## Redragon H211

# Redragon H211 Cronus Black Wired Gaming Headset User Manual

Model: H211 | Brand: Redragon

## PRODUCT OVERVIEW

---

The Redragon H211 Cronus Black Wired Gaming Headset is designed to provide an immersive audio experience for gamers across multiple platforms. Featuring 40mm audio drivers, a noise-canceling microphone, and dynamic RGB backlighting, this headset combines comfort with high-quality sound and clear communication. Its lightweight design and memory foam earpads ensure comfort during extended gaming sessions.

## SETUP INSTRUCTIONS

---

Follow these steps to connect your Redragon H211 Cronus Gaming Headset to your device:

1. **Connect Audio:** Insert the 3.5mm audio jack of the headset into the corresponding audio port on your PC, PS5, XBOX, NS, or other compatible device. For devices with separate microphone and headphone jacks, use the included Y-splitter cable.
2. **Connect USB for RGB (Optional):** Plug the USB connector into an available USB port on your device to power the dynamic RGB backlighting on the earcups. This connection is solely for lighting and does not transmit audio.
3. **Adjust Headset:** Adjust the headband for a comfortable fit. The memory foam earpads are designed for extended wear.
4. **Position Microphone:** Position the flexible, unidirectional microphone near your mouth for optimal voice pickup.

