Easyfone Trackino KW2 4G Kids Smart Watch Phone User Manual

Model: KW2 | Brand: Easyfone

Overview	What's in the Box	Setup Guide	Operating Instructions	Maintenance	Troubleshooting
		Specifications	Warranty & Support		

1. PRODUCT OVERVIEW

The Easyfone Trackino KW2 4G Kids Smart Watch Phone is designed as a reliable communication and safety device for children aged 4 and above. It serves as a phone alternative, offering safe calling, accurate GPS tracking, and various features managed by parents through a dedicated app. This smartwatch aims to provide peace of mind for parents while giving children a sense of independence.

2. WHAT'S IN THE BOX

Upon opening your Easyfone Trackino KW2 package, you should find the following items:

- Trackino KW2 Kids Smart Watch
- User Manual
- Charging cable
- SpeedTalk Activation Guide Card

Image: All components included in the Easyfone Trackino KW2 Smart Watch package, laid out for clear identification.

3. SETUP GUIDE

Setting up your Easyfone Trackino KW2 is a straightforward process. Follow these steps to get your child's smartwatch ready for use:

1. **Charge the Watch:** Before initial use, fully charge the Trackino KW2 using the provided charging cable. Connect the cable to the watch and a compatible USB power source.
2. **Activate SIM Card:** The watch comes with a pre-installed SpeedTalk SIM card. You will need to activate an Easyfone exclusive plan. Visit the SpeedTalk Mobile Easyfone Activation Page at www.speedtalkmobile.com/easyfone to activate your service. Plans start at \$11.99/month with no contracts or activation fees.
Note: The SIM card number is typically found on the activation guide card, e.g., 8901240407123676080.
3. **Download the "Trackino" App:** Search for and download the "Trackino" management application on your smartphone's app store (available on Google Play and Apple App Store).

Easy to set up for Trackino KW2

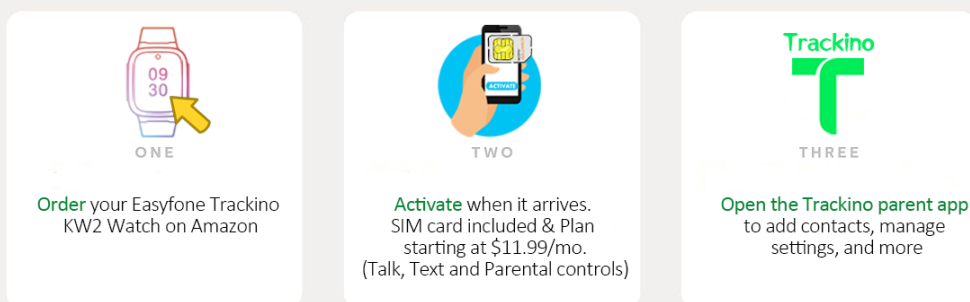

Image: Visual guide illustrating the three main steps for setting up the Easyfone Trackino KW2.

4. **Pair Watch with App:** Open the "Trackino" app and follow the on-screen instructions to pair your child's watch with your smartphone. This will allow you to manage contacts, check locations, set alarms, and access other features.

4. OPERATING INSTRUCTIONS

The Easyfone Trackino KW2 is designed for intuitive use by children, with parental controls managed via the "Trackino" app.

4.1. Safe Calling & Messaging

Making Calls: Children can make calls to parent-managed contacts directly from the watch. Parents can set up to 15 contacts and restrict unknown calls for enhanced safety.

