OPERATING INSTRUCTIONS

This 3-in-1 charging station allows you to charge your compatible devices simultaneously and efficiently.

Charging Your iPhone/Smartphone

- Place your Qi-compatible iPhone or smartphone on the vertical charging pad. The dual charging coil design allows for both vertical (portrait) and horizontal (landscape) charging.
- The charging indicator light will illuminate to confirm charging has begun.
- The charger is designed to work through most thick phone cases (up to 10mm), including PopSockets and OtterBox cases.

Popsockets /Otterbox Friendly

The charging station supports thick cases up to 10mm, including those with PopSockets or OtterBox designs.

Charging Your Apple Watch

- Place your Apple Watch on the dedicated magnetic charging module located at the top of the stand.
- Ensure the watch is properly aligned for charging to begin.

Built-in Magnetic Apple Watch Charger

ONLY compatible with Apple Watches

The built-in magnetic charger is specifically designed for Apple Watch models.

Charging Your AirPods/Wireless Earbuds

- Place your AirPods (with wireless charging case) or other Qi-compatible wireless earbuds on the flat charging pad at the base of the station.
- The indicator light will confirm charging.

Overview of compatible devices for the charging station.

Not Compatible With Any Metal Kickstand or Ring

Remove the metal accessory while charging

Do not use with metal kickstands or rings on your phone case.

MAINTENANCE

- Keep the charging station clean by wiping it with a soft, dry cloth.
- Avoid exposing the device to extreme temperatures, humidity, or corrosive substances.
- Do not disassemble or attempt to repair the charging station yourself.

TROUBLESHOOTING

Device Not Charging

- **Check Power Connection:** Ensure the charging station is properly connected to the 18W Quick Charge Wall Charger and the wall outlet.

- **Device Placement:** Make sure your device is correctly aligned on the charging pad. For phones, try adjusting its position vertically or horizontally.
- **Case Thickness/Material:** If your phone case is thicker than 10mm or contains metal, magnetic attachments, or credit cards, remove the case or any interfering objects.
- **Restart Device:** Sometimes, simply restarting your phone, watch, or AirPods case can resolve minor charging issues.

Slow Charging

- **Use Included Adapter:** Always use the provided 18W Quick Charge Wall Charger. Using a lower-wattage adapter may result in slower charging speeds.
- **Background Apps:** Close any power-intensive applications running in the background on your phone.
- **Temperature:** Charging efficiency can be affected by high temperatures. Ensure the charging station is in a well-ventilated area.

Indicator Light Issues

- If the indicator light is not illuminating when a device is placed, refer to the "Device Not Charging" section.
- A flashing indicator light may indicate a foreign object detection. Remove any objects from the charging surface and try again.
