## LadyCent 85202-2L020TX

### Instruction Manual

#### CAR SUN VISOR FOR HYUNDAI I30 I30CW 2008-2011

Brand: LadyCent | Model: 85202-2L020TX

### 1. Introduction

---

This manual provides essential information for the proper installation, operation, and maintenance of your new LadyCent Car Sun Visor. Designed as a direct replacement part, this sun visor is compatible with Hyundai I30 and I30CW models manufactured between 2008 and 2011. It is engineered to effectively block sunlight, enhance driving comfort, and maintain the aesthetic integrity of your vehicle's interior.

### 2. Safety Information

---

Please read and understand all safety warnings before proceeding with installation or use. Your safety is paramount.

#### **⚠ CAUTION: Avoid Serious Injury**

- To maximize your safety in a collision accident, you must wear your seatbelt while driving.
- Do not place child seats with airbags in the front row.
- Do not sit or lie on the airbag.
- Do not place items on or between the airbag and yourself.
- For more information and explanation, please read the instruction manual.

This sun visor may contain a warning label, typically on the underside, providing critical safety instructions related to airbag systems. Ensure this label remains visible and is not obstructed.

While the installation process is designed to be straightforward, it is highly recommended to seek professional personnel for installation to ensure proper fitment and functionality, especially concerning vehicle safety systems.

### 3. Product Overview

The LadyCent Car Sun Visor is a high-quality replacement part crafted from durable ABS and soft stretch cotton materials. It is designed to match the original gray interior of compatible Hyundai I30/I30CW models.

- **Material:** High-grade ABS plastic and stretch cotton fabric.
- **Color:** Gray, designed to blend seamlessly with your vehicle's interior.
- **Features:** Includes a vanity mirror with a sliding cover.
- **OEM Reference:** 85202-2L020TX, 85202 2L020TX.

## 4. Setup and Installation

---

This sun visor is designed for direct replacement. While no complicated tools are strictly necessary, professional installation is recommended to ensure correct fitment and to avoid damage to vehicle components.

### Installation Steps:

1. **Preparation:** Ensure the vehicle is turned off and the ignition key is removed. For safety, it is advisable to disconnect the vehicle's battery if you are unfamiliar with working with automotive electrical systems, although this may not be strictly necessary for a simple visor replacement.
2. **Remove Old Visor:** Carefully locate the mounting points of the existing sun visor. These typically involve screws or clips. Use appropriate tools (e.g., a screwdriver) to remove the fasteners. Gently detach the old visor from its mounting bracket and any electrical connections (if present, for illuminated mirrors).
3. **Install New Visor:** Align the new LadyCent sun visor with the mounting points in your vehicle. If there are electrical connections for a vanity light, connect them securely. Insert and tighten the screws or secure the clips to firmly attach the new visor. Ensure it is securely fastened and does not wobble.
4. **Test Functionality:** Once installed, gently pivot the sun visor up and down, and swing it to the side window position to ensure smooth movement and secure attachment. Check the vanity mirror and any integrated lights (if applicable) for proper operation.

*Image: The sun visor correctly installed in a compatible Hyundai I30/I30CW vehicle interior, demonstrating its integrated appearance.*

## 5. Operating Instructions

---

The sun visor is designed for simple and intuitive operation.

- **Blocking Sunlight:** To block direct sunlight from the front, simply pull the visor down.
- **Side Window Glare:** To block sunlight from the side window, unclip the visor from its central retaining clip (if present) and pivot it towards the side window.
- **Vanity Mirror:** Slide the cover on the underside of the visor to reveal the vanity mirror. Close the cover when not in use to protect the mirror surface.

## 6. Maintenance

---

To ensure the longevity and appearance of your sun visor, follow these simple maintenance guidelines:

- **Cleaning:** The ABS and stretch cotton materials are easy to clean. Use a soft, damp cloth with mild soap and water to wipe down the surface. Avoid harsh chemicals or abrasive cleaners, as these can damage the material or color.
- **Mirror Care:** Clean the vanity mirror with a glass cleaner and a soft, lint-free cloth. Do not spray cleaner

directly onto the mirror; apply it to the cloth first.

- **Inspection:** Periodically check the mounting points to ensure the visor remains securely attached. If any looseness is detected, re-tighten fasteners as necessary.

## 7. Troubleshooting

---

If you encounter any issues with your sun visor, consider the following common solutions:

Problem	Possible Cause	Solution
Visor feels loose or wobbly after installation.	Mounting screws not fully tightened or clips not properly engaged.	Ensure all mounting screws are securely tightened. Verify that clips are fully seated. If issues persist, professional re-installation may be required.
Vanity mirror light (if applicable) does not work.	Loose electrical connection or faulty bulb/LED.	Check electrical connections at the mounting point. If the issue persists, consult a professional automotive electrician.
Visor does not pivot smoothly.	Incorrect installation or obstruction.	Re-check installation to ensure no parts are misaligned or obstructing movement. Do not force the visor.

If you are unable to resolve an issue, it is advisable to consult with a qualified automotive technician.

## 8. Specifications

---

<b>Product Name</b>	Car Sun Visor
<b>Brand</b>	LadyCent
<b>Model / OEM Part No.</b>	85202-2L020TX, 85202 2L020TX
