ATUMTEK ATSS158

ATUMTEK 55" Selfie Stick Tripod User Manual

Model: ATSS158

Brand: ATUMTEK

INTRODUCTION

Thank you for choosing the ATUMTEK 55" Selfie Stick Tripod. This all-in-one device combines the functionality of a selfie stick and a stable tripod, designed for capturing photos and videos with ease and versatility. This manual provides detailed instructions on how to set up, operate, and maintain your device to ensure optimal performance.

WHAT'S IN THE BOX

- 1 x ATUMTEK Selfie Stick Tripod
- 1 x Bluetooth Remote
- 1 x Type-C Charging Cable
- 1 x User Manual

Image: The ATUMTEK Selfie Stick Tripod in various configurations, including the main unit, extended tripod, and the detachable remote control.

SETUP

1. Unfolding the Tripod/Extending the Selfie Stick

1. Gently pull the phone clamp upwards to release the tripod legs.
2. Spread the tripod legs outwards until they form a stable double triangular structure.
3. To extend the pole, pull the top section upwards. The pole consists of multiple sections that can be extended to your desired length, up to 55 inches (140cm).

Extended Reach, Meet Your Needs

Adjustable Height

Utilizing a seven-section collapsible aluminum alloy rod design, it extends up to 140cm

12.2in/31cm

55.1in/140cm

Image: Visual representation of the selfie stick's collapsed (12.2 inches) and fully extended (55.1 inches) states.

2. Attaching Your Smartphone

1. Open the phone clamp. It is designed to securely hold smartphones with widths ranging from 2.12 inches (54mm) to 3.62 inches (92mm).
2. Carefully place your smartphone into the clamp, ensuring it is centered and held firmly by the non-slip silicone pads.

Versatile Phone Clamp (53.5mm-91.5mm Width)

Designed to securely hold popular phone models such as iPhone 14, Samsung Galaxy S21, Google Pixel 5, and more

2.53" / 6.42cm
iPhone 13 mini

3.04" / 7.73cm
LG W41

3.02" / 7.66cm
Pixel 7 Pro

3.06" / 7.76cm
iPhone 14 Pro Max

3.07" / 7.81cm
Samsung S23 Ultra

3. Pairing the Bluetooth Remote

1. The Bluetooth remote is integrated into the handle. Gently slide it out to detach.
2. Press and hold the button on the remote until the indicator light flashes, indicating it's in pairing mode.
3. On your smartphone, go to Bluetooth settings and search for available devices.
4. Select "ATUMTEK" or a similar name from the list to connect. The indicator light on the remote will stop flashing once successfully paired.

Distance-Free Shooting

Capture moments without limitations,
thanks to the wireless connection

OPERATING INSTRUCTIONS

Using as a Selfie Stick

1. Ensure the tripod legs are folded and secured within the handle.
2. Extend the aluminum pole to your desired length.
3. Hold the handle firmly and use the Bluetooth remote to capture photos or start/stop video recording.

Dual-Purpose Design: Selfie Stick and Tripod Combined

Selfie Stick Mode

Capture stunning selfies on the go with ease and flexibility

Tripod Mode

Set it up as a stable tripod for professional shots and group photos

Image: The product demonstrating its use as a selfie stick for on-the-go capture.

Using as a Tripod

1. Extend the tripod legs fully and place the tripod on a flat, stable surface.
2. Adjust the height of the pole as needed.
3. Use the Bluetooth remote to take stable photos or videos from a distance.

MAINTENANCE

- Keep the device clean by wiping it with a soft, dry cloth. Avoid using abrasive cleaners or solvents.
- Ensure the extendable pole sections are free of dust and debris to allow for smooth extension and retraction.
- Store the selfie stick tripod in a cool, dry place when not in use.
- Charge the Bluetooth remote regularly to maintain battery health, especially if not used for extended periods.

Premium Materials for Enhanced Durability

Crafted with Care

Non-slip Silicone Pad

Sturdy Aluminum
Alloy Rod

Resilient ABS+PC Material

TROUBLESHOOTING

Remote Not Connecting

- Ensure the remote is charged. Connect it to a power source using the provided Type-C cable.
- Make sure Bluetooth is enabled on your smartphone.
- Unpair and re-pair the remote from your phone's Bluetooth settings.
- Ensure the remote is within the 33ft/10 meter operating range.

Tripod Instability

- Ensure the tripod legs are fully extended and locked into position.
- Place the tripod on a flat, level surface.
- Verify that your smartphone is securely clamped and balanced.

Unmatched Stability for Your Shots

With extended legs and a reinforced double-triangle structure, our tripod provides unwavering support
