FoMup FM24WS

FoMup 173-Bottle 24-Inch Freestanding Wine Cooler Refrigerator

Model: FM24WS | Brand: FoMup

1. Introduction

Thank you for choosing the FoMup 173-Bottle 24-Inch Freestanding Wine Cooler Refrigerator. This manual provides essential information for the safe and efficient operation, installation, and maintenance of your new appliance. Please read these instructions thoroughly before use and retain them for future reference.

Important Safety Information

- Ensure the appliance is placed on a stable, level surface.
- Allow the unit to stand upright for at least 24 hours before plugging it in to allow refrigerants to settle.
- Do not block ventilation openings in the appliance enclosure or in the built-in structure.
- Keep children away from the appliance, especially when it is operating. The door lock feature helps prevent unauthorized access.
- Do not store explosive substances such as aerosol cans with a flammable propellant in this appliance.

2. Product Features

The FoMup Wine Cooler is designed to provide an optimal environment for your wine collection with advanced technology and user-friendly features.

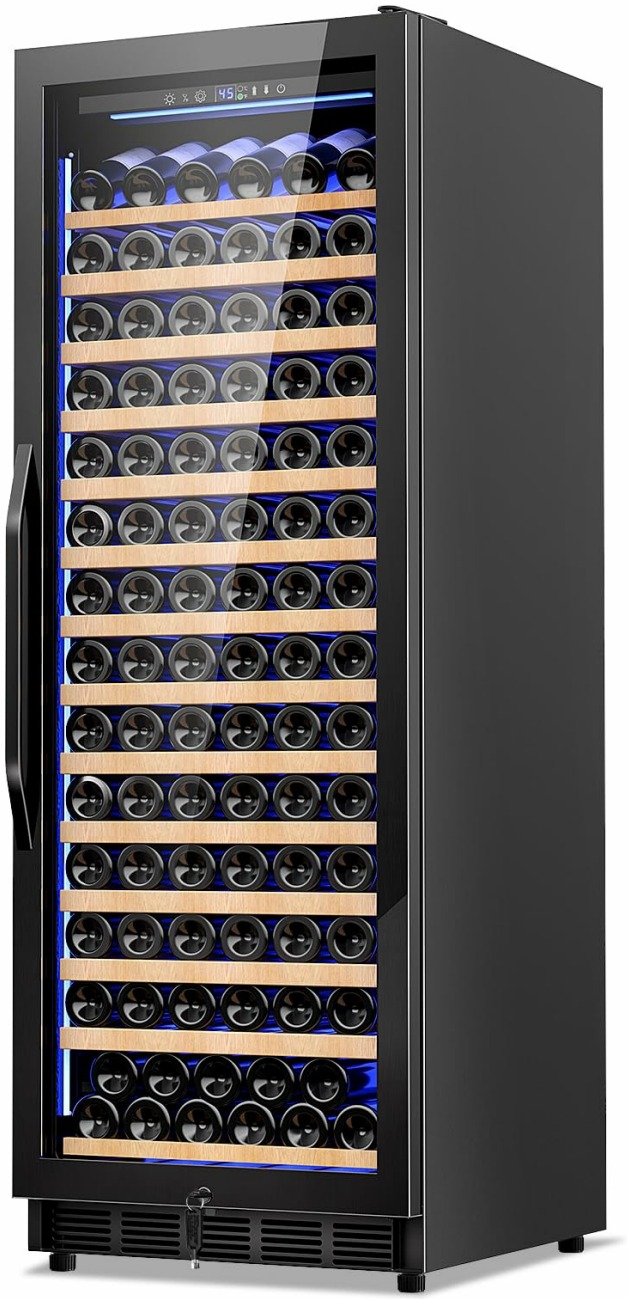

Figure 2.1: FoMup 173-Bottle Wine Cooler Refrigerator.

Capacity and Storage

- **Large Capacity:** Stores up to 173 standard Bordeaux wine bottles (750 ml).
- **Upgraded Shelves:** Features 14 sliding rail wooden shelves for easy access. Top and bottom tiers are designed to accommodate larger bottles and reduce label scratches.

