.
5. Once connected, you can answer/make calls directly from your smartwatch.
6. To add favorite contacts, open the FitCloudPro app, go to 'Devices' then 'Favorite Contacts'. You can add up to 10 frequently used contacts.

OPERATING INSTRUCTIONS

1. Customizing Watch Faces

The smartwatch offers over 100 watch faces to choose from within the FitCloudPro app. You can also customize your watch face using your own pictures.

1. Open the FitCloudPro app and navigate to 'Device' then 'Watchface'.
2. Browse through the available watch faces and select one you like.
3. To use a custom picture, select the first watch face option (usually a '+' icon or a default image).
4. Click the '+' icon to choose a picture from your phone's album. Adjust the picture as desired and synchronize it to your watch.

2. Health Monitoring

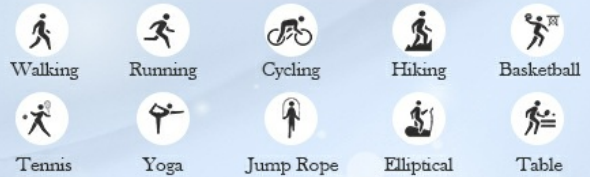

The smartwatch continuously monitors various health metrics:

- **Heart Rate:** Real-time monitoring of your heart rate.
- **Blood Pressure:** Monitors blood pressure levels throughout the day.
- **Blood Oxygen:** Tracks blood oxygen saturation.
- **Sleep Monitoring:** Automatically tracks your sleep patterns, including deep sleep, light sleep, and awake time.
- **Female Menstrual Cycle:** Provides tracking and reminders for menstrual periods. This feature can be enabled and configured in the app under 'Women's Health'.

Note: This device is not intended for medical use. Consult a healthcare professional for any health concerns.

Take Control of Your Health

This health watch is capable of monitoring your heart rate, blood pressure, and blood pressure around the clock.

Health monitoring features including blood pressure, sleep, heart rate, blood oxygen, and menstrual cycle tracking.

3. Fitness Tracking and Sports Modes

The smartwatch supports over 100 sports modes, tracking your activity data such as steps, distance, and calories burned. You can view detailed data in the FitCloudPro app.

- Select the appropriate exercise mode (e.g., walking, running, cycling, yoga) before starting your workout.
- The watch will record your activity data, which can be reviewed in the app to help you adjust your fitness routine.

Tracking multiple sports modes and activity data.

4. Smart Notifications

Receive call and message reminders directly on your smartwatch. After connecting via Bluetooth, you can view text messages and notifications from apps like WhatsApp, Instagram, Twitter, and Facebook.

- Ensure Bluetooth is connected for both the watch and "Watch Call" in your phone's settings.
- Enable app notifications within the FitCloudPro app under 'Push Notifications'.
- The watch also supports AI voice control for convenience.

5. Other Functions

The smartwatch includes several additional useful features:

- **Alarm Clock:** Set alarms directly from the watch or app.
- **Stopwatch & Timer:** For timing activities.
- **Weather Display:** Get real-time weather updates (requires app connection and location permission).
- **Music Control:** Control music playback on your phone.
- **Camera Control:** Use the watch as a remote shutter for your phone's camera.
- **Sedentary Reminders:** Get alerts to move after periods of inactivity.
- **Drink Water Reminders:** Set reminders to stay hydrated.
- **AI Voice:** Utilize voice commands for various functions.
- **Time Format:** Change between 12-hour and 24-hour formats in the app under 'Device' -> 'Time Format'.
- **Unit Preference:** Adjust units for length, weight, and temperature (e.g., Metric/Imperial, Celsius/Fahrenheit) in the app under 'Me' -> 'Unit Prefer'.

Additional multifunctional features of the smartwatch.

Video guide on how to set units for length, weight, temperature, and time format within the app.

MAINTENANCE

1. Charging

The smartwatch uses magnetic charging. A full charge typically takes 2 hours and provides 3-7 days of normal use, depending on usage patterns.

- Connect the magnetic charging cable to the charging points on the back of the watch.

- Ensure the other end of the cable is connected to a standard USB power adapter (not included).
- Avoid using damaged chargers or cables.

Product parameters including charging time and battery capacity.

2. Water Resistance

The smartwatch is IP67 waterproof, meaning it is resistant to splashes, sweat, and rain. It can be worn while washing hands but is not suitable for swimming, diving, or showering with hot water.

- Avoid prolonged exposure to water.
- Do not press buttons underwater.
- Dry the watch thoroughly after exposure to water.

3. Cleaning

Regularly clean your smartwatch and bands to prevent skin irritation and maintain functionality.

- Wipe the watch screen and body with a soft, damp cloth.
- Clean the bands with mild soap and water, then rinse thoroughly and dry.
- Avoid using harsh chemicals or abrasive materials.

TROUBLESHOOTING

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.
- **Unable to pair with phone:**
 - Make sure Bluetooth is enabled on your phone and the watch.
 - Ensure the FitCloudPro app has all necessary permissions.
 - Restart both your phone and the smartwatch.
 - Keep the watch within 0.5 meters of your phone during pairing.
- **Notifications not appearing:**

- Check if app notifications are enabled in the FitCloudPro app.
 - Verify that your phone's notification settings allow the FitCloudPro app to display alerts.
 - Ensure the watch is connected to your phone via Bluetooth.
- **Inaccurate health data:**
 - Ensure the watch is worn snugly on your wrist, not too tight or too loose.
 - Update your personal information (height, weight, gender) in the FitCloudPro app.
 - Note that environmental factors and individual physiology can affect sensor readings.
 - **Short battery life:**
 - Frequent use of features like Bluetooth calls, continuous heart rate monitoring, and screen brightness can reduce battery life.
 - Reduce screen brightness and turn off unnecessary notifications to extend battery life.

SPECIFICATIONS

Product Dimensions	1.12 x 0.39 x 0.07 inches
Item Weight	7.8 ounces
Model Number	692338b0-f6cb-4a85-9b66-fbfe6835baf9
