Yvvpiupu B0CDC7BVJX

Yvvpiupu Smart Plug Mini User Manual

Model: B0CDC7BVJX

1. Introduction

The Yvvpiupu Smart Plug Mini is designed to transform your traditional home appliances into smart devices, allowing for remote control, scheduling, and voice command integration. This manual provides detailed instructions for setting up and operating your smart plugs, ensuring a seamless smart home experience.

2. Safety Information

Please read and follow all safety instructions carefully before using the smart plug. Failure to do so may result in electric shock, fire, or other hazards.

- Do not disassemble or modify the device.
- Do not expose the device to water or humid environments.
- Ensure the connected appliance's power rating does not exceed the smart plug's maximum load.
- Use indoors only.
- Keep out of reach of children.

3. Package Contents

Verify that all items are present in your package:

- Yvvpiupu Smart Plug Mini (4-Pack)
- User Manual

5. Setup

5.1 App Installation

Before using the smart plugs, you need to install the companion app. The smart plugs are compatible with the Smart Life app or Tuya app.

1. Scan the QR code provided on the product packaging or search for "Smart Life" or "Tuya" in your device's app store (Google Play for Android, App Store for iOS).
2. Download and install the app.
3. Register a new account or log in if you already have one.

5.2 Device Pairing

Follow these steps to pair your smart plug with the app:

1. Plug the smart plug into a power outlet.
2. Open the Smart Life or Tuya app.
3. Press and hold the power button on the smart plug until the indicator light starts flashing rapidly. This indicates it's in pairing mode.
4. In the app, tap the "+" icon (usually in the top right corner) to add a device.
5. The app should automatically discover the smart plug. If not, select "Electrical Outlet" or "Socket (Wi-Fi)" from the device list.
6. Confirm your Wi-Fi network (2.4 GHz only) and enter the Wi-Fi password.
7. Wait for the device to connect. Once connected, the indicator light will stop flashing and remain solid.
8. You can then rename the device for easier identification (e.g., "Living Room Lamp").

6. Operating Instructions

6.1 Remote Control

Once paired, you can control your smart plug from anywhere using the Smart Life or Tuya app, as long as your phone has internet access and the smart plug is connected to your home Wi-Fi.

- Open the app and select the desired smart plug.
- Tap the power icon to turn the connected appliance on or off.

6.2 Scheduling and Timer Functions

Automate your appliances with schedules and timers:

- In the app, select the smart plug and navigate to the "Schedule" or "Timer" section.
- Set specific times for the plug to turn on or off daily, weekly, or for a countdown.
- This feature is ideal for lights, coffee makers, or charging devices.

6.3 Voice Control

The smart plugs are compatible with Amazon Alexa and Google Assistant.

1. Ensure your smart plug is successfully paired with the Smart Life or Tuya app.
2. Open the Alexa or Google Home app.
3. Enable the "Smart Life" or "Tuya Smart" skill/service.
4. Link your Smart Life/Tuya account.
5. Discover devices. Your smart plugs should appear.
6. You can now use voice commands like:
    - "Alexa, turn on Living Room Lamp."
    - "Hey Google, turn off Coffee Maker."

7. Maintenance

To ensure optimal performance and longevity of your smart plugs:

- Clean the exterior with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- Keep the plugs free from dust and debris.
- Avoid placing them in direct sunlight or near heat sources.

8. Troubleshooting

Problem	Possible Cause	Solution
Smart plug not connecting to Wi-Fi.	Incorrect Wi-Fi password; 5GHz Wi-Fi network; plug too far from router.	Ensure correct 2.4GHz Wi-Fi network and password. Move plug closer to router. Reset and try pairing again.
Appliance not responding to control.	Smart plug is off; appliance is off; power outage.	Check if the smart plug is powered on. Ensure the appliance itself is switched on. Verify home power supply.
Voice control not working.	Skill not enabled; account not linked; incorrect device name.	Ensure Smart Life/Tuya skill is enabled and accounts are linked. Use the exact device name configured in the app.

9. Specifications

- **Model:** B0CDC7BVJX
- **Brand:** Yvvpiupu
- **Input Voltage:** 100-240V AC
- **Max Current:** 10A
- **Wireless Type:** Wi-Fi 2.4GHz
- **Operating Systems:** Android & iOS
- **Dimensions:** 2.12 x 2.12 x 0.1 inches
- **Weight:** 8.82 ounces
- **Material:** Iron (likely referring to internal components or specific parts, as the casing is typically plastic)

10. Warranty and Support

For warranty information and technical support, please refer to the contact details provided on the product packaging or visit the official Yvvpiupu website. Keep your purchase receipt for warranty claims.
If you encounter any issues not covered in this manual, please contact customer support for assistance.