4G Safe Calling & Make/Answer Calls Easily

Easy-to-use for Kids

- Parent-Managed Contacts
- Unlimited Call & Text
- Come with a Real Phone Number
- No Communication App Required
- Customized Contact Avatar
- Support Restrict Unknown Calls
- Focus Mode for School

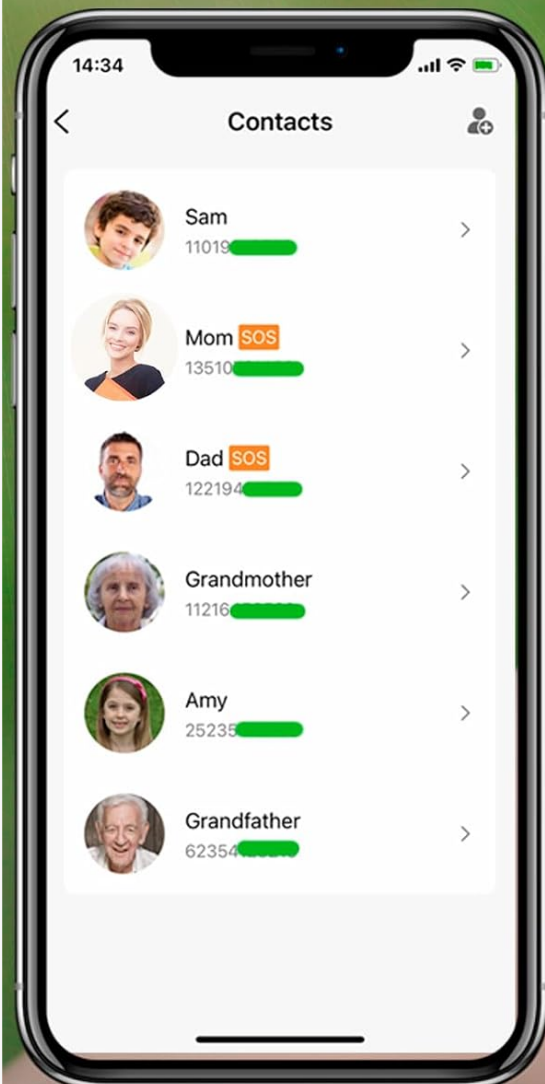

Image: Demonstrates how parents manage contacts via the app and how children can access them on the watch for safe calling.

SOS Button: In case of emergency, the watch is equipped with an SOS button for quick connection to pre-set SOS contacts.

Voice Chat Message & SMS: The watch supports voice chat messages and SMS. Children can send and receive messages, including pre-set emojis, making communication fun and easy.

Chat & Messages

Hold to talk, with 48 pre-set emojis

Image: The watch screen showing a voice message, indicating the ease of communication for children.

4.2. GPS Tracking & Safety Features

Accurate GPS Positioning: Parents can track their child's real-time location using the "Trackino" app.

