SABLUTE H1

SABLUTE Large Print Backlit Keyboard Instruction Manual

Model: H1

INTRODUCTION

Thank you for choosing the SABLUTE Large Print Backlit Keyboard. This wired USB computer keyboard is designed with oversized, easy-to-read letters and features a 7-color adjustable backlight, an integrated wrist rest, and a convenient phone holder. It is ideal for users seeking enhanced visibility and comfort, including seniors, students, and office workers. This manual provides detailed instructions for setup, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your keyboard.

Safety Information

- Do not expose the keyboard to liquids or excessive moisture.
- Avoid extreme temperatures. Operate and store the keyboard in a moderate environment.
- Do not attempt to disassemble or repair the keyboard yourself. Refer all servicing to qualified personnel.
- Keep the keyboard away from strong magnetic fields.
- Use only with compatible USB ports.

Package Contents

Please check the package for the following items:

- SABLUTE Large Print Backlit Keyboard (Model: H1)
- Integrated USB Cable
- User Manual (this document)

Setup

1. **Unpacking:** Carefully remove the keyboard from its packaging.

2. **Connection:** Locate an available USB-A port on your computer (desktop, laptop, PC, or Windows device). Insert the USB cable from the keyboard into the USB port.

   The keyboard is plug-and-play, meaning no additional drivers are required for most operating systems (Windows, Mac). Your computer should automatically recognize the device.

3. **Placement:** Place the keyboard on a stable, flat surface. The integrated wrist rest is designed to provide ergonomic support during use.

4. **Phone/Tablet Holder:** The integrated slot at the top of the keyboard can be used to hold your smartphone or tablet for convenient viewing during use. Note that this holder does not provide charging functionality.

OPERATING INSTRUCTIONS

Basic Typing

The keyboard functions as a standard QWERTY keyboard. The large print keys are designed to reduce typing errors and eye strain.

Image: Close-up view of the SABLUTE keyboard highlighting the extra-large characters on the keys, designed for easy visibility and reduced typing errors.

Backlight Control

The keyboard features a 7-color adjustable backlight with multiple modes. This allows for comfortable typing in various lighting conditions, reducing eye fatigue.

Image: A collage showing the SABLUTE keyboard illuminated in seven different colors, demonstrating the customizable backlight feature.

- **Adjusting Brightness:** Press **Fn** + **Page Up** to increase brightness, and **Fn** + **Page Down** to decrease brightness. There are 7 levels of brightness.

Regulate Backlit Brightness

Fn + **↑** / **↓**

Brightness with the light on constantly (8 levels)

It demonstrates the keyboard's suitability for various users, including those with visual impairments.

MAINTENANCE

- **Cleaning:** To clean the keyboard, disconnect it from your computer. Use a soft, lint-free cloth slightly dampened with water or a mild cleaning solution. Avoid harsh chemicals or abrasive materials. For dust and debris between keys, use compressed air.
- **Storage:** When not in use for extended periods, store the keyboard in a dry, cool place, away from direct sunlight and extreme temperatures.
- **Cable Care:** Do not bend or crimp the USB cable excessively. Always pull from the plug, not the cable, when disconnecting.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Keyboard not responding	Loose USB connection; Faulty USB port; Driver issue.	Ensure the USB cable is securely plugged into the computer. Try a different USB port. Restart your computer.
Backlight not working	Backlight turned off; Brightness set to minimum.	Press **Fn** + **Page Up** to increase brightness. Cycle through backlight modes using **Fn** + **1**.
Keys are sticky or unresponsive	Debris under keys; Excessive wear.	Clean the keyboard with compressed air. If the issue persists, contact customer support.
Phone/Tablet holder not fitting device	Device too thick with case.	The holder is designed for standard phone/tablet thickness. Remove bulky cases if necessary.
