3. Specifications

Feature	Detail
Brand	Govee

Model Number	H6088
Color	White
Shape	Square
Material	Plastic
Light Source Type	LED
Power Source	AC
Voltage	12 Volts (DC)
Brightness	150 Lumen
Light Source Wattage	12 Watts
Mounting Type	Wall Mount
Bulb Features	Dimmable
Number of Light Sources	1 per sconce
Product Dimensions	11.02"L x 7.08"W x 5.11"H
Adjustable Cables	27cm-90cm (approx. 0.8ft-3ft)

4. Setup and Installation

Follow these steps to install your Govee Cube Wall Sconces:

1. **Plan Layout:** Determine the desired placement for each of the six wall sconces. The serial number 1 base (without cables) should be opposite the direction of the power supply.
2. **Adjust Cables:** The distance between two wall sconces can be adjusted between 27cm and 90cm (approximately 0.8ft to 3ft). Pull the cable under the base to lengthen it, or twirl the built-in handle to shorten it. Adjust the cable length before mounting.
3. **Mounting:** Peel off the adhesive tape from the mounting brackets. Stick them securely onto the wall at your planned locations. For a more permanent installation, use the provided screws and anchors.
4. **Connect Sconces:** Start installing from the light that is furthest from the power supply. After fitting the base, slide the sconce upwards or downwards into the slots to fix it onto the base.
5. **Repeat:** Repeat step 4 until all 6 wall sconce lights are assembled onto their bases.
6. **Final Connection:** Plug the cable of the control box into the input end of the last light. Then connect the power adapter to the control box and plug it into a power outlet.

5. Operating Instructions

5.1 Govee Home App Control

Download the Govee Home app from your smartphone's app store. Follow the in-app instructions to pair your Govee Cube Wall Sconces. The app provides comprehensive control over your lights.

5.2 Dynamic RGBIC Effects

The lights feature RGBIC technology, offering multicolor RGBW lighting with 16 million color options and 50 preset lighting effects. These effects can be selected and customized via the Govee Home app.

