PRODUCT FEATURES

- **Customizable RGB Lighting:** Personalize your headset with millions of color combinations and lighting effects via the free PDP Control Hub app.

- **Comfortable Design:** Features soft, memory foam ear cushions and swivel earcups for extended gaming sessions and comfortable storage.

- **Immersive Audio:** Equipped with 50mm drivers for clear highs and deep lows.

- **Convenient Controls:** On-ear volume controls and a game/chat balance dial for quick audio adjustments.

- **Noise-Canceling Microphone:** Provides clear communication, with a flip-to-mute function for privacy.

- **Versatile Connectivity:** Connects wirelessly via a low-latency USB dongle to consoles or via Bluetooth to mobile devices.

- **Broad Compatibility:** Officially licensed for Xbox, and compatible with Windows 10/11 PC, PlayStation

consoles (PS5/PS4), and most Bluetooth devices.

- **Long Battery Life:** Up to 16 hours of playtime on a single charge.

SETUP INSTRUCTIONS

1. Charging the Headset

Before initial use, fully charge the headset. Connect the included USB charging cable to the headset's charging port and to a powered USB port (e.g., console, PC, USB wall adapter). The headset's RGB lights will pulse during charging and should turn solid when fully charged. A full charge typically takes approximately 8 hours and provides up to 16 hours of battery life.

Image: The headset highlighting its 16-hour battery life for extended gaming sessions.

2. Connecting to Xbox/PC (Wireless Dongle)

1. Insert the USB wireless dongle into an available USB port on your Xbox console or PC.
2. Power on the headset by pressing and holding the Power button until the lights illuminate.
3. The headset and dongle should automatically pair. A solid light on the dongle and headset indicates a successful connection.
4. Adjust volume using the on-ear controls.

Image: The headset emphasizing its cross-compatibility with various gaming platforms and Bluetooth devices.

3. Connecting via Bluetooth (Mobile Devices, PS5/PS4)

1. Ensure the headset is powered off.
2. Press and hold the Bluetooth button on the headset until the indicator light begins to flash, indicating pairing mode.
3. On your device (e.g., smartphone, tablet, PlayStation console), navigate to Bluetooth settings and select "Afterglow Wave" from the list of available devices.
4. Once connected, the headset's Bluetooth indicator light will become solid.

OPERATING INSTRUCTIONS

Headset Controls

- **Power Button:** Press and hold to power on/off. Short press to check battery status.

- **Volume Dial:** Rotate to adjust the overall audio volume.

- **Game/Chat Balance Dial:** Adjusts the balance between game audio and chat audio.

- **Mode Button:** Cycles through different RGB lighting effects. Press and hold to turn RGB lights on/off.

- **Microphone:** Flip the microphone boom up to mute. Flip down to unmute.

PDP Control Hub App

Download the free PDP Control Hub app from the Microsoft Store (for Xbox/PC) or your device's app store (for mobile) to customize your headset:

- Modify RGB lighting zones and effects.

- Adjust audio settings and equalizer presets.

- Update headset firmware.

Image: Diagram showing the customizable RGB lighting zones on the headset, managed via the PDP Control Hub app.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the headset. Avoid abrasive cleaners or solvents.

- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures. The swivel earcups allow for a flat storage position.

- **Battery Care:** To prolong battery life, avoid fully discharging the headset frequently. Charge regularly, even if not in use for extended periods.

- **Water Resistance:** This headset is not water resistant. Avoid exposure to liquids.

TROUBLESHOOTING

Issue	Possible Solution

Issue	Possible Solution
No audio or low volume	- Ensure the headset is powered on and fully charged. - Check the volume dial on the headset and your device's audio settings. - Verify the headset is correctly paired/connected to your device (dongle or Bluetooth). - For Xbox/PC, ensure the USB dongle is securely inserted and recognized.
Microphone not working	- Ensure the microphone is flipped down (unmuted). - Check your device's audio input settings to ensure the headset microphone is selected. - Test the microphone with another application or device.
Headset disconnects randomly or poor signal	- Ensure the headset is within the specified wireless range (20 feet for Bluetooth). - Minimize obstructions between the headset and the wireless dongle/Bluetooth device. - Avoid interference from other wireless devices operating on similar frequencies. - Try connecting the USB dongle to a different USB port on your console/PC. - Ensure the headset firmware is up to date via the PDP Control Hub app.
RGB lights not working	- Ensure the headset is powered on. - Press the Mode button to cycle through effects or hold it to turn lights on. - Check settings in the PDP Control Hub app.
