## MAMAZING S66

# MAMAZING Lightweight Baby Stroller Model S66 Instruction Manual

Your guide to safe and effective use of your MAMAZING S66 Stroller.

## 1. INTRODUCTION

Thank you for choosing the MAMAZING S66 Lightweight Baby Stroller. This stroller is designed for convenience, portability, and safety, making it ideal for travel and everyday use. Its compact design and lightweight carbon fiber frame ensure ease of handling and storage. Please read this manual thoroughly before assembly and use to ensure proper operation and the safety of your child.

Image 1.1: Overview of the MAMAZING S66 Stroller with key features highlighted, including the extendable UPF 50+ canopy, 100°-150° adjustable backrest, 5-point harness, skin-friendly fabrics, 2-level adjustable footrest, and XL storage basket.

## 2. SAFETY INFORMATION

Your child's safety is paramount. Always follow these guidelines:

- Always use the **5-point harness** to secure your child in the stroller. Ensure straps are snug but not too tight.
- Engage the **foot-operated brake system** whenever the stroller is stationary.
- This stroller is suitable for children aged **6 months and older**, weighing up to **33 pounds (maximum height of 39.4 inches)**. Do not exceed these limits.
- Never leave your child unattended in the stroller.
- Ensure the stroller is fully open and locked before placing your child in it.
- Do not hang bags or other items on the handle, as this can cause the stroller to tip over.
- Keep fingers clear of moving parts when folding or unfolding the stroller.
- The MAMAZING S66 Stroller meets or exceeds the highest safety standards set by the CPSC and ASTM.

---

### 3. PACKAGE CONTENTS

## 4. SETUP AND ASSEMBLY

The MAMAZING S66 Stroller is designed for quick and easy assembly. Follow these steps:

1. **Unfold the Stroller:** Release the folding latch (if engaged) and gently pull the handle upwards until the frame locks into place. Ensure both sides are securely locked.
2. **Attach the Handlebar:** Insert the handlebar into the designated slots on the stroller frame until it clicks securely. Verify it is firmly attached.
3. **Attach the Wheels:** The wheels are typically pre-attached or snap into place easily. Ensure all four wheels are securely fastened and rotate freely.
4. **Install the Canopy:** Attach the canopy to the frame as indicated by the connectors.
5. **Attach the Organizer:** Secure the universal organizer to the stroller handle using its straps.

Before first use, always double-check that all components are correctly assembled and securely locked.

## 5. OPERATING INSTRUCTIONS

## 5.1 Folding and Unfolding

The MAMAZING S66 features a user-friendly one-handed fold and unfold system.

1. **To Unfold:** Ensure the stroller is on a flat surface. Release the side locking mechanism. While holding the handle, lift the stroller upwards with a swift motion until it fully extends and locks into the open position. Listen for a click to confirm it is locked.
2. **To Fold:** Ensure your child is removed from the stroller. Engage the brake. Locate the folding mechanism (usually a button or lever on the handle). Press/pull the mechanism and push the handle downwards, allowing the stroller to collapse. Secure the folding latch to keep it compact.

### Folds and Unfolds in Seconds

Image 5.1: Step-by-step visual guide demonstrating the one-handed folding process of the MAMAZING S66 Stroller, from open to compact folded state.

## 5.2 Recline Adjustment

The backrest can be adjusted from 100° (upright) to 150° (reclined) for your child's comfort.

- **To Recline:** Locate the recline strap/lever behind the seat. Squeeze the adjuster to loosen the strap and allow the seat to recline to the desired angle.
- **To Sit Upright:** Pull the recline strap upwards through the adjuster until the seat is in the desired upright position.

## 5.3 Footrest Adjustment

The footrest has 2 adjustable levels to support your child's legs.

- Press the buttons on either side of the footrest and adjust it to the desired height. Release the buttons to lock it in place.

#### 5.4 Canopy Adjustment

The UV-protective UPF 50+ canopy can be extended or retracted to shield your child from sun exposure.

- Simply pull the canopy forward or push it back to adjust its position.

#### 5.5 Brake System

The foot-operated brake system is located on the rear wheels.

- **To Engage:** Press down firmly on the brake pedal located near the rear wheels until it locks.
- **To Release:** Lift the brake pedal upwards until it disengages. Always test the brake before use.

## Customized Comfort & Enhanced Safety

## 6. MAINTENANCE

Regular maintenance will prolong the life of your stroller and ensure continued safe operation.

- **Cleaning:** Clean the fabric parts with a damp cloth and mild soap. Do not use harsh detergents or bleach. Allow to air dry completely. The frame can be wiped clean with a damp cloth.
- **Wheels:** Periodically check the wheels for debris and ensure they rotate smoothly. Lubricate axles with a silicone-based lubricant if necessary.
- **Storage:** Store the stroller in a dry, cool place away from direct sunlight when not in use. Use the provided travel bag for protection during transport or storage.
- **Inspections:** Regularly inspect all fasteners, rivets, and moving parts to ensure they are secure and functioning correctly. Tighten any loose screws.

## 7. TROUBLESHOOTING

If you encounter issues with your MAMAZING S66 Stroller, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Stroller does not fold/unfold easily.	Folding mechanism not fully engaged; obstruction.	Ensure all buttons/levers are pressed simultaneously. Check for any fabric or items blocking the mechanism. Apply light lubricant to moving joints if stiff.
Wheels are squeaky or stiff.	Dirt/debris in axles; lack of lubrication.	Clean wheels and axles. Apply a silicone-based lubricant to the moving parts of the wheels.
Handlebar feels loose or misaligned.	Handlebar not fully clicked into place; internal component shift.	Ensure the handlebar is fully inserted and clicks into both slots. If misalignment persists, contact customer support.
Brake not engaging/disengaging properly.	Debris in brake mechanism; worn components.	Clear any debris from the brake pedal and mechanism. If the issue persists, contact customer support.

If you experience any issues not listed here or if the suggested solutions do not resolve the problem, please contact MAMAZING Customer Support.
