KAER 10-12 Gun Safe

KAER 10-12 Gun Safe Instruction Manual with Digital Keypad

Model: 10-12 Gun Safe

IMPORTANT SAFETY INFORMATION

Please read and understand all safety instructions before assembling or operating your KAER 10-12 Gun Safe. Failure to follow these instructions may result in injury or damage.

- Always keep firearms unloaded and pointed in a safe direction.
- Use proper installation techniques to prevent tipping.
- Be cautious of pinch points during assembly and use.
- Always follow local laws and regulations regarding firearm storage and safety.
- Keep keys and digital codes in a secure location, away from children and unauthorized individuals.

PRODUCT OVERVIEW

The KAER 10-12 Gun Safe is designed to provide secure storage for your firearms and valuables. It features a robust alloy steel construction, a digital keypad, and adjustable internal storage options.

H9.1" X W17.7" X D13.6"

SETUP AND ASSEMBLY

The collage consists of four panels, each showing a different room with a tall, light blue wardrobe placed in a specific location. The wardrobe has a dark handle and a small decorative element at the top. The panels are separated by diagonal lines.

- Living room:** The wardrobe is placed against a wall next to a small round table and a modern armchair. A sofa is visible in the background.
- Lounge:** The wardrobe is placed against a wall next to a large armchair and a small round table with a bowl of fruit and a bottle. A sofa is visible in the background.
- Bedroom:** The wardrobe is placed against a wall next to a bed with a dark headboard and a yellow pillow. A closet with hanging clothes is visible in the background.
- Study Room:** The wardrobe is placed against a wall next to a bookshelf filled with books and a large potted plant. A sofa is visible in the background.

Image: An 8-step visual guide detailing the assembly process of the gun safe, from connecting the main panels to installing internal components like shelves and gun racks.

Assembly Steps

1. **Attach Side Panels to Back Plate:** Connect the two side panels to the back plate using the provided self-tapping screws. Ensure all tabs and slots align correctly.
2. **Attach Door Frame:** Secure the door frame to the assembled side and back panels using cross head screws.
3. **Install Top Plate:** Place the top plate onto the assembled structure and secure it with self-tapping screws.
4. **Install Bottom Plate:** Insert the bottom plate into the base of the safe, ensuring it sits flush. Secure with fixing screws.
5. **Install Internal Shelves and Panels:** Insert the main shelf and the back mesh panel into their designated slots. Secure the back mesh panel with self-tapping screws.
6. **Install Side Mesh Panels:** Place the two side mesh panels into the interior of the main compartment. Secure them with self-tapping screws.
7. **Attach Gun Racks:** Secure the gun mounts and gun stocks to the interior mesh panels using the provided rivets. Adjust their positions as needed for your firearms.
8. **Place Pile Blanket:** Lay the pile blanket on the bottom of the main compartment to protect your firearms.

Mounting the Safe

For added security, it is recommended to mount the safe to a wall or floor using the provided anchor bolts. Locate suitable studs in your wall or a solid floor surface. Drill pilot holes and secure the safe firmly.

OPERATING INSTRUCTIONS

Locking System Overview

The KAER 10-12 Gun Safe offers multiple methods for access and security:

- Digital Keypad + Knob
- Key + Knob
- Emergency Battery Box + Knob (for power failure)

2 WAYS TO OPEN RIFLE SAFE

Image: A visual representation of the safe's dual-access system, showing both key and digital keypad options, along with key security features.

Setting the Electronic Password

Before first use, you must set your personal digital password.

