### Bebesit Vox Travel System (Model B0CD33Q3C3)

# Bebesit Vox Travel System Stroller

Model: B0CD33Q3C3

User Manual

## INTRODUCTION

Thank you for choosing the Bebesit Vox Travel System Stroller. This manual provides essential information for the safe and proper assembly, operation, and maintenance of your stroller and infant car seat. Please read this manual thoroughly before use and keep it for future reference. This product is designed for infants from newborn up to 15 kg (approximately 3 years of age).

The Bebesit Vox Travel System includes a versatile stroller and a compatible infant car seat, both in a modern grey finish.

## SAFETY INFORMATION

**WARNING: Failure to follow these warnings and instructions could result in serious injury or death.**

- Always use the 5-point safety harness to secure your child in the stroller.
- Never leave your child unattended in the stroller or car seat.
- Ensure all locking mechanisms are engaged before placing a child in the stroller.
- Do not overload the storage basket (maximum 3 kg) or hang bags on the handle, as this can cause the stroller to tip over.
- Avoid placing hot liquids or heavy objects in the cup holder (if applicable).
- This product is certified by NOM-133/2-SCFI-1999 and NTEC24PIM0603021, meeting high safety standards.
- The car seat is designed to grow with your baby from newborn up to 3 years. Always refer to the car seat manual for proper installation in a vehicle.
- Do not use accessories or replacement parts other than those approved by Bebesit.

## SETUP AND ASSEMBLY

1. **Unpacking:** Carefully remove all components from the packaging. Check for any damage or missing parts.
2. **Attaching Wheels:** Attach the front and rear wheels. Ensure they click securely into place. The front wheels feature a 360° swivel for agile maneuvering.
3. **Unfolding the Frame:** Release the folding latch and unfold the stroller frame until it locks into the open position. Verify that all frame locks are engaged.
4. **Attaching the Seat Unit:** Align the seat unit with the frame connectors and push down until it clicks securely. Ensure it is firmly attached before use.
5. **Attaching the Car Seat (Portabebé):** The infant car seat can be attached directly to the stroller frame. Align the car seat with the designated adapters on the stroller frame and press down until it locks into place. Always ensure the car seat is securely fastened before moving.

An annotated diagram illustrating key features of the Bebesit Vox stroller, such as the adjustable handlebar, 3-panel canopy with visor, 360-degree swivel wheels, central safety brake, and a 3 kg capacity storage basket.

## OPERATING INSTRUCTIONS

### Adjusting the Handlebar

The handlebar is adjustable to suit different user heights. Locate the adjustment buttons on the sides of the handlebar and press them to extend or retract the handle to your desired position. Release the buttons to lock it in place.

### Reclining the Seat

The seat offers multiple recline positions, including a flat bassinet mode suitable for newborns. To recline, locate the recline lever or button on the back of the seat. Adjust to the desired angle and ensure it locks securely.

# Carriola reversible

The stroller seat configured as a bassinet, highlighting its reclinable function for newborns.

## Reversible Seat Function

The seat unit can be easily reversed to allow your child to face either forward or towards the parent. To reverse the seat, disengage the seat from the frame, rotate it 180 degrees, and reattach it securely until it clicks into place.

# 3 EN 1

The Bebesit Vox stroller features a reversible seat, allowing the child to face either forward or towards the parent.

## Using the 5-Point Harness

Always secure your child with the 5-point safety harness. Insert each buckle prong into the central buckle until it clicks. Adjust the straps to ensure a snug fit without being too tight. To release, press the button on the central buckle.

## Braking System

The stroller is equipped with a central safety brake located on the rear axle. To engage the brake, press down firmly on the brake pedal. To release, lift the pedal. Always engage the brake when the stroller is stationary.

## Folding the Stroller

To fold the stroller for storage or transport, ensure the seat is in the most upright position and the canopy is folded back. Follow the specific folding mechanism instructions (usually involving pressing buttons or levers on the handle or frame) to collapse the stroller into a compact size. Secure the folding latch if available.

Peso : 10 kg

The Bebesit Vox stroller in its compact folded state, ideal for storage and transport, with dimensions indicated.

### Storage Basket

The integrated storage basket has a maximum capacity of 3 kg. Use it for light items such as diapers, wipes, or small bags. Do not exceed the weight limit to prevent tipping.

### 3-in-1 Versatility

The Bebesit Vox Travel System offers three modes of use: a traditional stroller, a bassinet for newborns, and a travel system by attaching the infant car seat to the frame.

Peso : 10 kg

This composite image showcases the 3-in-1 versatility of the Bebesit Vox Travel System, illustrating its use as a standard stroller, a bassinet, and with the car seat attached to the frame.

## MAINTENANCE

- **Cleaning Fabric:** The fabric components can be spot cleaned with a mild soap and warm water. Do not use bleach or harsh detergents. Allow to air dry completely.
- **Cleaning Frame:** Wipe the metal and plastic parts of the frame with a damp cloth. Dry thoroughly to prevent rust.
- **Wheel Maintenance:** Regularly check the wheels for debris and clean them. Lubricate moving parts of the wheels and axles periodically with a silicone-based lubricant to ensure smooth operation.
- **Storage:** Store the stroller in a clean, dry place away from direct sunlight and extreme temperatures.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Stroller does not fold/unfold smoothly.	Folding mechanism is stuck or obstructed.	Ensure all components are correctly aligned. Check for any obstructions. Lubricate moving parts if necessary.
Wheels are stiff or squeaky.	Dirt/debris in axles or lack of lubrication.	Clean wheels and axles. Apply a silicone-based lubricant to moving parts.
Harness is difficult to buckle/unbuckle.	Debris in buckle or misaligned prongs.	Inspect the buckle for any foreign objects. Ensure prongs are inserted correctly.
Stroller feels unstable.	Not fully unfolded or locked.	Ensure the frame is fully extended and all locking mechanisms are engaged.

If you encounter issues not listed here or if troubleshooting steps do not resolve the problem, please contact Bebesit customer support.
