Safety Information

Always follow the assembly instructions carefully to prevent instability or injury. Be cautious when handling metal parts to avoid cuts or pinches. Keep the bed frame away from heat sources to prevent damage to the velvet upholstery.

Package Contents

Your GAOMON King Size Bed Frame package includes all necessary components for assembly. Please verify that all parts are present before beginning. The package typically contains:

- Headboard (Upholstered)
- Side Rails
- Footboard
- Wooden Slats with Velcro

- Center Support Legs
- Assembly Hardware (screws, bolts, Allen wrench)

Note: Mattress is not included.

Setup and Assembly

Assembly of the GAOMON King Size Bed Frame is designed to be straightforward. All parts are clearly labeled, and clear instructions are provided. Two individuals are recommended for faster and easier setup.

Estimated Assembly Time: Approximately 30 minutes.

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a clean, soft surface to prevent scratches. Identify each part using the provided parts list.
2. **Attach Side Rails to Headboard:** Securely fasten the side rails to the headboard using the provided hardware. Ensure all connections are tight.
3. **Attach Footboard:** Connect the footboard to the side rails, ensuring a stable connection.
4. **Install Center Support:** Attach the center support beam and legs to the bed frame. These provide crucial stability and weight distribution.
5. **Place Wooden Slats:** Lay the wooden slats across the frame. The slats feature a Velcro design for easy installation and to keep them securely in place. Ensure each slat is properly aligned and attached to the Velcro strips on the frame.
6. **Final Tightening:** Double-check all screws and bolts to ensure they are fully tightened. Do not overtighten.

Operating and Usage

The GAOMON King Size Bed Frame is designed for optimal comfort and support without the need for a box spring. Its sturdy construction and secured slat system provide direct support for your mattress.

- **Mattress Placement:** Place your King size mattress directly onto the wooden slats. The frame is designed to support the mattress without a box spring.
- **Noise-Free Design:** The metal base is covered with EVA foam, and the Velcro on the base secures each slat tightly, contributing to a quiet sleeping environment.
- **Weight Capacity:** The bed frame is designed to support a maximum weight of 800 lbs (including mattress and occupants).
- **Adjustable Headboard:** The headboard offers three adjustable height positions (38.5", 40.5", 42.5") to accommodate various mattress thicknesses and personal preferences.

Maintenance

To maintain the appearance and longevity of your GAOMON bed frame:

- **Cleaning:** Spot clean the velvet upholstery with a damp cloth.
- **Avoid Harsh Chemicals:** Do not use harsh chemicals or abrasive cleaners, as these can damage the fabric and finish.
- **Regular Inspection:** Periodically check all bolts and screws to ensure they remain tight. Retighten if necessary to maintain stability.

Troubleshooting

If you encounter any issues with your bed frame, please refer to the following common solutions:

- **Squeaking Noises:** Ensure all bolts and screws are securely tightened. The EVA foam and Velcro slat system

are designed to minimize noise, but loose connections can cause squeaks.

- **Instability:** Verify that all components are correctly assembled according to the instructions. Check that all support legs are making firm contact with the floor.
- **Missing Parts:** If any parts are missing upon unboxing, please contact GAOMON customer support immediately.
- **Headboard Height Adjustment:** If the headboard is not at the desired height, refer to the assembly instructions for adjusting the height settings.