HOW TO ASSEMBLE GUN SAFE

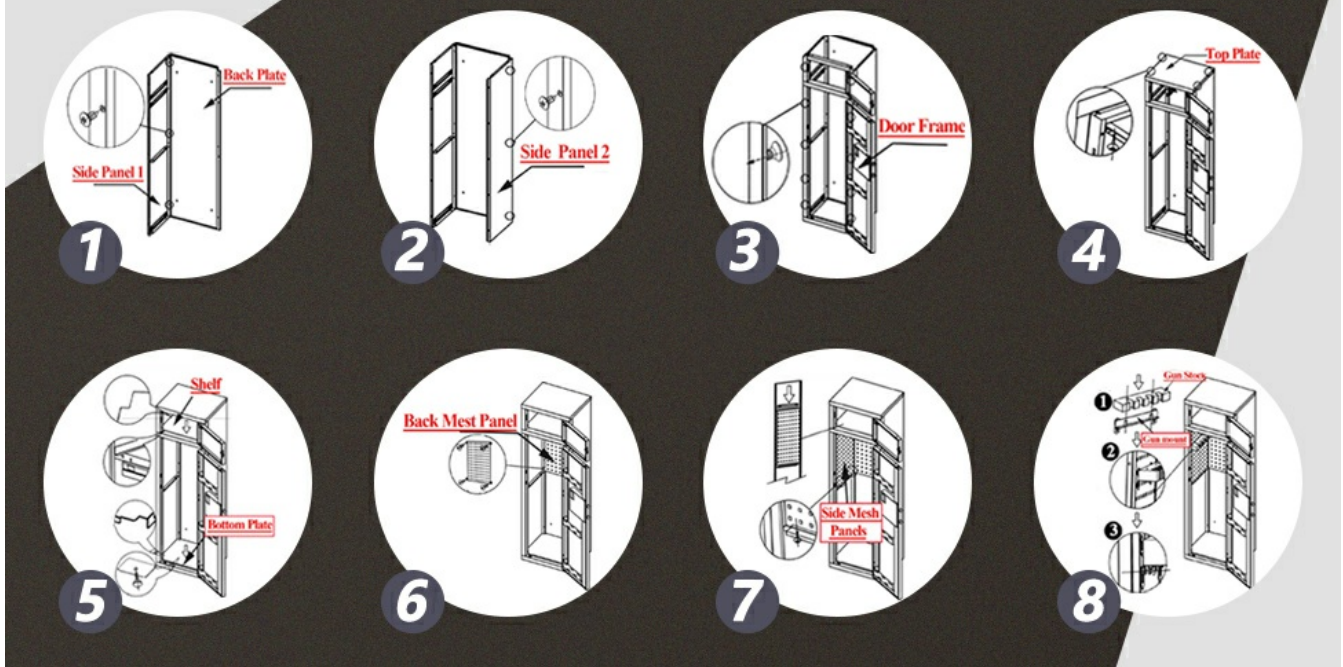

Image: A step-by-step guide on setting the electronic password, including battery insertion and keypad programming.

1. **Insert Batteries:** Open the battery compartment on the inside of the door and insert 4*AA alkaline batteries.
2. **Press Set Button:** With the door open, locate and press the red 'SET' button inside the battery compartment. You will hear a 'di' sound, and the keypad light will turn on.
3. **Enter New Password:** On the digital keypad, press the '#' key, then enter your desired 1-8 digit password. Press the '#' key again.
4. **Confirm Password:** Re-enter the same 1-8 digit password and press the '#' key one more time. You will hear a long 'di~~~' sound, indicating the electronic password has been successfully set.

Opening the Safe with Digital Keypad

1. **Wake Up Keypad:** Press the '#' key to activate the keypad.
2. **Enter Password:** Enter your previously set 1-8 digit password.
3. **Confirm:** Press the '#' key. If the password is correct, you will hear a 'di' sound and the green light will illuminate.
4. **Rotate Knob:** Within 5 seconds, rotate the knob clockwise to open the safe door.

Opening the Safe with Key

1. **Insert Key:** Insert the backup key into the keyhole located on the digital keypad.
2. **Turn Key:** Turn the key clockwise.
3. **Rotate Knob:** Simultaneously rotate the knob clockwise to open the safe door.

Using the Emergency Battery Box

In case of battery depletion, the emergency battery box can be used to power the keypad temporarily.

1. **Connect Emergency Box:** Plug the emergency battery box into the port located on the digital keypad.
2. **Enter Password:** Use the digital keypad as usual to enter your password and open the safe.
3. **Replace Batteries:** Once the safe is open, replace the internal AA batteries immediately.

Silent Mode Activation

To operate the safe silently, long press the '*' (star) button on the digital keypad. This will disable keypad sounds for quiet access.

Lockout Feature

For security, if an incorrect password is entered 5 consecutive times, the gun safe will enter a lockout mode, preventing further attempts for a short period.

MAINTENANCE

Regular maintenance ensures the longevity and proper functioning of your gun safe.

- **Battery Replacement:** Replace the 4*AA alkaline batteries in the digital keypad annually, or immediately if the low battery indicator appears.
- **Cleaning:** Clean the exterior and interior of the safe with a soft, dry cloth. Avoid abrasive cleaners or solvents that could damage the finish.
- **Inspection:** Periodically check all locking mechanisms, hinges, and mounting bolts for any signs of wear or loosening. Ensure the door closes and locks smoothly.

TROUBLESHOOTING

If you encounter issues with your KAER 10-12 Gun Safe, refer to the following common problems and solutions:

Safe not opening with digital code

- Ensure batteries are fresh and correctly installed. Use the emergency battery box if needed.
- Verify you are entering the correct 1-8 digit password followed by the '#' key.
- Check if the safe is in lockout mode due to multiple incorrect entries. Wait for the lockout period to expire.

Keys not working

- Ensure you are using the correct key for the main door or top compartment.
- Check for any obstructions in the keyhole.
- If the key turns but the door doesn't open, ensure the digital keypad knob is also turned correctly.

Alarm sounds unexpectedly

- The safe has a motion sensor alarm. Ensure the safe is stable and not being disturbed.
- Check if the lockout feature has been triggered.

Door does not close or latch properly

- Ensure no items inside the safe are obstructing the door's closing path.
- Check if the safe is on a level surface. Adjust the feet if necessary.
- Inspect the locking bolts for any damage or misalignment.