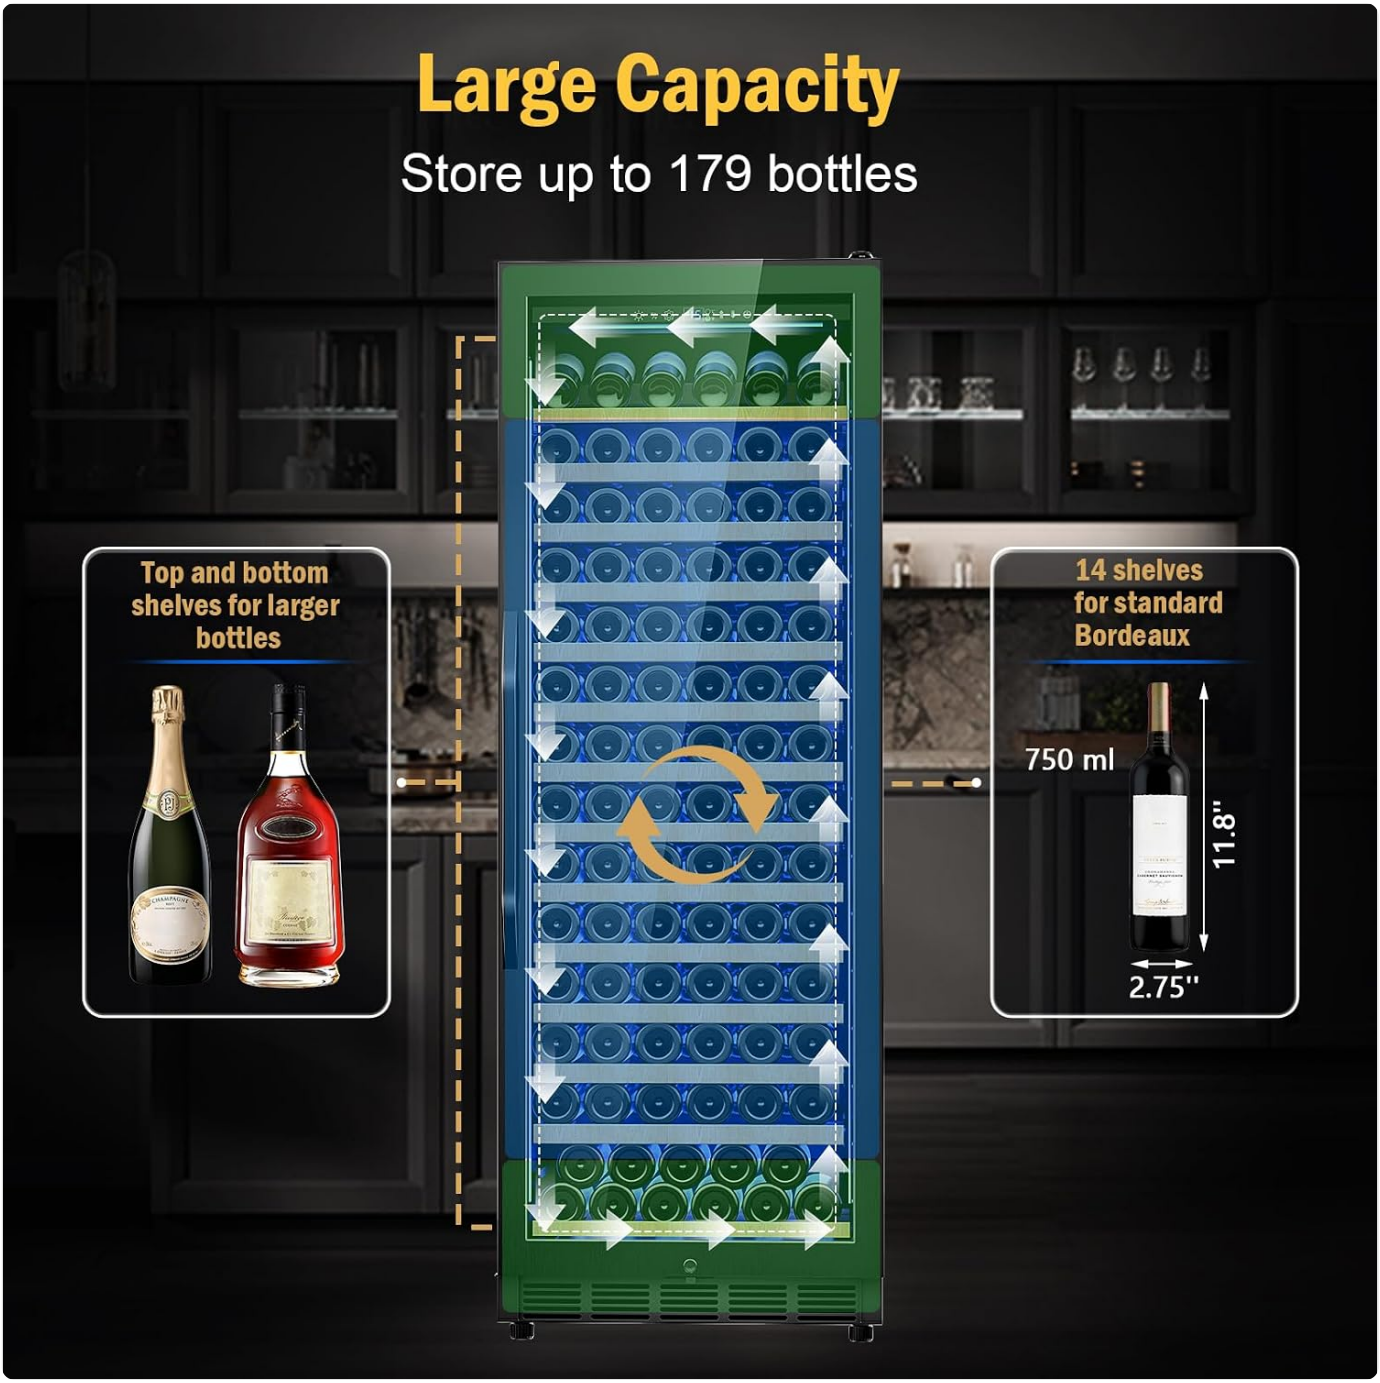

Figure 2.2: Illustration of the wine cooler's large capacity and shelf design for various bottle sizes.

Temperature Control and Cooling System

- **Smart Digital Touch Control:** Allows precise temperature setting between 40-65°F (4-18°C).
- **Memory Function:** Automatically restores the last set temperature after a power interruption.
- **Powerful Compressor:** Energy-efficient and ultra-quiet compressor for rapid and stable cooling.
- **Even Air Distribution:** Two internal fans ensure consistent cool air circulation to all corners.

Figure 2.3: The advanced cooling and circulating system maintains a stable temperature throughout the unit.

Design and Accessibility

- **Special Tempered Glass Door:** Provides better insulation and blocks harmful UV rays, protecting your wine.
- **Upgraded Door Handle:** Non-protruding design for enhanced safety and sleek aesthetics.
- **Soft Blue LED Lighting:** Creates an upscale ambiance and allows easy viewing of your collection.
- **Safety Lock:** Integrated lock to secure your wine collection.
- **Adjustable Bottom Feet:** For leveling the unit on uneven surfaces.
- **Activated Carbon Filter:** Helps eliminate odors and maintain a fresh internal environment.

Figure 2.5: Durable wooden shelves provide strong bearing capacity for your wine bottles.

3. Setup and Installation

Unpacking

1. Carefully remove all packaging materials, including the base and any adhesive tape.
2. Inspect the unit for any shipping damage. Report any damage to your retailer immediately.
3. Remove all internal packing, such as foam blocks and tape, from the interior and shelves.

Placement

This wine cooler is designed for both freestanding and built-in installation. Choose a location that meets the following criteria:

- **Level Surface:** Place the unit on a flat, stable surface capable of supporting its weight when fully loaded.
- **Ventilation:** Ensure adequate air circulation around the unit. For built-in installation, follow cabinet specifications for proper airflow. For freestanding, allow at least 2-3 inches of space around the sides and back.
