Espelho Automatic Cat Feeder User Manual

Model: DU5L-KH-01

INTRODUCTION

Thank you for choosing the Espelho Automatic Cat Feeder. This 5L timed food dispenser is designed to provide convenient and reliable feeding for your cats and dogs, featuring a 2-way splitter for multiple pets, easy setup and cleaning, 10-second voice recording, and programmable portion control. This manual will guide you through the setup, operation, and maintenance of your new pet feeder.

SAFETY PRECAUTIONS

- Ensure the feeder is placed on a stable, level surface to prevent tipping.
- Keep the feeder away from direct sunlight and heat sources.
- Do not immerse the main unit in water. Only detachable parts are washable.
- Use only the provided 5V USB-C adapter.
- Install 3 alkaline D-cell batteries (not included) for backup power in case of outages.
- Keep out of reach of small children.
- Do not use kibble larger than 13mm to prevent jamming.

PACKAGE CONTENTS

Verify that all items are present in the package:

- Power Adapter ×1
- 5 ft USB-C Cord ×1
- Desiccant Bag ×1

- User Manual ×1
- 2-Way Splitter (pre-installed or separate)
- Double Stainless Steel Food Bowls

PRODUCT OVERVIEW

The Espelho Automatic Cat Feeder consists of several key components designed for optimal functionality and ease of use.

Image: An exploded view diagram of the feeder showing its components: Sliding Lock Lid, Silicone Sealing Ring, Desiccant Bag, Visual Food Container, Safety Lock Button, Anti-Clog Patent Motor Design, and Stainless Steel Food Bowl.

- **Food Reservoir:** Transparent container for storing dry kibble (5L capacity).
- **Control Panel:** LCD screen and buttons for programming meals, portions, and voice recordings.
- **Dispensing Mechanism:** Patented anti-clog motor design ensures smooth food delivery.
- **2-Way Splitter:** Divides food into two separate bowls, ideal for multiple pets. Can be removed for single-bowl use.
- **Stainless Steel Bowls:** Durable and easy to clean.
- **Desiccant Bag Compartment:** Keeps food fresh by absorbing moisture.
- **Dual Power Supply:** Operates via USB-C adapter with D-cell battery backup.

1. **Unpack and Assemble:** Carefully remove all components from the packaging. Ensure the 2-way splitter is correctly installed if feeding two pets. If using for a single pet, the splitter can be removed.
2. **Insert Desiccant Bag:** Open the desiccant bag compartment located under the lid and insert the provided desiccant bag to maintain food freshness. Replace every 2-4 weeks.
3. **Power Connection:**
 - Connect the 5 ft USB-C cord to the feeder and plug the power adapter into a wall outlet.
 - For backup power, install 3 alkaline D-cell batteries (not included) in the battery compartment at the bottom of the unit. This ensures continuous feeding during power outages.

Image: The feeder illustrating its dual power supply capability, showing both battery compartment and power adapter connection.

4. **Fill Food Reservoir:** Open the top lid and pour dry kibble into the transparent food container. The 5L capacity can hold a significant amount of food. Ensure the kibble size is between 2-13mm to prevent jamming.
5. **Place Bowls:** Position the stainless steel bowls under the dispensing outlets.

OPERATING INSTRUCTIONS

1. Set Current Time:

- Press and hold the "SET" button for 3 seconds to enter time setting mode.
- Use the Up/Down arrows to adjust the hour and minute.
- Press "SET" to confirm each setting.

2. Program Meal Schedules:

- Press "SET" once to enter meal programming mode (Meal 1).
- Use Up/Down arrows to set the feeding time for Meal 1. Press "SET" to confirm.
- Use Up/Down arrows to set the portion size (1-20 portions, 1 portion = 1/8 cup or 2 tbsp). Press "SET" to confirm.
- Repeat for up to 6 meals. To disable a meal, set its portion size to 0.

Image: A visual guide to setting up a healthy diet with the feeder, showing 1-6 meals per day, up to 20 portions per meal, and recommended kibble size.

3. Record Voice Message:

- Press and hold the "Record" button (microphone icon) for 3 seconds until the indicator light flashes.
- Speak your 10-second message. Release the button to save. The message will play before each scheduled meal.
- To delete, record a new message or hold the button until the light flashes and release

immediately without speaking.

