## 2. PRODUCT OVERVIEW

### Package Contents:

- TuneFlux T6 Wireless Bluetooth Over-Ear Headphones
- USB Charging Cable
- 3.5mm Audio Cable

- User Manual (this document)

## Key Features:

- **Audio Performance:** 40mm dynamic drivers, 3 EQ sound modes (Pop, Vocal, Bass), HiFi stereo sound.
- **Connectivity:** Bluetooth 5.3 for stable connection, supports simultaneous connection to two devices.
- **Battery Life:** Up to 80 hours of playtime on a single charge, 10-minute quick charge provides 5 hours.
- **Design:** Foldable, adjustable headband, memory foam ear cups for comfort, lightweight.
- **Microphone:** Built-in microphone for clear calls and voice assistant (wireless mode only).

Image 2: The TuneFlux T6 headphones feature a foldable design for portability, an adjustable headband for a secure fit, and comfortable earcups.

## 3. SETUP

### 3.1 Charging the Headphones

Before first use, fully charge the headphones. Connect the provided USB charging cable to the charging port on the headphones and the other end to a USB power source (e.g., computer, wall adapter). The LED

indicator will show charging status and turn off or change color when fully charged. A full charge takes approximately 2 hours.

### 3.2 Power On/Off

- **Power On:** Press and hold the Power button for approximately 3 seconds until the LED indicator flashes.
- **Power Off:** Press and hold the Power button for approximately 3 seconds until the LED indicator turns off.

### 3.3 Bluetooth Pairing

1. Ensure the headphones are powered off.
2. Press and hold the Power button for 5-7 seconds until the LED indicator flashes red and blue alternately, indicating pairing mode.
3. On your device (smartphone, PC, etc.), enable Bluetooth and search for available devices.
4. Select "TuneFlux-T6" from the list of devices.
5. Once connected, the LED indicator will flash blue slowly.

Image 3: The headphones utilize advanced Bluetooth 5.3 technology for a stable connection, as shown with a device's Bluetooth pairing screen.

### 3.4 Connecting to Two Devices Simultaneously

The TuneFlux T6 headphones support connecting to two Bluetooth devices at the same time. After pairing with the first device, disable Bluetooth on that device. Then, pair the headphones with the second device. Once the second device is connected, re-enable Bluetooth on the first device. The headphones should automatically connect to both devices. Audio will play from the device currently active.

### 3.5 Wired Mode

To use the headphones in wired mode, connect the provided 3.5mm audio cable to the audio jack on the headphones and to your audio source. This mode does not require battery power and disables Bluetooth functionality. The built-in microphone is not active in wired mode.

## 4. OPERATING INSTRUCTIONS

### 4.1 Button Functions

Button/Control	Function
Power Button	Press and hold 3s: Power On/Off Press and hold 5-7s (from off): Enter Pairing Mode Short press (during call): Answer/End Call Long press (during call): Reject Call
Volume Up (+)	Short press: Increase Volume Long press: Next Track
Volume Down (-)	Short press: Decrease Volume Long press: Previous Track
Multi-function Button (Play/Pause)	Short press: Play/Pause Music Short press: Activate Voice Assistant (Siri/Google Assistant)
EQ Button	Short press: Cycle through EQ modes (Pop, Vocal, Bass)

### 4.2 EQ Sound Modes

The TuneFlux T6 headphones feature three equalizer (EQ) modes to optimize your listening experience for different audio content. Press the EQ button to cycle through the modes:

- **Pop Mode:** Balanced sound profile suitable for general music listening.
- **Vocal Mode:** Enhances vocal clarity, ideal for podcasts, audiobooks, or vocal-centric music.
- **Bass Mode:** Boosts low frequencies for a more pronounced bass response, suitable for genres like electronic music or hip-hop.

Image 4: The TuneFlux T6 headphones offer three distinct EQ modes: Vocal, Bass, and Balance Pop, allowing users to customize their audio experience.

### 4.3 Making and Receiving Calls

When connected via Bluetooth, you can use the headphones for hands-free calling:

- **Answer Call:** Short press the Power button.
- **End Call:** Short press the Power button.
- **Reject Call:** Long press the Power button.

*Note: The microphone functions only in wireless (Bluetooth) mode.*

### 4.4 Voice Assistant

To activate your device's voice assistant (Siri, Google Assistant, etc.), short press the Multi-function button (Play/Pause) when not on a call.

## 5. MAINTENANCE

### 5.1 Cleaning

Wipe the headphones with a soft, dry, lint-free cloth. Do not use abrasive cleaners, alcohol, or chemical

solvents. Avoid getting moisture into any openings.

5.2 Storage

When not in use, store the headphones in a cool, dry place away from direct sunlight and extreme temperatures. The foldable design allows for compact storage.

6. TROUBLESHOOTING

Problem	Solution
Headphones do not power on.	Ensure the headphones are charged. Connect to a power source using the USB cable.
Cannot pair with device.	Ensure headphones are in pairing mode (LED flashes red/blue). Disable and re-enable Bluetooth on your device. Move headphones closer to the device (within 10 meters).
No sound or low volume.	Check volume levels on both headphones and connected device. Ensure headphones are properly paired. If in wired mode, check cable connection.
Microphone not working.	Ensure headphones are connected via Bluetooth. The microphone does not function in wired mode. Check device settings to ensure TuneFlux T6 is selected as the input device.
Sound quality is poor.	Ensure the headphones are within Bluetooth range. Try changing the EQ mode. Check the audio source quality.

7. SPECIFICATIONS

A promotional image for the TuneFlux T6 headphones. The headphones are shown in a three-quarter view, set against a cosmic background featuring a starry sky and a rocky celestial body. The brand name 'TuneFlux' is visible on the side of the headband. Large, bold text on the left side of the image highlights the product's key features: '80 HOURS' in large orange numerals, 'EXTENDED PLAYTIME' in white capital letters, '1200 SONGS' in large orange numerals, and a charging feature '10 MINS CHARGING = 5 HOURS PLAYTIME' enclosed in an orange-bordered box. At the bottom, a line of text reads 'Ultra-long battery life of up to 80 hours keeps your music going'.

**80 HOURS**

**EXTENDED PLAYTIME**

**1200 SONGS**

**10 MINS CHARGING = 5 HOURS PLAYTIME**

Ultra-long battery life of up to 80 hours keeps your music going

Image 5: The TuneFlux T6 headphones offer an extended playtime of up to 80 hours on a single charge, with quick charging providing 5 hours of use from a 10-minute charge.

Image 6: The TuneFlux T6 headphones are equipped with 40mm large dynamic drivers, designed to produce immersive bass without compromising clarity.

The image features a man wearing TuneFlux T6 headphones. Overlaid on the right side is a bar chart comparing 'Bit Rate' and 'SOUND QUALITY' between 'TuneFlux T6 Headphones' and 'Normal headphones'. The 'TuneFlux T6 Headphones' bar is significantly higher, with a callout indicating '3 Times' higher 'Information Transmission'. The 'SOUND QUALITY' bar for TuneFlux is also higher than the 'Normal headphones' bar.

Metric	TuneFlux T6 Headphones	Normal headphones
Bit Rate	3 Times higher	Baseline
SOUND QUALITY	Higher	Baseline

# HIGH-FIDELITY AUDIO

Certified High-Fidelity audio delivers lossless sound and rechen the details naturally.

Image 7: The TuneFlux T6 headphones deliver certified high-fidelity audio, ensuring lossless sound transmission and detailed audio reproduction.

## 8. WARRANTY AND SUPPORT

TuneFlux products are designed for reliability and performance.
