KEERCIGA DS01

KEERCIGA DS01 Dehumidifier User Manual

Model: DS01 | Brand: KEERCIGA

1. INTRODUCTION

Thank you for choosing the KEERCIGA DS01 Dehumidifier. This manual provides important information for the safe and efficient operation of your new appliance. Please read it thoroughly before use and keep it for future reference. The KEERCIGA DS01 Dehumidifier is designed to reduce excess moisture in your home, creating a more comfortable and healthy living environment. It features advanced semiconductor condensation technology, an 1800ml water tank, automatic shut-off, auto defrosting, and quiet operation with multiple light modes.

2. SAFETY INSTRUCTIONS

- Always place the dehumidifier on a stable, level surface.

- Ensure the power cord is not damaged or pinched.

- Do not block the air inlet or outlet. Maintain at least 10 cm (4 inches) clearance around the unit.

- Unplug the unit before cleaning or performing any maintenance.

- Do not immerse the unit, power cord, or plug in water or other liquids.

- Keep out of reach of children and pets.

- Do not operate the dehumidifier in extremely cold environments (below 0°C / 32°F) for extended periods, as this may trigger the auto-defrost function.

- This appliance is for indoor use only.

3. PACKAGE CONTENTS

Please check the box for the following items:

- KEERCIGA DS01 Dehumidifier Unit

- DC Power Adapter

- Instruction Manual

4. PRODUCT OVERVIEW

Familiarize yourself with the main components of your KEERCIGA DS01 Dehumidifier.

Figure 4.1: Front view of the KEERCIGA DS01 Dehumidifier, showing the control panel and water tank window.

Figure 4.2: Side view of the KEERCIGA DS01 Dehumidifier, illustrating its compact dimensions (7.4"D x 7.4"W x 11.2"H).

Figure 4.3: Illustration of the easy water tank removal and draining process.

Key Features:

- **High-efficiency Dehumidification:** Utilizes semiconductor condensation technology to remove up to 16oz (450ml) of water per day in optimal conditions.
- **Large Water Tank:** Equipped with an 1800ml (63oz) water tank for extended operation.
- **Automatic Shut-off:** The unit automatically turns off when the water tank is full, indicated by a red light.
- **Auto Defrosting:** Automatically activates defrosting when temperatures drop below 0°C (32°F).
- **Ultra-Quiet Operation:** Operates below 30 dB in sleep mode, ideal for bedrooms.
- **Multi-Color Light:** Features a 7-color rotation light, single color lock, or light-off option.
- **Timer Function:** Includes 6, 8, and 10-hour timer settings for energy efficiency.
- **Portable Design:** Compact size (6.38"x5.12"x9.84") with a built-in handle for easy relocation.

5. SETUP

1. **Unpack:** Carefully remove the dehumidifier and all accessories from the packaging.
2. **Placement:** Place the unit on a firm, level surface in the desired location. Ensure there is at least 10 cm (4 inches) of space around all sides for proper airflow. Avoid placing it directly against walls or furniture.
3. **Power Connection:** Insert the DC power adapter into the power input port on the back of the dehumidifier. Then, plug the adapter into a suitable electrical outlet.

6. OPERATING INSTRUCTIONS

Control Panel:

Figure 6.1: Detailed view of the touch control panel and its functions.

- **Power Button ( ):** Press to turn the unit ON or OFF.
- **Light Mode Button ( ):** Press to cycle through light modes: 7-color rotation, lock single color, or turn off the light.
- **Timer Button ( ):** Press to set the operating timer for 6, 8, or 10 hours. The unit will automatically shut off after the set time.
- **Sleep Mode Button ( ):** Press to activate sleep mode, which reduces operating noise to below 30 dB for a quiet environment.
- **Automatic Defrost Function (❄):** This function activates automatically when the ambient temperature falls below 0°C (32°F) to prevent ice buildup.

Operating Tips:

- For optimal performance, close doors and windows in the room where the dehumidifier is operating.
- The dehumidifier works best in environments with relative humidity above 50%.
- Regularly check the water tank and empty it when full to ensure continuous operation.

7. MAINTENANCE

Emptying the Water Tank:

The dehumidifier will automatically shut off and an indicator light will turn red when the water tank is full. Follow these steps to empty it:

1. Turn off the dehumidifier and unplug it from the power outlet.
2. Gently pull out the water tank from the front of the unit.

3. Open the lid of the water tank and carefully pour out the collected water.

4. Close the lid and slide the empty water tank back into the dehumidifier until it clicks into place.

5. Plug the unit back in and turn it on to resume operation.

Figure 7.1: Step-by-step visual instructions for emptying the water tank.

Cleaning the Unit:

- Wipe the exterior of the dehumidifier with a soft, damp cloth. Do not use abrasive cleaners or solvents.

- Periodically clean the air inlet and outlet grilles with a soft brush or vacuum cleaner to remove dust and debris.

- Clean the water tank regularly to prevent mold or mildew growth. Use mild soap and water, rinse thoroughly, and dry completely before reinserting.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Dehumidifier does not turn on.	No power supply. Water tank is full or not properly inserted.	Check if the power adapter is securely plugged into the unit and the wall outlet. Empty the water tank and ensure it is correctly reinserted.
No water collected.	Room humidity is too low. Air inlet/outlet blocked. Temperature is too low (auto-defrost active).	The unit may not collect water if humidity is below 45%. Clear any obstructions from the grilles. The unit will pause dehumidification during defrosting. This is normal.

Problem	Possible Cause	Solution
Unit is noisy.	Unit not on a level surface. Obstruction in fan.	Ensure the unit is on a flat, stable surface. Check for any foreign objects in the fan area (unplug first).
Indicator light is red.	Water tank is full.	Empty the water tank.

If the problem persists after trying the above solutions, please contact customer support.

9. SPECIFICATIONS

Feature	Specification
Brand	KEERCIGA
Model Name	Dehumidifiers for Home (DS01)
Floor Area Coverage	Up to 300 Square Feet
Color	Light White
Water Tank Capacity	1800 Milliliters (63oz)
Dehumidification Capacity	Up to 16 ounces (450ml) per day (at 86°F, 80% RH)
Product Dimensions	7.4"D x 7.4"W x 11.2"H
Item Weight	3.18 Ounces
Material	Plastic
Wattage	22.5 watts
Operation Modes	Normal mode & Sleep mode
Special Features	7 Color Light, 6-8-10h Timer, Automatic Defrost, Automatic stop when water tank is full, Sleep Mode

10. WARRANTY AND SUPPORT
