anyloop CW01

anyloop Smart Watch Ultra User Manual

Model: CW01 | Brand: anyloop

1. SETUP GUIDE

This section provides step-by-step instructions to set up your new anyloop Smart Watch Ultra.

1.1 Unboxing and Initial Charge

Upon opening the package, you will find the anyloop Smart Watch Ultra, a magnetic charging cable, and this instruction manual. The watch comes with a partial charge, but it is recommended to fully charge it before first use.

Figure 1: anyloop Smart Watch Ultra, showcasing its design and display.

1.2 Charging Your Smart Watch

Connect the magnetic charging cable to the charging points on the back of your watch. Plug the USB end of the cable into a compatible USB power adapter (not included) or a computer's USB port. A full charge typically takes 2 hours and provides 5-12 days of use, or up to 21 days on standby.

1.78" AMOLED-Touch-Display

Der AMOLED-Bildschirm bietet ein reichhaltigeres visuelles Erlebnis mit einem größeren Betrachtungswinkel, mit besserer Farbwiedergabe und lebendigerer und saubererer Bildqualität als herkömmliche LCDs.

1.3 App Installation and Pairing

To unlock the full potential of your Smart Watch, download and install the 'Fitbeing' app from the Google Play Store (for Android) or Apple App Store (for iOS). Once installed, open the app and follow the on-screen instructions to pair your watch. The watch display will show a QR code that can be scanned by the app for quick pairing. Ensure Bluetooth is enabled on your smartphone.

Bluetooth Calls & SMS Notification

Receive incoming calls hands-free

2. OPERATING YOUR SMART WATCH

Learn how to navigate and utilize the various features of your anyloop Smart Watch Ultra.

2.1 Display and Navigation

The watch features a vibrant 1.78-inch AMOLED display with 368x448 resolution and 60 FPS refresh rate, offering a clear and responsive touch experience. Navigate through menus by swiping across the screen and use the optical crown for additional control.

2.2 All-Day Health Monitoring

The Smart Watch is equipped with advanced sensors for comprehensive health tracking. It can intelligently monitor your heart rate, blood pressure, blood oxygen level, and sleep patterns (deep sleep, light sleep, wake-

up/fall asleep times). Access these metrics directly on the watch or through the 'Fitbeing' app for detailed analysis.

2.3 Multiple Sports Modes and Built-in GPS

Engage in over 30 built-in exercise modes, including running, hiking, cycling, yoga, and swimming. The integrated GPS accurately tracks your route, distance, steps, and calories burned during outdoor activities, providing professional-grade fitness data without needing your phone.

Know better about your workouts

Easily track your fitness progress by monitoring calories burned, steps taken, and heart rate, allowing you to plan your workouts effectively!

Figure 5: The watch tracking steps, running distance, calories burned, and exercise time during a workout.

30 Sport Modes (Built-in GPS)

The built-in GPS can automatically measure the distance and route for various sports, promoting health awareness and exercise habits.

Waterproof up to 30 metres

The exceptional 3ATM water resistance enables the watch to endure splashes from showering or washing your face, while its 30-meter water resistance ensures safety during water activities like swimming.

2.4 Make/Receive Calls and Message Notifications

Stay connected by receiving incoming calls, messages, and app notifications directly on your wrist. With smooth Bluetooth integration for both iOS and Android devices, you can manage calls and view texts without reaching for your phone.

2.5 Personalized Dial and Customization

Customize your watch face to match your style and mood. Choose from a wide range of pre-designed dials available through the 'Fitbeing' app, or even upload your favorite photos to create unique personalized dials.

100+ Gorgeous Dials

100+ dials available free of charge by connecting to the dedicated Fitbeing app.

Can also be freely configured with your favourite photos according to your preference

Figure 7: A selection of over 100 gorgeous dials available for customization through the dedicated Fitbeing app.

2.6 Water Lock Feature

The watch boasts 3ATM water resistance, making it suitable for splashes, showering, and swimming up to 30 meters. To prevent accidental touches while in water, activate the 'Water Lock' feature. To turn off water lock, press and hold the crown. The watch will then eject any residual water from the speaker by playing a sound.

2.7 Flashlight Function

Your Smart Watch Ultra includes a convenient flashlight function, turning the screen into a bright light source for low-light situations.

3. MAINTENANCE

Proper care ensures the longevity and optimal performance of your Smart Watch.

3.1 Cleaning

Gently wipe the watch screen and strap with a soft, lint-free cloth. If necessary, slightly dampen the cloth with water. Avoid using harsh chemicals or abrasive materials.

3.2 Charging Best Practices

Always use the provided magnetic charging cable. Avoid overcharging the device. Disconnect the charger once the battery is full to preserve battery health.

3.3 Water Resistance Care

While the watch is 3ATM waterproof, it is recommended to rinse it with fresh water after exposure to saltwater or chlorinated water. Ensure the water lock feature is engaged before submerging the watch for extended periods.

4. TROUBLESHOOTING

If you encounter any issues, refer to the solutions below before contacting support.

4.1 Watch Not Turning On

- Ensure the watch is fully charged. Connect it to the magnetic charger and allow it to charge for at least 30 minutes.
- Press and hold the side button for several seconds to power on the device.

4.2 Pairing Issues with App

- Ensure Bluetooth is enabled on your smartphone.
- Restart both your watch and your smartphone.
- Make sure the 'Fitbeing' app is updated to the latest version.
- If the issue persists, try unpairing the device from your phone's Bluetooth settings and re-pairing through the app.

4.3 Inaccurate Health Data

- Ensure the watch is worn snugly on your wrist, but not too tight.
- Clean the sensors on the back of the watch regularly to remove any dirt or debris.
- For best results, remain still during heart rate or blood oxygen measurements.

4.4 Battery Draining Quickly

- Reduce screen brightness.
- Disable 'Always-on Display' if it is enabled.
- Limit the number of app notifications received on the watch.
- Turn off continuous health monitoring features if not needed 24/7.

5. SPECIFICATIONS

Feature	Detail
Product Dimensions	1.55 x 1.8 x 0.48 inches
