4. SETUP

4.1. Charging the Tablet

Before first use, fully charge your Blackview Tab 80. Connect the included power adapter to the USB Type-C port on the tablet and plug it into a power outlet. The 7680mAh battery ensures long-lasting performance.

4.2. Power On/Off

- **To Power On:** Press and hold the Power button until the Blackview logo appears.
- **To Power Off:** Press and hold the Power button until the power options appear, then select 'Power off'.
- **To Sleep/Wake:** Briefly press the Power button.

4.3. SIM and TF Card Installation

The Blackview Tab 80 supports dual 4G LTE SIM cards and TF (microSD) card expansion up to 2TB. Locate the SIM/TF card slot on the side of the tablet. Use the provided SIM ejector tool to open the tray. Carefully place your Nano-SIM card(s) and/or TF card into the designated slots, ensuring correct orientation. Gently push the tray back into the tablet until it clicks into place.

4.4. Initial Setup

Upon first power-on, the tablet will guide you through the initial setup process. This includes selecting your language, connecting to a Wi-Fi network, setting up your Google account, and configuring basic security settings. Follow the on-screen prompts to complete the setup.

5. OPERATING THE TABLET

5.1. Navigation

The Blackview Tab 80 uses touch gestures for navigation:

- **Tap:** Select an item or open an app.
- **Swipe:** Scroll through screens or lists.
- **Pinch-to-Zoom:** Zoom in or out on images and web pages.
- **Long Press:** Access contextual menus or move icons.

5.2. Connectivity

Your tablet offers multiple connectivity options:

- **Wi-Fi:** Supports 2.4G and 5G Wi-Fi for fast internet access. Go to Settings > Network & internet > Wi-Fi to connect to a network.
- **Bluetooth 5.0:** Connect to wireless headphones, speakers, and other Bluetooth devices. Go to Settings > Connected devices > Connection preferences > Bluetooth.
- **Dual 4G LTE:** Insert SIM cards to make calls and access mobile data even without Wi-Fi.

Speed up Productivity in Higher Efficiency

Tab 80 loaded with Dual 4G LTE, Empowers you to make quality clear calls with stable Connection, browse webs, stream videos or Download files,etc.

6. MAINTENANCE

To ensure the longevity and optimal performance of your Blackview Tab 80, follow these maintenance guidelines:

- **Cleaning:** Use a soft, lint-free cloth to clean the screen and body. Avoid abrasive cleaners or solvents.
- **Software Updates:** Keep your tablet's software updated to the latest version of Android 13 and Doke OS_P 3.0 for security patches and new features. Check for updates in Settings > System > System update.
- **Battery Care:** Avoid extreme temperatures. Do not let the battery drain completely frequently, and avoid overcharging for extended periods.
- **Storage Management:** Regularly clear unnecessary files and uninstall unused apps to free up storage space and maintain performance.

7. TROUBLESHOOTING

If you encounter issues with your Blackview Tab 80, refer to the following common solutions:

Problem	Possible Solution
Tablet does not power on	Ensure the battery is charged. Connect the charger and wait a few minutes before attempting to power on again. If unresponsive, press and hold the Power button for 10-15 seconds to force a restart.
Screen is unresponsive or frozen	Force restart the tablet by pressing and holding the Power button for 10-15 seconds. If the issue persists, consider a factory reset (backup data first).
Cannot connect to Wi-Fi/Bluetooth	Ensure Wi-Fi/Bluetooth is enabled in settings. Restart the tablet and the router/Bluetooth device. Forget the network/device and try reconnecting.
Slow performance	Close unused apps. Clear cache and data for frequently used apps. Check for system updates. Consider uninstalling large or unnecessary applications.
SIM card not detected	Ensure the SIM card is correctly inserted into the tray. Restart the tablet. Check if the SIM card is active with your carrier.

If problems persist, please contact Blackview customer support.