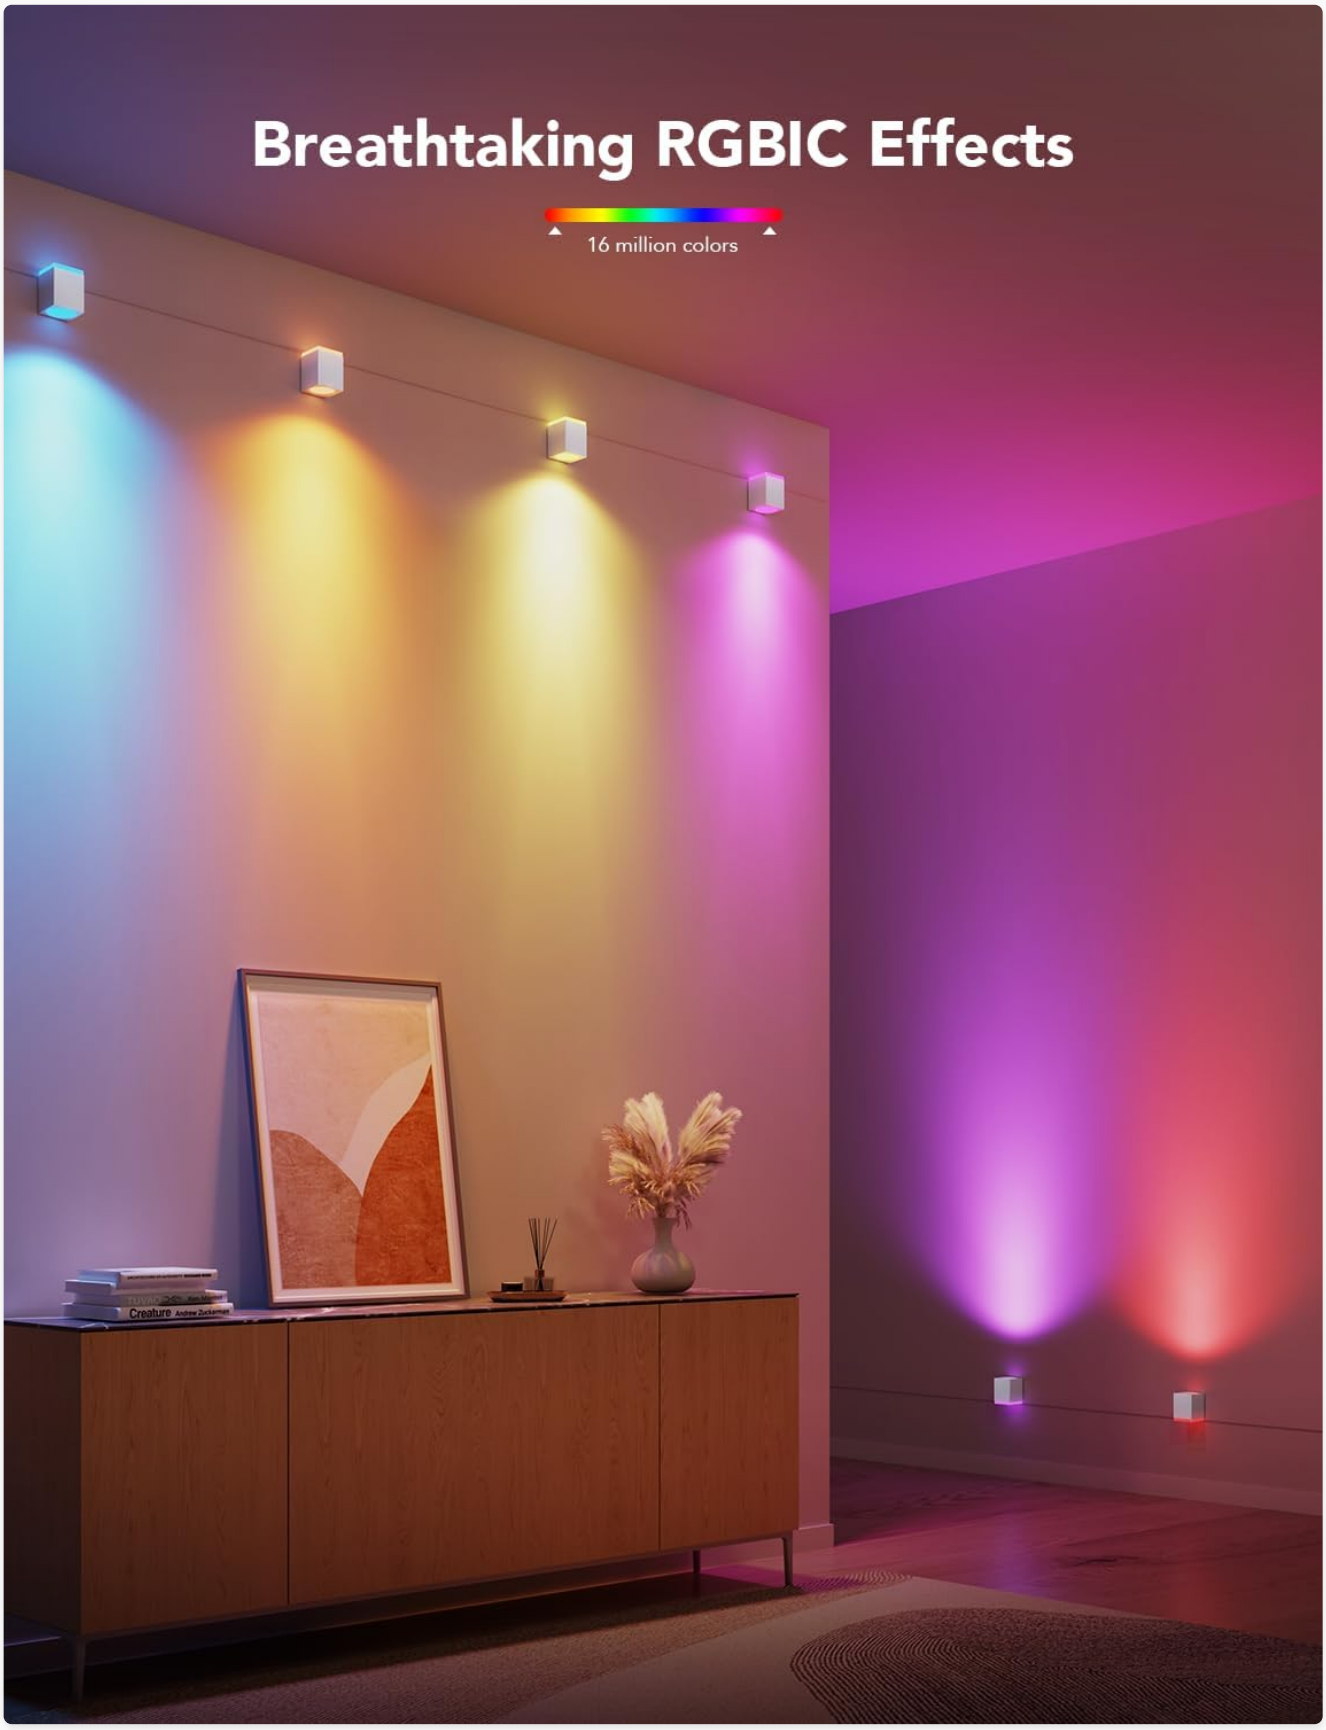

Image 5.1: Example of dynamic RGBIC lighting effects.

5.3 Higher Brightness and Dimmable

The sconces provide 150 lumens of brightness and are fully dimmable. Adjust the brightness levels through the Govee Home app to suit your environment and preferences. The lights can illuminate a wall-washing distance of up to 2 meters.

