## Katalic PF03

# Katalic 6L Automatic Pet Feeder User Manual

Model: PF03

## INTRODUCTION

---

Thank you for choosing the Katalic 6L Automatic Pet Feeder. This device is designed to provide convenient and consistent feeding for your cats or dogs, ensuring they receive timely meals with precise portion control. It features a large capacity, dual stainless steel bowls, a programmable timer, and a voice recording function to enhance your pet's feeding experience. Please read this manual thoroughly before use to ensure proper setup and operation.

## PACKAGE CONTENTS

---

- Automatic Cat Feeder (6L)
- Stainless Steel Bowl (2)
- Power Adapter
- Desiccant Bag
- Food Tray (2)
- User Manual

## SETUP

---

### 1. Assembly

Place the two food trays onto the base of the feeder, ensuring they snap securely into position. Insert the stainless steel bowls into the food trays.

# Everything is Going as Planned Hassle-free when travel & work

1-4 Meals per day  
1-20 Portions per meals  
Portion Size  $\approx$  15ml

The feeder comes with two durable 304 stainless steel bowls, which are easy to clean and hygienic for pet feeding.

## 2. Power Connection

Connect the power adapter to the feeder's power port and plug it into a standard electrical outlet. For emergency backup during power outages, you can install three D-size batteries (not included) in the battery compartment at the bottom of the feeder. Ensure correct battery polarity.

## Clog-free Design

No more worrying about food clogs when you go out

**Note: Manually feed the brush a few times initially to fill its base with cat food.**

Recommended kibble size: 2-16mm(0.07-0.6in)

The feeder can be powered by an AC adapter or operate on D batteries (not included) for emergency backup during power outages.

### 3. Filling the Food Tank

Open the lid of the feeder. Pour dry pet kibble into the transparent food tank. The feeder has a 6-liter capacity. Close the lid securely by pressing down until it locks. This helps keep food fresh and prevents pets from accessing the reservoir.

The Katalic 6L Automatic Pet Feeder, designed for two pets, features a large transparent food reservoir and dispenses dry kibble into two stainless steel bowls.

**Just Press To  
Securely Lock**

The feeder features a secure lid lock mechanism, ensuring the food remains fresh and preventing pets from accessing the food reservoir.

## **OPERATING INSTRUCTIONS**

---

### **1. Control Panel Overview**

The control panel features a display screen and several buttons for programming. Refer to the icons on the feeder for specific button functions (e.g., Lock, Set, Up, Down, Manual Feed, Record).

### **2. Setting Current Time**

1. Press and hold the **Lock** button for a few seconds to unlock the screen.

2. Press the **Set** button to enter time setting mode.
3. Use the **Up** and **Down** buttons to adjust the hour and minute.
4. Press **Set** again to confirm and move to the next setting.

### 3. Programming Meal Times and Portions

The feeder allows for up to 6 meals per day, with 0-30 portions per meal. Each portion is approximately 15ml.

This image demonstrates the feeder's capability to schedule up to 6 meals per day with adjustable portion sizes from 0 to 30 per meal, promoting a healthy feeding routine.

1. After setting the current time, press **Set** to cycle through meal settings (Meal 1, Meal 2, etc.).
2. For each meal, use the **Up** and **Down** buttons to set the desired feeding time (hour and minute).
3. Press **Set** to move to portion size. Use **Up** and **Down** to select the number of portions (0-30).
4. Repeat for all desired meals. Press **Set** until you exit the programming mode.