- **Avoid Heat Sources:** Do not place the unit near direct sunlight, heat sources (e.g., stoves, radiators), or in areas with extreme temperature fluctuations.
- **Power Supply:** Connect to a dedicated, grounded electrical outlet with the correct voltage (115 Volts AC).

Figure 3.1: The wine cooler offers flexible placement options for various home layouts.

Leveling the Unit

The appliance features adjustable bottom feet to ensure it is perfectly level. Proper leveling is crucial for optimal performance and door alignment.

Figure 3.2: Adjustable feet allow for precise leveling of the wine cooler.

Initial Power-On

After placing and leveling the unit, wait for at least 24 hours before plugging it into the power outlet. This allows the compressor oils and refrigerants to settle, preventing potential damage.

4. Operating Instructions

Your FoMup Wine Cooler features an intuitive digital touch control panel for easy operation.

Figure 4.1: The intelligent LCD touch control panel for managing settings.

Power On/Off

- Press the **Power Button** (**U**) on the control panel to turn the unit ON or OFF.

Temperature Adjustment

- Use the **Temperature Up** (**^**) and **Temperature Down** (**v**) buttons to set your desired temperature. The display will show the current internal temperature.
- Press the **°C/°F** button to switch between Celsius and Fahrenheit display.

Figure 4.2: Guide for selecting optimal temperatures for various wine types.

Internal Lighting

- Press the **Light Button** ( ) to turn the soft blue LED interior light ON or OFF.

Figure 4.3: The soft blue LED lighting enhances visibility and ambiance.

Shelf Adjustment and Removal

The wooden shelves can be easily slid out or removed to accommodate different bottle sizes or for cleaning.

- To remove a shelf, pull it forward until it stops, then lift the front edge and slide it out completely.
- To adjust shelf height, locate the shelf supports on the interior walls and reposition the shelves as needed.