Check GPS Location

Support Customizable Safe Zones

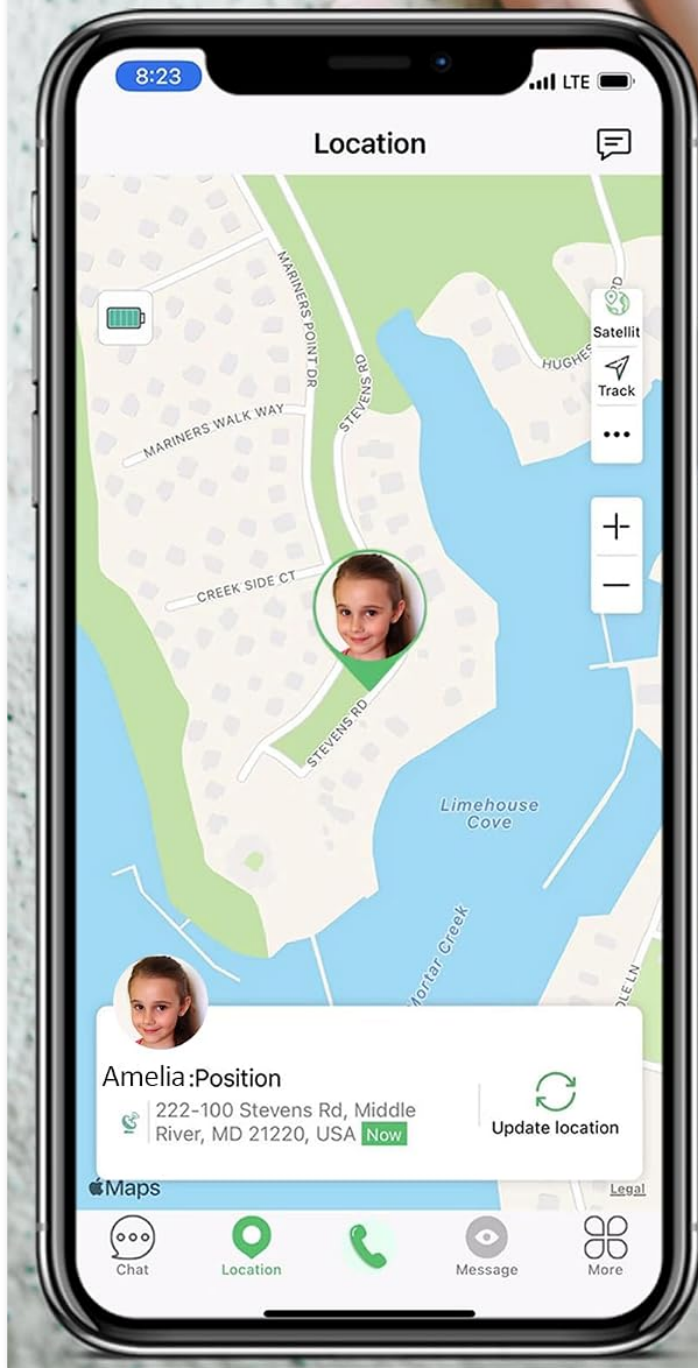

Image: Visual representation of the GPS tracking feature, showing real-time location on a map via the parent app.

Custom GPS SafeZones: Set up custom safe zones (e.g., home, school). Parents will receive notifications when their child enters or leaves these designated areas.

School Mode: Activate School Mode to limit watch functions during school hours, ensuring no distractions.

4.3. Additional Features

Steps Counter: The watch includes a pedometer to track daily steps, encouraging activity.

Track Activity To stay active & healthy!

