## SETUP INSTRUCTIONS

---

Follow these steps to connect your PDP Gaming AIRLITE Stereo Headset to your Nintendo Switch console:

1. **Locate the Audio Jack:** Identify the 3.5mm audio jack on your Nintendo Switch, Switch Lite, or Switch - OLED Model. This is typically located on the top or bottom edge of the console.
2. **Connect the Headset:** Insert the 3.5mm audio plug from your PDP Gaming AIRLITE Stereo Headset firmly into the console's audio jack.
3. **Verify Connection:** Once connected, audio from your console should now play through the headset.
4. **Adjust Volume:** Use the volume control on the headset (located on the back left earcup) to adjust the audio level to your preference.
5. **Position Microphone:** Lower the microphone boom arm to activate the microphone for voice chat.

## OPERATING INSTRUCTIONS

---

Understanding the basic controls of your headset will enhance your gaming experience.

- **Volume Control:** A volume roller is located on the back of the left earcup. Rotate the roller up to increase volume and down to decrease volume.
- **Microphone Mute:** The microphone features a flip-to-mute function.
  - To **activate** the microphone, lower the microphone boom arm into the speaking position.
  - To **mute** the microphone, flip the microphone boom arm upwards until it clicks into the upright position.

## MAINTENANCE

To ensure the longevity and optimal performance of your headset, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe down the headset. Avoid using harsh chemicals or abrasive cleaners.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Care:** Avoid sharply bending or twisting the cable. Do not pull on the cable to disconnect the headset; always grasp the plug.
- **Moisture:** The headset is not water-resistant. Avoid exposure to liquids.

## TROUBLESHOOTING

If you encounter issues with your headset, refer to the following common problems and solutions:

- **No Sound from Headset:**
  - Ensure the 3.5mm audio plug is fully inserted into the console's audio jack.
  - Check the volume roller on the headset and ensure it is turned up.
  - Verify that the console's audio output settings are correctly configured to output sound through the headphone jack.
  - Test the headset with another device to confirm functionality.
- **Microphone Not Working:**
  - Ensure the microphone boom arm is fully lowered into the speaking position (not muted).
  - Check in-game or console communication settings to ensure the microphone input is enabled and correctly selected.
  - Test the microphone with another device or application to confirm functionality.
- **Sound Distortion or Static:**
  - Ensure the audio plug is clean and free of debris.
  - Try connecting the headset to a different audio source to rule out interference from the console.
