Redragon M915WL

Redragon M915WL Wireless Gaming Mouse Instruction Manual

Model: M915WL | Brand: Redragon

Introduction

Thank you for choosing the Redragon M915WL Wireless Gaming Mouse. This ergonomic mouse is designed for both gaming and productivity, offering a high-precision 16000 DPI optical sensor, 9 programmable buttons, and vibrant RGB backlighting. It supports both 2.4G wireless and wired connections, providing flexibility and reliable performance.

Setup

1. Charging the Mouse

Before initial use, it is recommended to fully charge the mouse.

1. Connect the provided USB Type-C cable to the mouse's charging port and the other end to a USB power source (e.g., computer USB port, USB wall adapter).
2. The scroll wheel light will flash during charging and turn solid green when fully charged.
3. A full charge provides approximately 170 hours of use with RGB lighting off, or 13 hours with RGB lighting on.

2. Wireless Connection (2.4Ghz)

For a low-latency wireless connection, use the 2.4Ghz USB Nano Receiver.

1. Locate the USB Nano Receiver stored in the compartment on the bottom of the mouse.
2. Plug the USB Nano Receiver into an available USB port on your computer.
3. Turn on the mouse using the power switch on the bottom. The mouse will automatically connect to the receiver.

Figure 5: Reliable 2.4Ghz Wireless Connection

3. Bluetooth Connection

The M915WL also supports Bluetooth connectivity for versatile use.

1. Turn on the mouse using the power switch on the bottom and select the Bluetooth mode (if available, some models might be 2.4G only).
2. Press and hold the Bluetooth pairing button on the bottom of the mouse until the indicator light starts flashing rapidly.
3. On your computer or device, search for Bluetooth devices and select "Redragon M915WL" to pair.

4. Wired Connection

For a direct and stable connection, you can use the mouse in wired mode.

1. Connect the USB Type-C cable to the mouse and the other end to a USB port on your computer.
2. The mouse will automatically switch to wired mode and begin charging if needed.

Operating Instructions

1. DPI Adjustment

The mouse features 5 onboard DPI levels for precise control, switchable on the fly.

- Default DPI levels: 1000 / 2000 / 4000 / 8000 / 16000.
- Use the DPI+ and DPI- buttons (located near the scroll wheel) to cycle through the levels.
- The scroll wheel light will indicate the current DPI level.

2. Programmable Buttons & Macro Functions

The M915WL has 9 programmable buttons, allowing for customizable tactical key binds.

- Buttons include: Left/Right click, Scroll wheel, Fire button, Forward/Backward buttons, DPI+/DPI- buttons, and 2 side macro buttons.
- Utilize the Redragon Pro driver software (available for download from the official Redragon website) to customize button functions, create macros, and adjust polling rate.
- The "Rapid Fire" key (often a dedicated button or programmable) allows for quick, repeated clicks.

3. RGB Illumination

The mouse features customizable RGB backlighting to enhance your gaming setup.

- Adjust lighting modes (dynamic streaming, breathing, waving, etc.) and colors through the Redragon Pro driver software.
- The RGB lighting can be turned off to conserve battery life, extending usage time significantly.

Maintenance

To ensure the longevity and optimal performance of your Redragon M915WL mouse, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe down the mouse regularly. For stubborn dirt, a slightly damp cloth can be used, but ensure no moisture enters the device.
- **Sensor Care:** Keep the optical sensor on the bottom of the mouse clean and free from dust or debris to maintain tracking accuracy.
- **Battery Care:** Avoid completely draining the battery frequently. Charge the mouse when the low battery indicator appears.

Do not charge the mouse using wall plugs with input voltage exceeding 7V.

- **Storage:** When not in use, especially for extended periods, store the USB Nano Receiver in its dedicated slot on the bottom of the mouse to prevent loss.

Troubleshooting

If you encounter issues with your Redragon M915WL mouse, try the following solutions:

- **Mouse Not Responding:**
  - Ensure the mouse is powered on.
  - Check battery level and charge if necessary.
  - For 2.4G wireless, ensure the USB Nano Receiver is securely plugged into a working USB port. Try a different USB port.
  - For Bluetooth, ensure the mouse is in pairing mode and your device's Bluetooth is enabled and searching.
  - Try connecting the mouse in wired mode to confirm functionality.
- **Inaccurate Tracking/Lag:**
  - Clean the optical sensor on the bottom of the mouse.
  - Ensure you are using the mouse on a suitable surface (e.g., a mouse pad).
  - Adjust DPI settings to a lower value if tracking is too fast or erratic.
  - Ensure the 2.4Ghz receiver is not obstructed and is within the optimal range (up to 10m/32.8ft).
- **RGB Lights Not Working:**
  - Check the mouse's power switch; some modes might disable RGB.
  - Ensure the mouse has sufficient battery charge.
  - Use the Redragon Pro driver software to check and adjust RGB settings.
- **Buttons Not Functioning Correctly:**
  - Reinstall the Redragon Pro driver software.
  - Reset the mouse to factory settings via the software (if available).

Specifications

Feature	Detail
Product Dimensions	5 x 3.2 x 0.1 inches
Item Weight	4.3 ounces
ASIN	B0CDC6X2BG
Item Model Number	M915WL
Batteries	1 Lithium Polymer batteries required (included)
Brand	Redragon
Color	Black
Connectivity Technology	Wired/Wireless (2.4Ghz)

Feature	Detail
Special Features	Macro Program Easy Keybinding 16000DPI
Movement Detection Technology	Optical (PAW3335 Sensor)
