- **Display:** Position the car on a shelf, desk, or in a display case to showcase its detailed design.

### 5. MAINTENANCE

---

- **Cleaning:** To clean the car, gently wipe it with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials, as these may damage the paint finish.
- **Storage:** Store the die-cast car in a cool, dry place away from direct sunlight and extreme temperatures to prevent fading or material degradation.

### 6. TROUBLESHOOTING

---

Due to the simple nature of this die-cast model, extensive troubleshooting is generally not required. However, here are some common considerations:

- **Wheels Not Rolling Smoothly:** Check for any debris or foreign objects lodged in the axles or wheels. Gently remove any obstructions. Ensure the axles are not bent.
- **Paint Chipping/Scratches:** This can occur with normal play. To minimize, avoid rough play on abrasive surfaces. For collectors, consider displaying the car in its original packaging or a protective case.
