# Yaheetech Cactus Cat Tree Instruction Manual

Model: 613843fr

### IMPORTANT SAFETY INFORMATION

- Place the cat tree on a flat, stable surface to prevent tipping.
- Utilize the provided anti-tipping strap to secure the cat tree to a wall, especially for taller structures or active cats.
- Regularly inspect all screws and connections. Tighten them as needed to maintain structural integrity.
- Keep the cat tree away from open flames, heaters, and excessive moisture to prevent damage and ensure safety.
- Supervise pets during their initial interactions with the cat tree to ensure safe usage.
- Discontinue use if any part of the cat tree becomes damaged or unstable.

## PACKAGE CONTENTS

Before beginning assembly, please verify that all components are present and undamaged. Refer to the included parts list for detailed identification. Typical components for this multi-level cat tree include:

- Base Plate
- Various Platforms (e.g., resting platforms, elevated top perch)
- Cat Condo/House
- Sisal-wrapped Scratching Posts
- Plush-covered Support Posts
- Hanging Toys (e.g., plush ball)
- Assembly Hardware (screws, bolts, Allen key)
- Anti-tipping Strap

## SETUP AND ASSEMBLY

Follow these general steps for assembling your Yaheetech Cactus Cat Tree. Refer to the specific assembly instructions included in your package for detailed diagrams and part identification.

1. Unpack all components and lay them out on a clean, soft surface to prevent scratches.
2. Identify the base plate and securely attach the lowest support posts using the provided hardware.
3. Continue assembling the structure by attaching platforms and additional posts layer by layer. Ensure all connections are firm.
4. Install the cat condo and the elevated top perch according to the instructions.
5. Attach any hanging toys to designated points on the cat tree.
6. Once fully assembled, place the cat tree in its desired location. Secure it to a wall using the anti-tipping strap for maximum stability.
7. Before allowing your pets to use the tree, double-check that all connections are tight and the entire structure is stable.

## OPERATING INSTRUCTIONS

The Yaheetech Cactus Cat Tree is designed to provide a comprehensive activity center for your cat. It offers multiple areas for various feline behaviors:

- **Scratching:** Encourage your cat to use the sisal-wrapped posts for scratching. This helps maintain claw health and diverts scratching behavior away from household furniture.
- **Climbing and Playing:** The multi-level design facilitates climbing, jumping, and exploration. The hanging toy provides an interactive element for play and exercise.
- **Resting and Observing:** Cats can relax on the various platforms, seek privacy inside the cozy condo, or enjoy an elevated vantage point from the top perch.

Image: A cat actively scratching one of the sisal-covered posts, demonstrating the natural sisal material's effectiveness.

## MAINTENANCE

Proper maintenance ensures the longevity and safety of your cat tree.

- **Cleaning:** Use a lint roller, vacuum cleaner with a brush attachment, or a soft brush to remove loose fur and debris from the plush surfaces. For soiled areas, spot clean with a damp cloth and a mild, pet-safe cleaner. Avoid using harsh chemicals or abrasive materials.
- **Stability Check:** Periodically check all screws, bolts, and connections to ensure they remain tight. Re-tighten any loose fasteners to maintain the tree's stability.
- **Damage Inspection:** Regularly inspect the sisal posts for excessive wear and tear. Check plush coverings for rips or damage. Replace or repair damaged parts promptly to ensure continued safety and functionality.
- **Environment:** Keep the cat tree in a dry, indoor environment. Avoid placing it in areas with high humidity or direct sunlight, which can degrade materials over time.

## Eco-healthy Particle Board

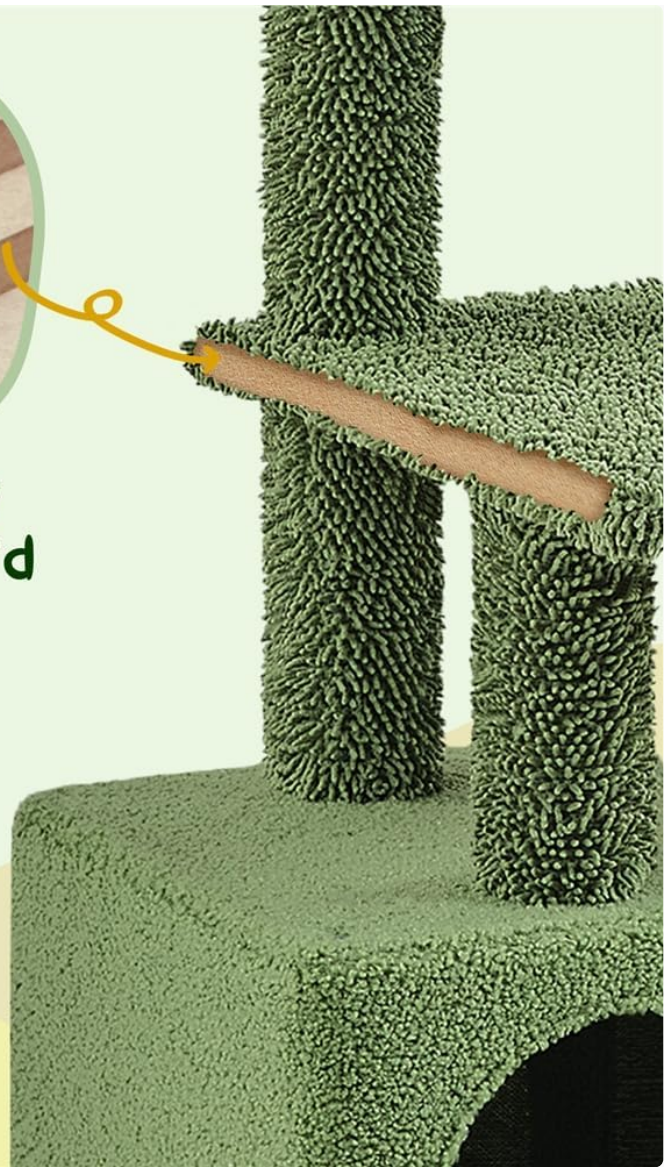

Image: Detailed view of the soft, textured muppy covering material used on the cat tree, highlighting its comfort.

## TROUBLESHOOTING

- **Issue: The cat tree feels wobbly or unstable.**

**Solution:** Ensure all assembly screws are fully tightened. Verify that the cat tree is placed on a flat, level surface. If instability persists, use the provided anti-tipping strap to secure the tree to a wall.

- **Issue: My cat is not using the scratching posts.**

**Solution:** Try sprinkling catnip on the sisal-wrapped posts to attract your cat. Gently guide your cat's paws to the posts to demonstrate their purpose. Ensure the posts are easily accessible.

- **Issue: My cat shows no interest in the cat tree.**

**Solution:** Place favorite toys or treats on different levels of the tree to encourage exploration. Allow your cat time to get accustomed to the new structure. Sometimes, placing the tree near a window can make it more appealing.

# Resting Platforms