Figure 4.4: Removable shelves offer flexibility for storing various bottle sizes.

Door Lock

The integrated safety lock provides security for your wine collection.

- Insert the key into the lock located at the bottom of the door and turn to lock or unlock.

Figure 4.5: The safety lock helps protect your wine collection.

5. Maintenance

Cleaning

- Always unplug the unit before cleaning.
- Clean the interior with a mild detergent and warm water. Wipe dry with a soft cloth.
- The removable shelves can be washed separately.
- Clean the exterior with a soft cloth and mild cleaner. Avoid abrasive cleaners.

Activated Carbon Filter

The activated carbon filter helps maintain a fresh, odor-free environment inside the cooler. Replace the filter periodically (e.g., every 3-6 months) to ensure optimal performance.

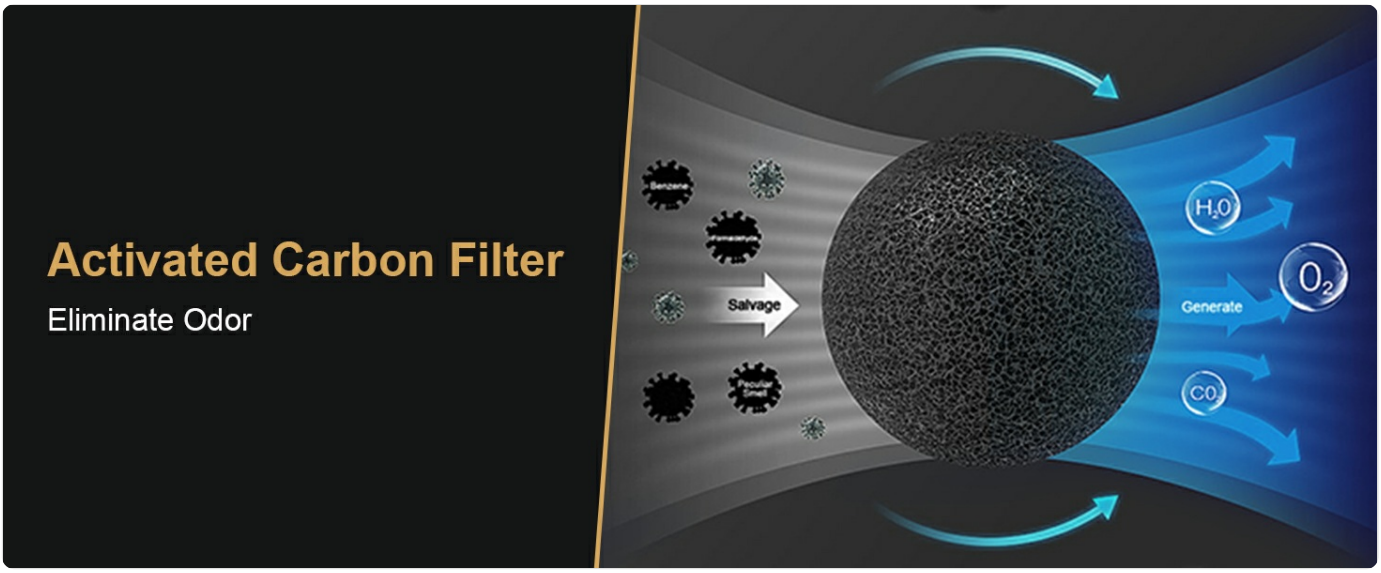

Figure 5.1: The activated carbon filter eliminates odors for optimal wine preservation.

Defrosting

This unit features a frost-free defrost system, minimizing the need for manual defrosting. If excessive frost builds up, unplug the unit and allow it to defrost naturally, then wipe away any water.

6. Troubleshooting

Before contacting customer support, please refer to the following common issues and solutions:

Problem	Possible Cause	Solution
Unit does not operate	No power, circuit breaker tripped, temperature set too high.	Check power connection, reset breaker, lower temperature setting.
Temperature is not cold enough	Door not closed properly, excessive door openings, poor ventilation, unit overloaded.	Ensure door is sealed, reduce door openings, check ventilation, do not overload.
Excessive noise	Unit not level, items vibrating inside, normal compressor operation.	Adjust leveling feet, rearrange items, note that some compressor noise is normal.
Door does not close properly	Unit not level, gasket dirty/damaged, shelves out of place.	Level the unit, clean/replace gasket, ensure shelves are correctly inserted.

7. Specifications

Detailed technical specifications for your FoMup Wine Cooler.

Figure 7.1: Overview of the wine cooler's key specifications and dimensions.

Feature	Specification
Brand Name	FoMup
Model Info	FM24WS