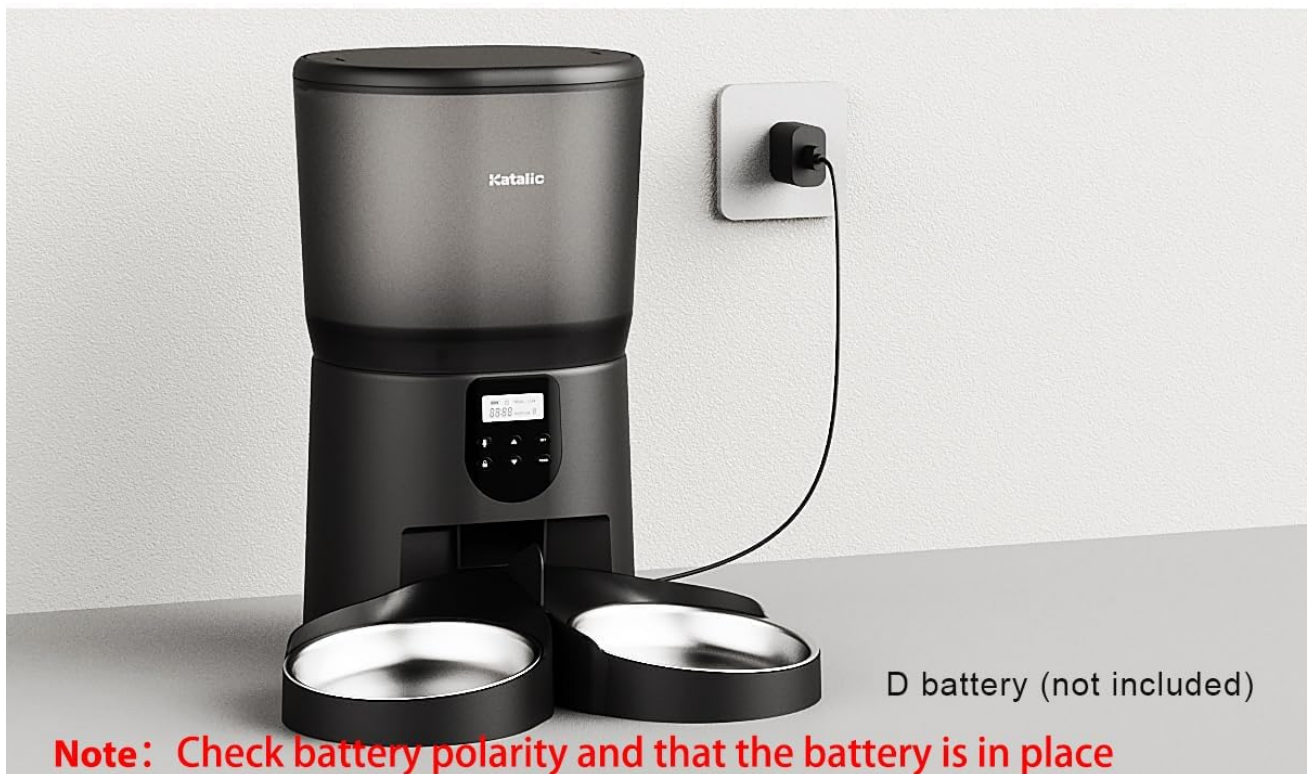

#### 4. Voice Recording Function

You can record a 10-second voice message to call your pets for meals.

## PLUG POWER or BACKUP BATTERY

The battery is used for emergency when the power is cut off.

D battery (not included)

**Note: Check battery polarity and that the battery is in place**

The feeder includes a 10-second voice recorder, allowing pet owners to record a personalized message to call their pets for meals.

1. Press and hold the **Record** button. The feeder will beep to indicate recording has started.
2. Speak your message clearly into the microphone.
3. Release the **Record** button to stop recording. The feeder will beep twice to confirm.
4. To play back the recording, press the **Play** button.

## 5. Manual Feeding

To dispense food manually, press the **Manual Feed** button. Each press will dispense one portion.

## MAINTENANCE

---

### 1. Cleaning

The stainless steel bowls and food trays are removable for easy cleaning. Hand wash only. Do not immerse the main feeder unit in water. Wipe the exterior with a damp cloth. Ensure all parts are completely dry before reassembly.

# Timely Meals, Scheduled Portions

A Healthy Diet for a Happy Pet

1-6 meals/day  
0-30 portions/meal

- 5:00 First meal 3 Portions
- 9:00 Second meal 6 Portions
- 14:00 Third meal 8 Portiont
- 18:00 Fourth meal 10 Portiont

The feeder incorporates a clog-free design with an internal impeller to ensure smooth and consistent food dispensing, preventing blockages.

## 2. Refilling Food

Monitor the food level in the transparent tank. Refill as needed to ensure continuous feeding for your pets.

## 3. Desiccant Bag Replacement

The included desiccant bag helps keep the food fresh. Replace it periodically (e.g., every 1-2 months) to maintain optimal food quality.

## TROUBLESHOOTING

---

- **Feeder not dispensing food:**

Check if the food tank is empty. Ensure the feeder is powered on and the power adapter is securely connected. If using batteries, check battery level and polarity. Verify that the programmed meal times and portion sizes are set correctly. Ensure kibble size is within the recommended range (2-16mm / 0.07-0.6in) to prevent clogs. Manually feed the brush a few times initially to fill its base with cat food.

- **Food getting stuck or not dispensing evenly:**

This can occur with very small portions or certain kibble shapes. Ensure the kibble size is appropriate. Gently shake the feeder or manually dispense a few portions to clear any blockages.

- **Bowls not staying attached:**

Ensure the food trays are properly snapped into the base. While designed to be secure, some users report they can be loose. Ensure the feeder is placed on a stable, flat surface.

- **Food shooting out too fast/onto the floor:**

This can happen with certain kibble types or if the feeder is placed too high. Consider adjusting the portion size or placing the feeder in an area where scattered food is less of an issue.

- **Display not working or unresponsive:**

Try unplugging and replugging the power adapter, or removing and reinserting batteries. If the issue persists, contact customer support.