# Multi-platform Compatibility

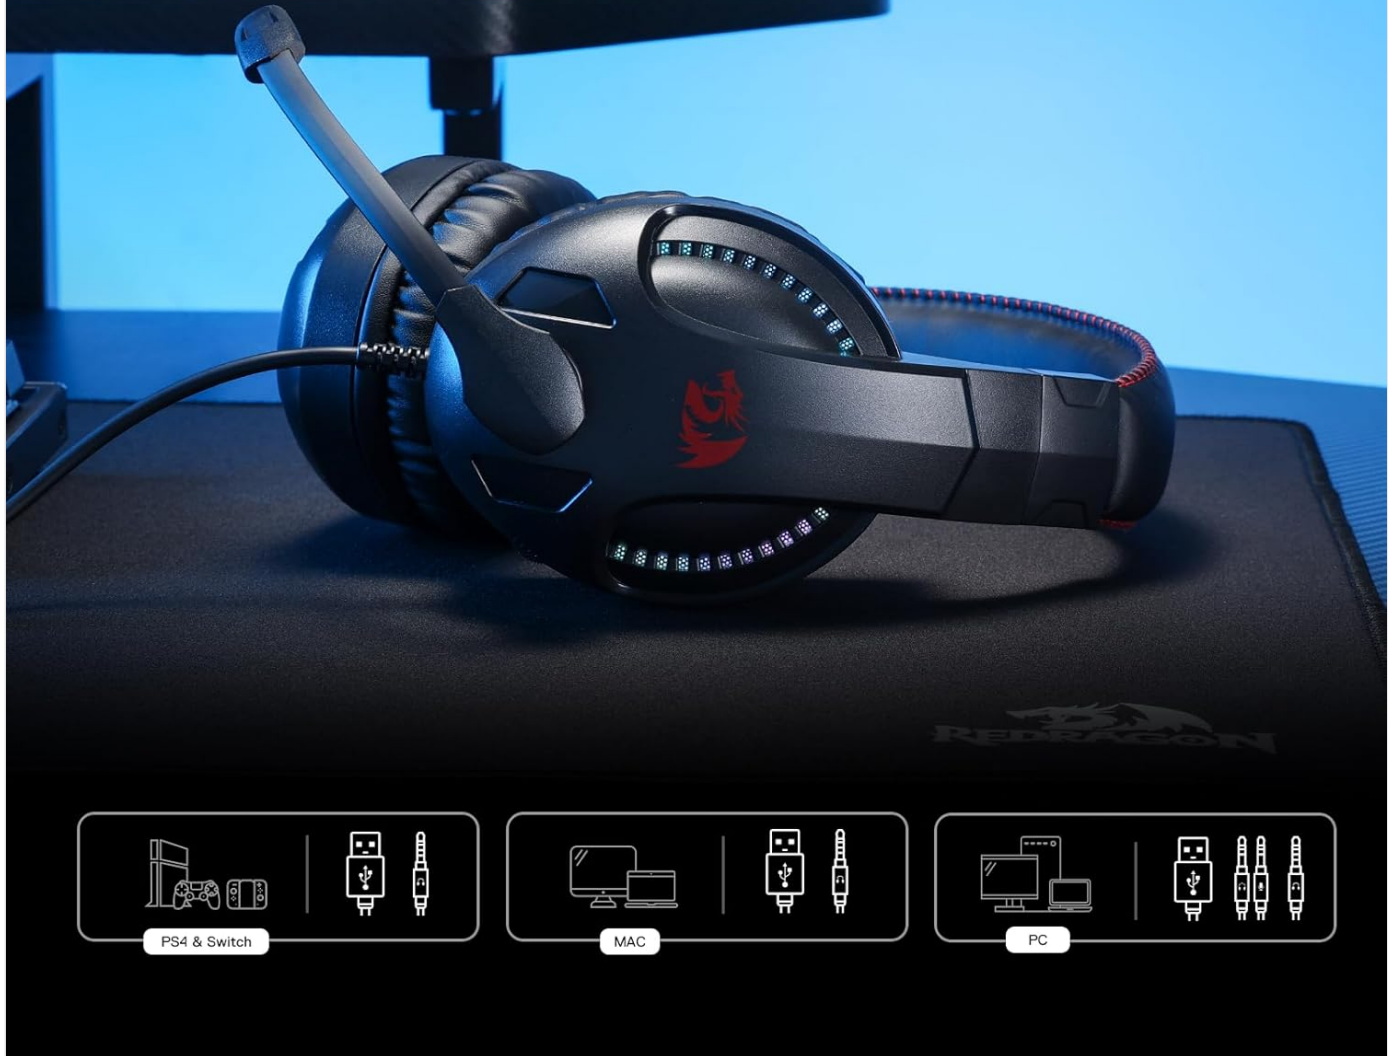

Image: Diagram illustrating the multi-platform compatibility of the Redragon H211 Cronus headset, showing connections for PC, Mac, PS4/Switch, and other 3.5mm devices.

## OPERATING THE HEADSET

### Volume Control

The headset features an integrated volume control wheel located on the left earcup. Rotate the wheel upwards to increase volume and downwards to decrease volume.

## Microphone Usage

The unidirectional noise-canceling microphone can be adjusted to your preferred position. To mute the microphone, use the inline control or system settings on your device. Ensure the microphone is positioned correctly for clear voice transmission and effective noise suppression.

# Noise Cancelling Microphone

Adjustable 120° Microphone to Pick Up Your Voice

120°

## RGB Backlighting

The headset features dynamic RGB backlighting on the earcups, which is powered via the USB connection. The lighting effects are automatic and do not require additional software or controls.

## MAINTENANCE AND CARE

---

- **Cleaning:** Use a soft, dry cloth to clean the headset. Avoid using abrasive cleaners or solvents.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Care:** Avoid sharp bends or excessive pulling on the cable to prevent damage.
- **Earpads:** The memory foam earpads are designed for durability; however, avoid puncturing or tearing them.

## TROUBLESHOOTING

---

Problem	Possible Cause	Solution
No sound from headset	<ul style="list-style-type: none"> <li>Volume too low or muted.</li> <li>Incorrect audio output device selected.</li> <li>Loose 3.5mm connection.</li> </ul>	<ul style="list-style-type: none"> <li>Increase volume using the headset's control wheel or device settings.</li> <li>Verify the correct audio output device is selected in your device's sound settings.</li> <li>Ensure the 3.5mm jack is fully inserted into the port.</li> </ul>
Microphone not working	<ul style="list-style-type: none"> <li>Microphone muted.</li> <li>Incorrect audio input device selected.</li> <li>Microphone not positioned correctly.</li> </ul>	<ul style="list-style-type: none"> <li>Unmute the microphone via inline control or device settings.</li> <li>Verify the correct microphone input device is selected in your device's sound settings.</li> <li>Adjust the microphone closer to your mouth.</li> </ul>
RGB lighting not working	<ul style="list-style-type: none"> <li>USB cable not connected or faulty.</li> <li>USB port issue.</li> </ul>	<ul style="list-style-type: none"> <li>Ensure the USB cable is securely connected to a powered USB port.</li> <li>Try a different USB port.</li> </ul>
