2. Setup Instructions

The iDealBed 7i Custom Adjustable Bed is designed for quick and easy assembly with no tools required. The mattress is shipped separately and will need to be unboxed and allowed to expand.

Adjustable Bed Base Assembly

1. **Unpack Components:** Carefully remove all components from the packaging. Ensure all parts are present: adjustable base frame, legs, power cord, and remote control.
2. **Unfold Frame:** The adjustable bed frame comes folded. Gently unfold the frame until it lies flat.
3. **Attach Legs:** Twist the multi-height legs into the designated threaded receivers on the underside of the frame. You can combine the 8", 3", and 2" sections to achieve your desired total height.

4. **Connect Power:** Locate the power cord and connect it to the control box on the adjustable base. Plug the other end into a grounded electrical outlet.
5. **Attach Mattress Retainer Bar:** Simply twist in the mattress retainer bar at the foot of the bed to prevent the mattress from shifting during adjustments.
6. **Zero Clearance Option:** If using the zero clearance option, the base can be placed directly on a platform bed or any flat surface without the legs.

Mattress Setup

1. **Unbox Mattress:** Carefully remove the Nova Luxury Memory Foam Mattress from its packaging.
2. **Allow Expansion:** Place the mattress on the assembled adjustable bed base and allow it to expand fully. This may take several hours to a day.

3. Operating Instructions

Your iDealBed Sleep System offers a variety of features for personalized comfort and support. Use the wireless remote or the Bluetooth app to control the bed's functions.

Wireless Remote Control

The backlit wireless remote provides intuitive control over all bed functions.

- **Head Elevation:** Use the "HEAD UP" and "HEAD DOWN" buttons to adjust the head section up to 80 degrees.
- **Foot Elevation:** Use the "FOOT UP" and "FOOT DOWN" buttons to adjust the foot section up to 50 degrees.
- **Pillow Tilt:** The "TILT UP" and "TILT DOWN" buttons provide an additional 20 degrees of independent neck support.
- **Lumbar Support:** Use the "LUMBAR UP" and "LUMBAR DOWN" buttons to extend the lumbar support bar up to 5 inches for lower back customization.
- **Massage Function:**
    - Press the "MASSAGE" button to activate.
    - Use the "MODE" button to cycle through 3 modes: Wave, Pulse, and Constant.
    - Adjust intensity with the "INTENSITY UP" and "INTENSITY DOWN" buttons (7 levels).
    - Set a timer for 10, 20, or 30 minutes using the respective buttons.
- **Preset Positions:**
    - **Zero Gravity (ZG):** Elevates head and feet to a position that minimizes pressure on the body.
    - **Anti Snore:** Slightly raises the head to help open airways.
    - **TV:** Adjusts the bed to an optimal position for watching television.
- **Memory Presets:** Use the "M1" and "M2" buttons to save and recall your two favorite custom positions. To save a position, adjust the bed to your desired setting, then press and hold the "M1" or "M2" button until the remote confirms.
- **Flat Button:** Returns the bed to a completely flat position.
- **Under Bed Light:** Press the "LIGHT" button to turn the under-bed LED illumination on or off.
- **Flashlight:** The remote includes a built-in flashlight for convenience.

4. Maintenance

Proper maintenance will ensure the longevity and optimal performance of your iDealBed Sleep System.

- **Mattress Cover Cleaning:** The ComfortSeal Non-Skid Lower Cover is a removable, machine-washable zip cover for easy care. Follow the care instructions on the label for best results.
- **Base Cleaning:** Wipe the adjustable bed base with a damp cloth as needed. Avoid using harsh chemicals or abrasive cleaners.

- **General Care:** Regularly inspect the power cords and connections for any signs of wear or damage. Keep the area around the motors clear of obstructions.

5. Troubleshooting

This section provides basic troubleshooting steps for common issues. For more complex problems, please contact customer support.

Problem	Possible Cause	Solution
Bed does not respond to remote.	No power to the base. Remote batteries are dead. Remote not paired.	Check if the power cord is securely plugged into the wall outlet and the control box. Replace remote batteries. Refer to the pairing instructions in your full user manual or contact support.
Motor makes noise but bed does not move.	Obstruction under the bed. Weight exceeds limit.	Check for and remove any obstructions. Ensure total weight (occupants + mattress) does not exceed 1,000 lbs.
Mattress feels too firm/soft.	Mattress not fully expanded. Personal preference.	Allow up to 72 hours for full expansion. Adjust bed position (e.g., Zero Gravity) to find a more comfortable feel.

For further assistance, please refer to the comprehensive user manual or contact iDealBed customer support.