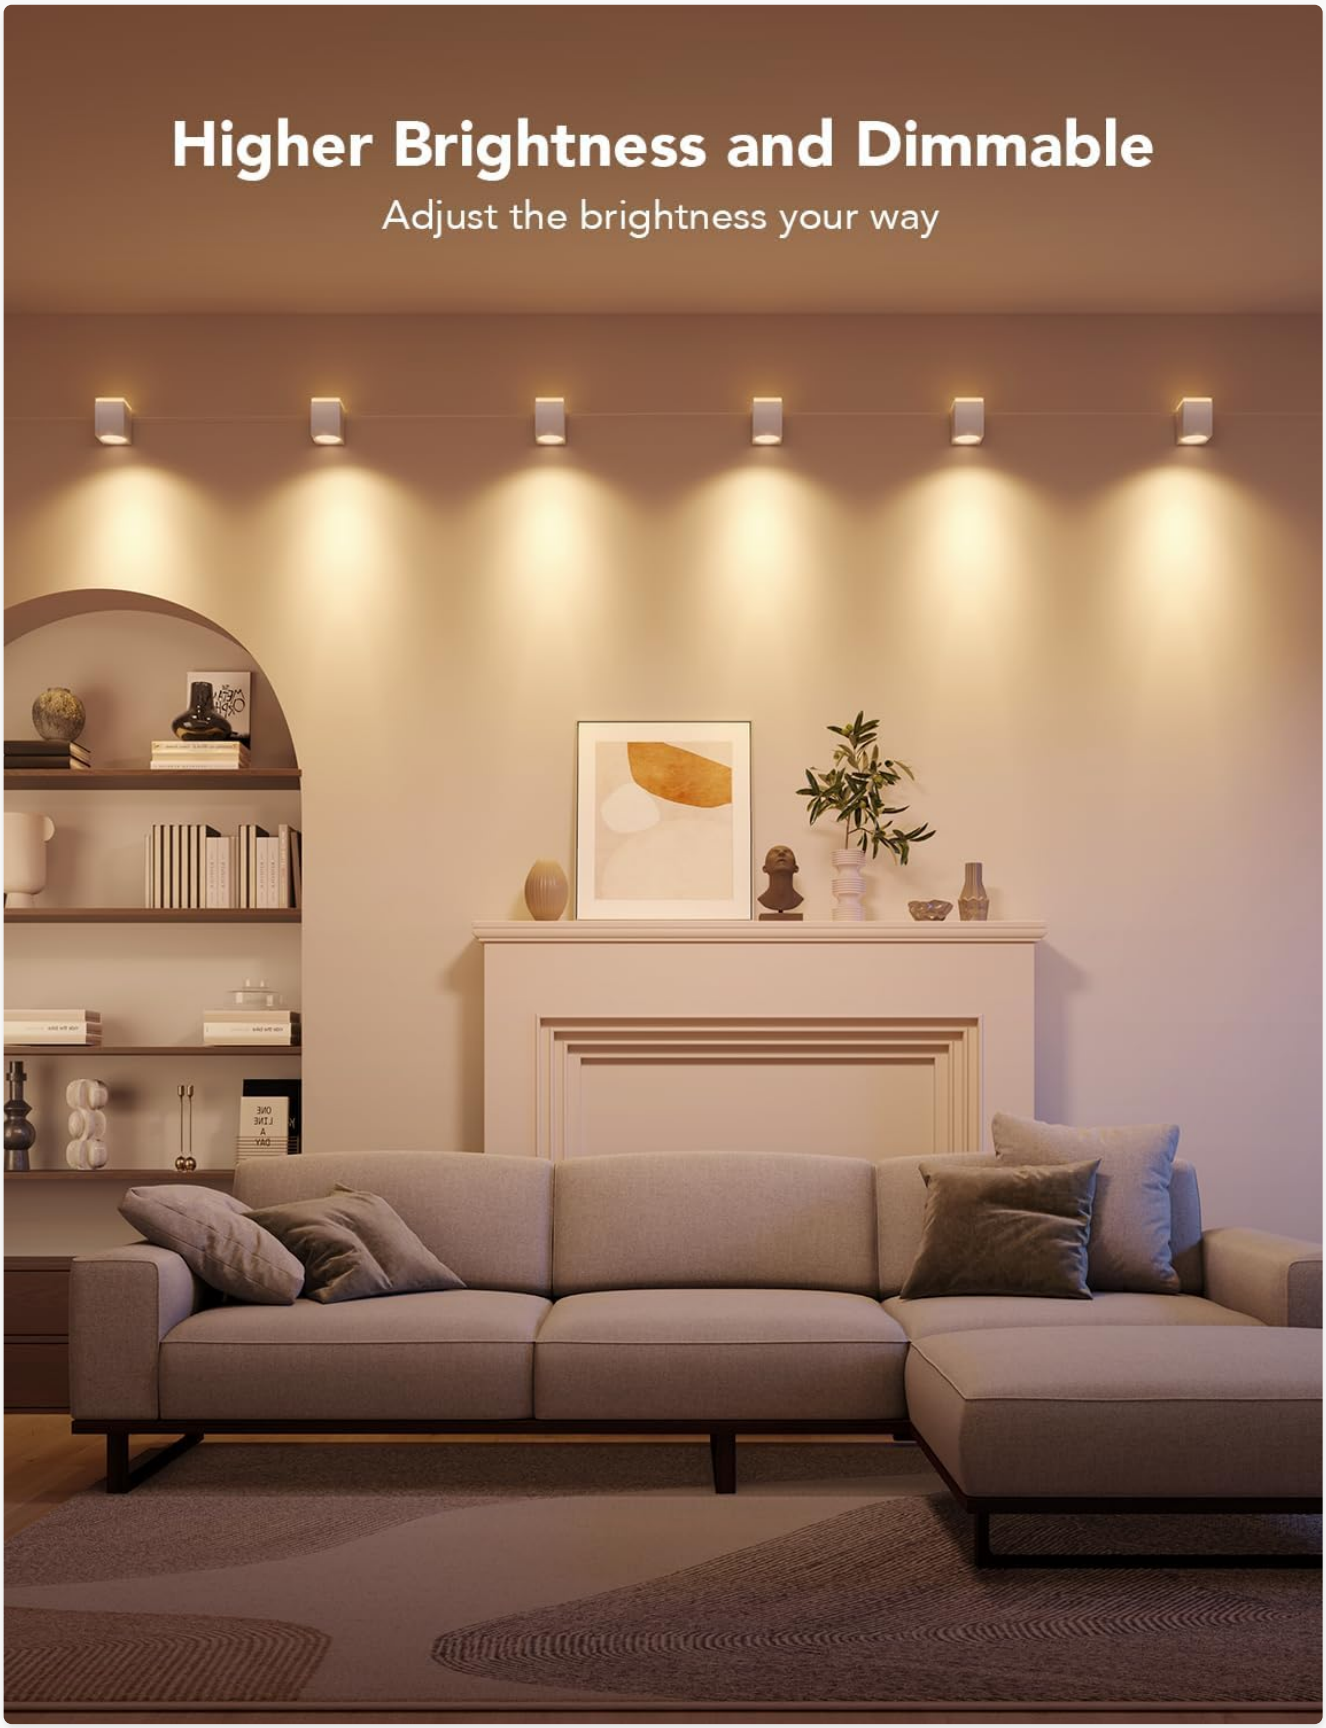

Image 5.2: Lights set to a higher brightness, demonstrating dimmable functionality.

5.4 Music Sync Lighting

Utilize the built-in microphone to synchronize the lights with music. The lights will react to audio, creating a dynamic visual experience that changes with your favorite tunes. This feature is controlled via the Govee Home app.

5.5 Personalize with DIY Mode

The Govee Home app includes a DIY mode, allowing users to create and save custom lighting effects. This feature enables personalized lighting for daily use or special occasions.

