4. SAFETY INFORMATION

Please read all instructions carefully before installation and use. Keep this manual for future reference.

- **Electrical Safety:** Always turn off the main power supply at the circuit breaker before beginning any electrical work. Ensure proper grounding. All wiring must comply with local electrical codes.
- **Professional Installation:** Due to the electrical nature and assembly requirements, professional installation by a qualified electrician is highly recommended.
- **Handling Crystals:** Handle crystals with care to avoid breakage or scratches. It is recommended to wear gloves during crystal assembly to prevent fingerprints.
- **Weight:** The chandelier has a significant weight (27.8 pounds). Ensure the ceiling junction box and mounting structure can safely support this weight. A metal junction box is often required.
- **Indoor Use Only:** This fixture is designed for indoor use in dry locations only. Do not expose to moisture or direct water.

5. SETUP AND INSTALLATION

A complete set of detailed installation instructions and hardware accessories are included in the product package. Please refer to these specific instructions for step-by-step guidance.

1. **Preparation:** Before starting, ensure all components listed in the packing list are present. Turn off power at the circuit breaker.
2. **Mounting:** Securely attach the mounting bracket to the ceiling junction box. Ensure the box is rated for the chandelier's weight.
3. **Wiring:** Connect the electrical wires according to the provided wiring diagram (typically black to black, white to white, and ground to ground). All wires are UL listed for safety.
4. **Fixture Hanging:** Carefully hang the main fixture body. Adjust the chain length (up to 39.4 inches) as desired to suit your ceiling height and room aesthetics.
5. **Crystal Assembly:** This step involves attaching the individual hexagonal crystals to the metal frame. The package includes a small amount of extra crystals to replace any that may be broken or scratched during shipping or installation. It is often easier to attach crystals after the main fixture is hung.
6. **Bulb Installation:** Once the fixture and crystals are securely in place, install the 9 E12 bulbs (not included) into their respective lamp bases. All lamp bases are UL listed.

For best results and safety, consider professional installation.

6. OPERATING INSTRUCTIONS

After successful installation, restore power at the circuit breaker.

- **Turning On/Off:** Operate the chandelier using your standard wall switch.
- **Dimmable Functionality:** If you wish to use a dimmable function, ensure you install dimmable E12 bulbs and connect the fixture to a compatible dimmable wall switch (both not included).
- **Bulb Replacement:** Always turn off power at the circuit breaker before replacing bulbs. Allow bulbs to cool completely before handling.

7. MAINTENANCE AND CARE

Regular cleaning will help maintain the chandelier's brilliance.

- **Cleaning the Crystals:** Gently wipe the crystals with a soft, lint-free cloth. For stubborn dust or smudges, slightly dampen the cloth with distilled water or a mild, non-abrasive glass cleaner. Avoid spraying cleaner directly onto the fixture.
- **Cleaning the Metal Frame:** Wipe the metal frame with a dry, soft cloth. Do not use abrasive cleaners or harsh chemicals, as they may damage the finish.
- **Inspection:** Periodically inspect the wiring and connections for any signs of wear or damage.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on.	No power, loose wiring, faulty bulb, faulty switch.	Check circuit breaker. Ensure all wiring connections are secure. Replace bulbs. Test wall switch.
Flickering lights.	Loose bulb, incompatible dimmer, unstable power.	Tighten bulbs. Ensure bulbs are dimmable if using a dimmer. Consult an electrician for power issues.
Crystals appear dull.	Dust or smudges on crystals.	Clean crystals as per maintenance instructions.
