

ULANZI ST-06S

ULANZI Phone Tripod Mount ST-06S Instruction Manual

Model: ST-06S | Brand: ULANZI

INTRODUCTION

The ULANZI ST-06S Phone Tripod Mount is a versatile accessory designed to securely hold your smartphone for various photography and videography needs. It features a robust metal construction, adjustable angles, and multiple mounting options for external accessories.

Key Features:

- **Dual Cold Shoe Mounts & 1/4" Screw:** Attach microphones, LED lights, and other accessories.
- **Adjustable Z-axis Angle:** Fine-tune your pitch angle without needing a separate ball head.
- **Secure Clamp Design:** Features a push-and-lock mechanism with thick non-slip silicone pads for phone protection.
- **360° Rotation:** Easily switch between portrait and landscape modes for optimal shooting angles.
- **Wide Compatibility:** Accommodates smartphones from 2.36 inches to 3.54 inches wide, even with cases.
- **Lightweight & Durable:** Constructed from aircraft-grade aluminum alloy, weighing only 1.8 ounces.

PRODUCT OVERVIEW

Familiarize yourself with the components of your ULANZI ST-06S Phone Tripod Mount.

Product Details

Figure 1: Detailed view of the ULANZI ST-06S Phone Tripod Mount, highlighting its key features including the 1/4" screw, cold shoe mounts, lock button, Z-axis design, and 360° rotating design.

- **Phone Clamp:** Securely holds your smartphone. Features non-slip silicone pads.
- **Lock Button:** Engages the push-and-lock mechanism for the phone clamp.
- **360° Rotation Mechanism:** Allows seamless switching between portrait and landscape orientations.
- **Z-axis Adjustment:** Enables tilting the phone mount forward or backward.
- **1/4" Screw Hole:** Located at the base for mounting onto tripods, monopods, or selfie sticks.
- **Cold Shoe Mounts:** Two standard cold shoe mounts on the sides for attaching external accessories like microphones or LED lights.

SETUP INSTRUCTIONS

1. Attaching Your Smartphone:

1. Press the red lock button on the side of the phone clamp to release the locking mechanism.
2. Gently pull the top jaw of the clamp upwards to open it.
3. Insert your smartphone into the clamp, ensuring it sits securely against the non-slip silicone pads.
4. Push the top jaw downwards until it firmly grips your phone. The ratchet mechanism will click into place, securing the phone.
5. Verify that the phone is held firmly and does not wobble.

Non-slip silicone pad

360° rotation angle

**Press top down to clamp
your phone tight**

Flexible adjustment of Z-axis

Figure 2: Securely clamping a smartphone into the mount using the push-and-lock mechanism and non-slip pads.

2. Mounting to a Tripod/Accessory:

1. Locate the 1/4" screw hole at the bottom of the ULANZI ST-06S mount.
2. Align this hole with the 1/4" screw on your tripod, monopod, or selfie stick.
3. Rotate the ULANZI ST-06S mount clockwise onto the screw until it is firmly attached.
4. Alternatively, if your tripod uses an Arca-Swiss quick release plate, the base of the ST-06S is compatible with this system. Slide the mount directly into the Arca-Swiss clamp and secure it.

Cold Shoe Mount

OPERATING INSTRUCTIONS

1. Adjusting Phone Orientation (360° Rotation):

1. To switch between portrait (vertical) and landscape (horizontal) modes, simply rotate the phone clamp section.
2. The 360° rotating design allows for smooth transitions to achieve your desired shooting angle.

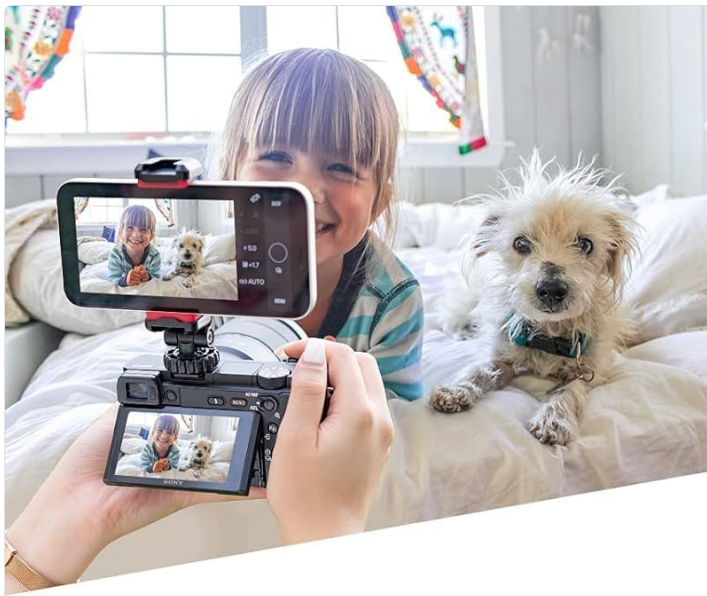

Figure 4: Visual representation of the 360° rotation capability and adjustable Z-axis angle for flexible phone positioning.

2. Adjusting Z-axis Angle:

1. The mount features an adjustable Z-axis design, allowing you to tilt your phone forward or backward.
2. This eliminates the need for a separate ball head for pitch adjustments.
3. Gently adjust the angle to achieve the desired tilt for your shot. The mechanism is designed to hold its position firmly.

3. Using Cold Shoe Mounts:

1. The ULANZI ST-06S has two standard cold shoe mounts located on its sides.
2. Slide compatible accessories, such as external microphones, LED video lights, or other cold shoe-compatible gear, into these mounts.
3. Ensure accessories are securely seated in the cold shoe slots.

Perfect for Vlogging

For cameras and cell phones

Figure 5: Example setup for vlogging, showing a smartphone mounted with an external microphone and LED light using the cold shoe mounts.

MAINTENANCE

- **Cleaning:** Wipe the mount with a soft, dry cloth to remove dust and debris. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the mount in a dry, cool place away from direct sunlight when not in use.
- **Inspection:** Periodically check all screws and moving parts to ensure they are secure and functioning correctly.

TROUBLESHOOTING

- **Phone not secure:** Ensure the red lock button is fully engaged and the clamp jaws are tightened sufficiently

around the phone. Check that the non-slip silicone pads are clean and intact.

- **Rotation is stiff:** If the 360° rotation feels stiff, gently rotate it back and forth a few times. Avoid excessive force.
- **Mount wobbles on tripod:** Ensure the 1/4" screw connection to the tripod is tightened securely.

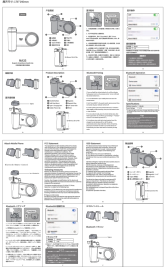

SPECIFICATIONS

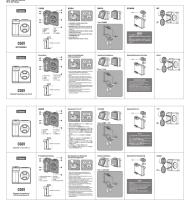

Model Number	ST-06S (US2-2575-FBA)
Material	Aircraft-grade Aluminum Alloy
Product Dimensions	1.97 x 4.72 x 1.57 inches