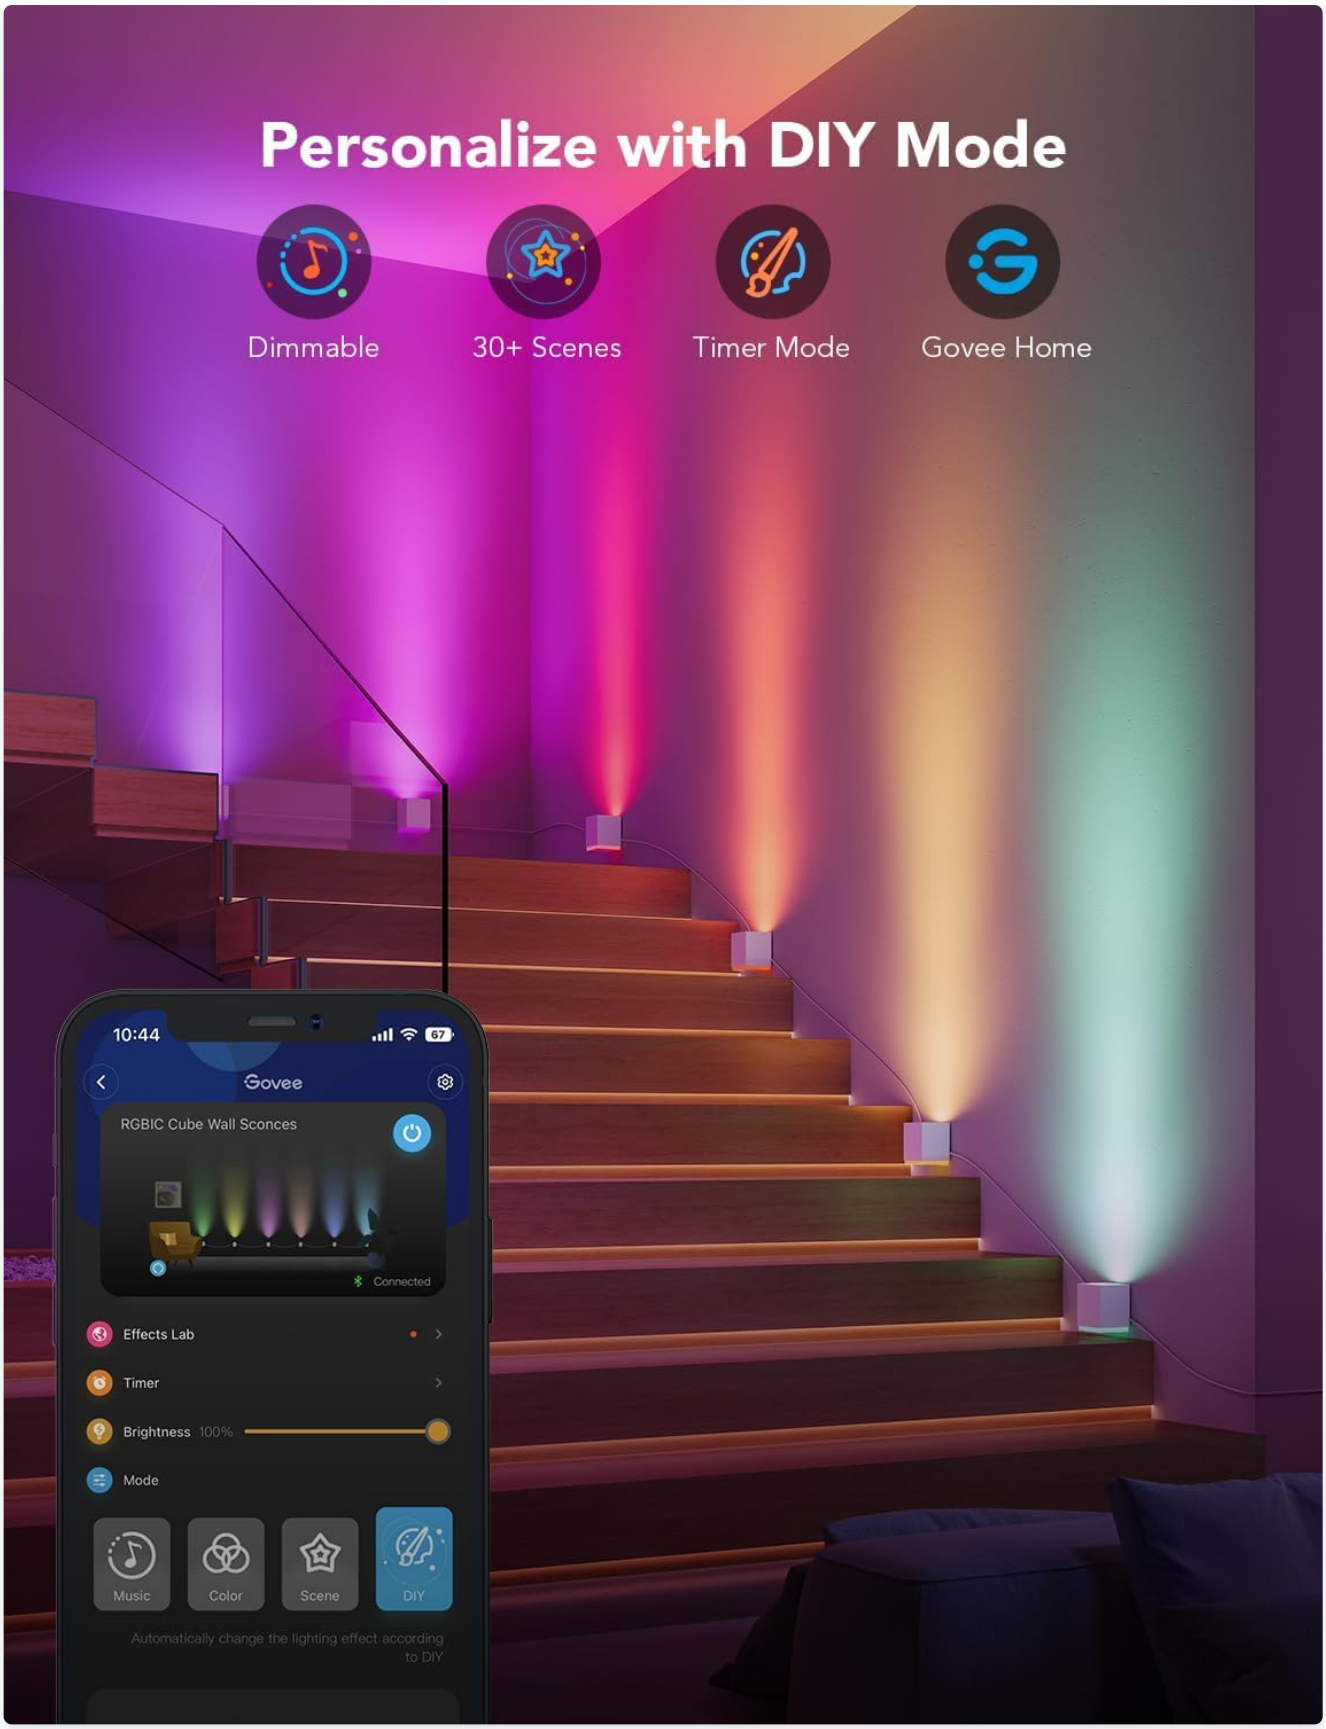

Image 5.4: Customization options available through DIY Mode.

5.6 Voice Control

The Govee Cube Wall Sconces are compatible with voice assistants such as Amazon Alexa and Google Assistant. Once connected through the Govee Home app, you can control the lights using voice commands.

6. Maintenance

To ensure the longevity and optimal performance of your Govee Cube Wall Sconces, follow these maintenance guidelines:

- **Cleaning:** Gently wipe the surface of the sconces with a soft, dry cloth. Avoid using abrasive cleaners,

solvents, or harsh chemicals, as these can damage the finish or electronic components.

- **Power Disconnection:** Always disconnect the power adapter from the wall outlet before performing any cleaning or maintenance.
- **Cable Management:** Ensure cables are not pinched, twisted, or exposed to excessive tension. Use the provided cable clips to secure them neatly.
- **Environmental Conditions:** Avoid exposing the lights to extreme temperatures, high humidity, or direct water contact. These lights are designed for indoor use only.

7. Troubleshooting

If you encounter issues with your Govee Cube Wall Sconces, refer to the following troubleshooting tips:

Problem	Possible Cause	Solution
Lights do not turn on	No power supply; loose connection; faulty power adapter.	Ensure the power adapter is securely plugged into a working outlet and the control box. Check all cable connections between sconces. Try a different outlet.