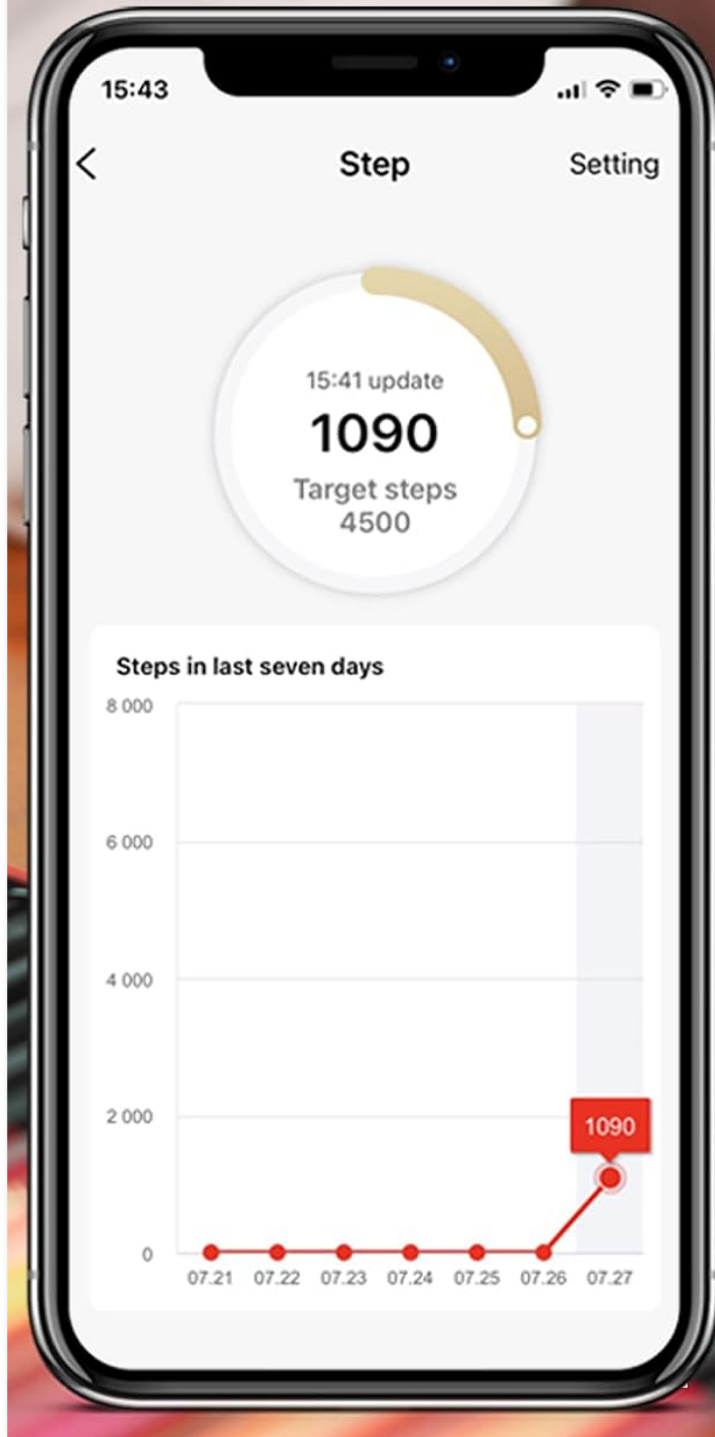

Image: The Trackino app interface showing activity tracking, including step count and historical data.

Camera: A built-in camera allows children to take photos.

Alarms: Set alarms for various purposes, such as wake-up calls or reminders for activities.

Gallery: View saved photos in the watch's gallery.

Stop Watch & Voice Record: Useful tools for daily activities.

Touch to Add Friends: A fun feature allowing children to connect with other Trackino watch users.

No Third-Party Apps: For safety concerns, the Easyfone Trackino KW2 does not support the installation of third-party applications.

5. MAINTENANCE

Battery Life: The watch has a 720mAh capacity battery. It provides approximately 2-3 days of working time and 5-7 days of standby time. Actual usage times may vary depending on network coverage and feature usage.

Image: Details on the watch's battery capacity and expected usage times.

Dustproof & Waterproof: The Trackino KW2 is IP-68 water resistant, making it durable for everyday adventures. While it can withstand splashes and brief immersion, for optimal call quality, it is not recommended to wear this watch for swimming.

Dustproof & Waterproof

More durable & IP-68 water resistant

Ready for Adventure

Image: The watch shown in a sandy environment, emphasizing its robust design for active children.

Cleaning: Use a soft, dry cloth to clean the watch. Avoid harsh chemicals or abrasive materials.

6. TROUBLESHOOTING

If you encounter issues with your Easyfone Trackino KW2, please refer to the following common solutions:

Problem	Possible Cause	Solution
Watch not turning on/charging	Low battery; faulty charging cable/adapter; loose connection.	Ensure the watch is fully charged. Check charging cable and adapter for damage and ensure a secure connection. Try a different USB port or adapter.
Poor call quality or no signal	Weak cellular signal; SIM card not properly activated or inserted; network issues.	Move to an area with better cellular coverage. Verify SIM card activation with SpeedTalk Mobile. Reinsert the SIM card to ensure proper seating. Contact your cellular provider if issues persist.
Inaccurate GPS location	Weak GPS signal; watch indoors or in an area with obstructions; app not updated.	Ensure the watch has a clear view of the sky for better GPS reception. Update the "Trackino" app to the latest version. GPS accuracy can vary based on environment.
Cannot pair watch with app	Incorrect pairing steps; app/watch software issue; Bluetooth interference.	Review the pairing instructions in the Setup Guide. Ensure Bluetooth is enabled on your phone. Restart both the watch and your phone, then try pairing again.
Watch time/date is incorrect	Watch not connected to network; time zone settings.	Ensure the watch has an active cellular connection. Check time zone settings within the "Trackino" app. The watch should automatically sync time when connected.

For further assistance, please contact Easyfone customer support.
