ENJOY PET B0CD3H3HQ5

ENJOY PET Pet Heating Pad User Manual

MODEL: B0CD3H3HQ5

1. Product Overview

The ENJOY PET Heating Pad provides a warm and comfortable resting surface for your pets. Designed for indoor use, this electric heating pad features adjustable temperature settings and a timer function to ensure optimal comfort and safety for dogs, cats, and other small animals. Its durable construction includes an 8-layer safety structure and a chew-resistant power cord.

Image: A golden retriever puppy comfortably positioned on the blue ENJOY PET heating pad, with the digital controller visible next to it.

Key Features:

- **Adjustable Temperature:** 9 levels from 95°F (35°C) to 131°F (55°C).
- **Timer Function:** Settings for 1 to 12 hours, or an 'Always ON' mode.
- **Safety Design:** 8-layer structure with UL-certified heating wire and overheating protection.
- **Durable Cord:** Dual-ended, steel-wrapped, chew-resistant power cord.
- **Easy Maintenance:** Removable and machine-washable velvet cover.

2. Setup Instructions

1. Unpack the heating pad and its components. Ensure all parts are present: the heating pad, the digital controller, and the user manual.
2. Place the heating pad on a flat, stable surface where your pet typically rests, such as a pet bed, sofa, or floor.
3. Connect the power supply cord to the heating pad and then plug the power supply into a standard electrical outlet (220-240 V AC).
4. The controller will display '00' when first plugged in.

Video: A demonstration of plugging in the ENJOY PET heating pad, adjusting its temperature and timer settings using the

digital controller, and showcasing the chew-resistant power cord. The video also briefly shows a small dog and highlights the washable cover.

3. Operating Instructions

The heating pad features a user-friendly digital controller to manage temperature and timer settings.

Controller Functions:

- **Power Button:** Press the power button (red icon) to turn the heating pad ON or OFF.
- **Temperature Adjustment:** Use the '+' and '-' buttons to cycle through 9 temperature levels. Level 1 is 95°F (35°C), and Level 9 is 131°F (55°C).
- **Timer Setting:** Press the timer button (clock icon) to set the operating duration from 1 to 12 hours. If the timer is set to '00', the pad will remain 'Always ON'.

Note: The heating pad is designed to be pressure-activated. You may feel the warmth more distinctly after your pet lies on it for a few minutes, as pets are more sensitive to temperature changes than humans. The displayed temperatures are laboratory values; actual surface temperature may vary slightly depending on environmental conditions and pet presence.

4. Safety Features

The ENJOY PET Heating Pad incorporates multiple safety features to ensure your pet's well-being:

- **8-Layer Structure:** Includes a soft velvet cover, waterproof Oxford cloth, flame-retardant sponge, spiral heating wire, and an environmental waterproof PVC cover for comprehensive protection.
- **UL-Certified Heating Wire:** Ensures even heating and protection against overheating.
- **Chew-Resistant Cord:** The power cord is steel-wrapped to prevent damage from pet chewing, reducing the risk of electrical hazards.
- **Overheating Protection:** Built-in sensors automatically regulate temperature to prevent the pad from becoming too hot.

5. Maintenance

Keeping your pet's heating pad clean is simple thanks to its removable cover.

Cleaning Instructions:

- Unplug the heating pad from the power outlet before cleaning.
- Unzip and remove the soft velvet outer cover from the heating pad.
- The velvet cover is machine washable. Wash on a gentle cycle with cold water.
- Tumble dry on low heat or air dry. Do not bleach or iron.
- The internal heating element should not be submerged in water. Wipe clean with a damp cloth if necessary. Ensure it is completely dry before reassembling the cover and plugging it back in.