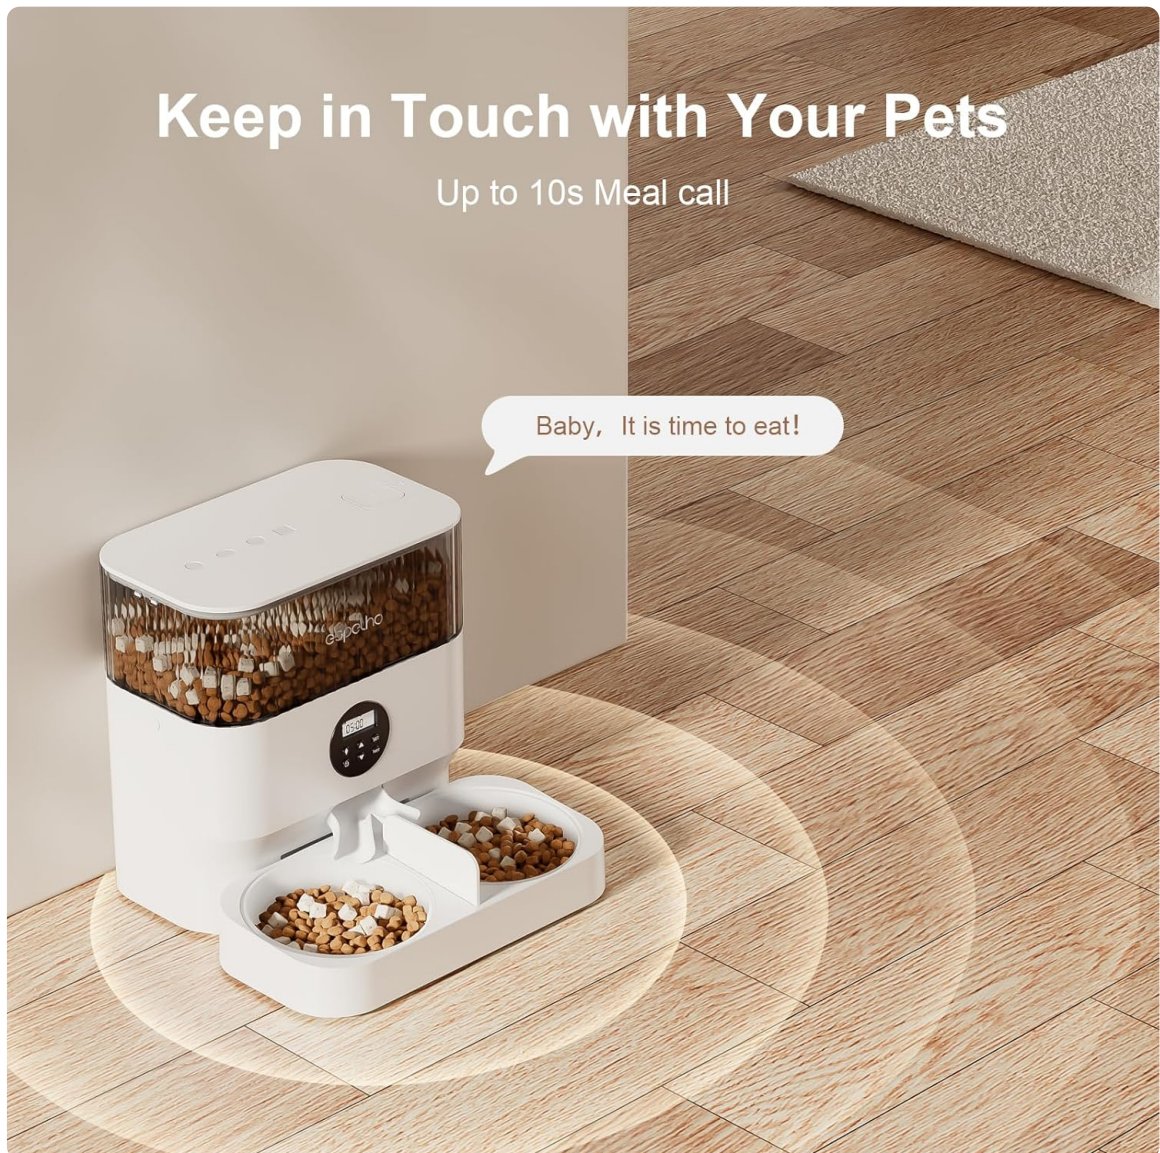

Image: A cat looking towards the feeder with speech bubbles indicating a personalized meal call, "Baby, It is time to eat!".

4. Manual Feeding:

- Press the "FEED" button once to dispense one portion immediately.
- To prevent accidental manual dispensing by pets, long press the "Lock" button (padlock icon) for 3 seconds to lock/unlock the control panel.

MAINTENANCE & CLEANING

Regular cleaning ensures the longevity and hygiene of your pet feeder.

1. **Disassembly:** Unplug the feeder. Remove the food bowls, the 2-way splitter, and the food reservoir.
2. **Cleaning Components:**
 - The stainless steel bowls, 2-way splitter, and food reservoir are detachable and washable. Wash them with mild soap and water.
 - Rinse thoroughly and dry completely before reassembling.

Easy to Clean

Detachable design for thorough clean

Image: The detachable components of the feeder, including the food reservoir and base, being cleaned with water, highlighting the easy-to-clean design.

3. **Main Unit Cleaning:** Wipe the main unit (non-washable parts) with a soft, damp cloth. Do not use abrasive cleaners or submerge the unit in water.
4. **Storage:** When not in use, store the feeder in a dry place.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Feeder not dispensing food / E002 error.	Food jam, low food level, or dispensing mechanism obstruction.	Check food level. Remove food from reservoir and clear any blockages in the dispensing mechanism. Ensure the food container is properly aligned and locked onto the base. Use recommended kibble size (2-13mm).
Uneven food distribution between bowls.	Kibble shape/size, or slight misalignment of the splitter.	This can sometimes occur with certain kibble types. Ensure the splitter is firmly in place. While complete evenness is not always guaranteed, the feeder provides sufficient food for both pets.
Control panel unresponsive.	Panel is locked, or power issue.	Long press the "Lock" button (padlock icon) for 3 seconds to unlock the panel. Check power connection and battery backup.
Voice recording not playing.	No message recorded or old message overwritten.	Ensure a message has been successfully recorded. Re-record if necessary.

SPECIFICATIONS

- **Model Name:** DU5L-KH-01
- **Capacity:** 5L
- **Material:** BPA free ABS
- **Color:** White-5L
- **Item Dimensions (LxWxH):** 12.4 x 12.8 x 11.81 inches
- **Item Weight:** 5.94 pounds