Cannot connect to Govee Home app	Bluetooth/Wi-Fi off; incorrect pairing mode; app issue.	Ensure your phone's Bluetooth and Wi-Fi are enabled. Restart the Govee Home app. Power cycle the lights (unplug and replug). Follow in-app pairing instructions carefully. Ensure your Wi-Fi network is 2.4GHz.
Lights flicker or display incorrect colors	Loose connection; software glitch.	Check all physical connections. Restart the lights by unplugging and replugging the power adapter. Update the Govee Home app and light firmware if available.
Voice control not working	Incorrect setup with voice assistant; network issue.	Ensure the lights are properly linked to your Amazon Alexa or Google Assistant account via the Govee Home app. Check your internet connection. Try re-linking the Govee skill/service.

8. Warranty and Support

8.1 Warranty Information

Govee products typically come with a limited warranty. Please refer to the warranty card included in your product packaging or visit the official Govee website for detailed warranty terms and conditions. Keep your purchase receipt as proof of purchase for warranty claims.

8.2 Customer Support

For technical assistance, troubleshooting beyond this manual, or warranty inquiries, please contact Govee customer support through one of the following methods:

- **Govee Home App:** Access the support section within the app.
- **Official Website:** Visit www.govee.com for FAQs, support articles, and contact information.
- **Email:** Refer to the contact details provided on the Govee website or in your product packaging.
