McbeAn Xiaomi S10+ / S10 Plus

McbeAn Accessories Instruction Manual

For Xiaomi Robot Vacuum S10+ / S10 Plus

1. INTRODUCTION

This instruction manual provides guidance for the installation, maintenance, and replacement of McbeAn accessory parts compatible with the Xiaomi Robot Vacuum S10+ and S10 Plus models. Regular replacement of these components is essential for maintaining the optimal cleaning performance and longevity of your robotic vacuum cleaner.

2. PACKAGE CONTENTS

The McbeAn accessory kit (Set - 8) typically includes the following components:

- Main Brushes
- Side Brushes
- HEPA Filters
- Mop Cloths
- Cleaning Tool

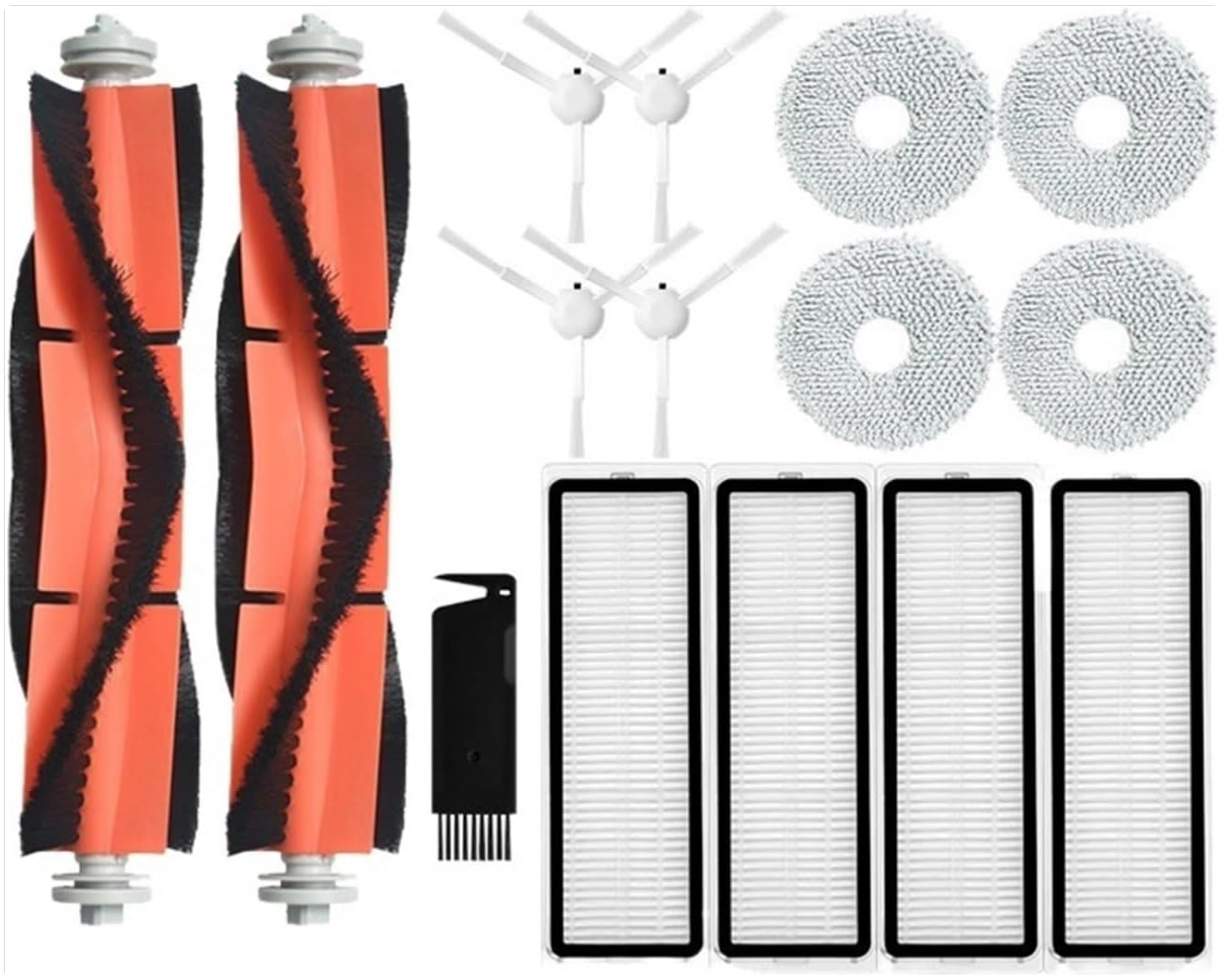

Image: Overview of the accessory kit components.

3. INSTALLATION GUIDE

Before installing any new parts, ensure your robotic vacuum cleaner is powered off and disconnected from its charging base.

3.1 Main Brush Installation

1. Turn the robot vacuum upside down.
2. Locate the main brush cover, usually secured by latches or screws. Open or remove the cover.
3. Remove the old main brush.
4. Insert the new main brush, ensuring the ends align with the slots in the vacuum.
5. Close or reattach the main brush cover securely.

3.2 Side Brush Installation

1. Turn the robot vacuum upside down.
2. Locate the side brush(es). These are typically held by a single screw.
3. Unscrew and remove the old side brush.
4. Place the new side brush into position and secure it with the screw.

3.3 HEPA Filter Installation

1. Open the dustbin compartment of your robot vacuum.
2. Remove the dustbin.
3. Locate the filter within the dustbin. Remove the old filter.
4. Insert the new HEPA filter into the designated slot in the dustbin, ensuring it fits snugly.
5. Reinsert the dustbin into the vacuum cleaner.

3.4 Mop Cloth Attachment

1. Locate the water tank or mopping module on your robot vacuum.
2. Attach the new mop cloth to the designated area on the water tank/mopping module, typically using Velcro or a sliding mechanism.
3. Ensure the cloth is securely attached and evenly spread.

4. OPERATING GUIDELINES

Once the replacement parts are installed, your Xiaomi Robot Vacuum S10+ / S10 Plus should resume its normal operation with restored cleaning efficiency. These accessories are designed to integrate seamlessly with your existing vacuum system.

For detailed instructions on operating your robotic vacuum cleaner, please refer to the original user manual provided with your Xiaomi Robot Vacuum S10+ or S10 Plus.

5. MAINTENANCE

Regular maintenance of these accessories is crucial for optimal performance and to extend their lifespan.

5.1 Main Brush Maintenance

- **Cleaning Frequency:** Inspect and clean the main brush weekly, or more frequently if pets are present.
- **Cleaning Method:** Use the included cleaning tool to remove hair, threads, and debris tangled around the brush bristles and bearings.
- **Replacement:** Replace the main brush every 6-12 months, depending on usage.

5.2 Side Brush Maintenance

- **Cleaning Frequency:** Inspect and clean side brushes monthly.

- **Cleaning Method:** Remove any tangled hair or debris. If bristles are bent, gently reshape them by soaking in warm water for a few minutes.
- **Replacement:** Replace side brushes every 3-6 months, or if they become visibly worn or damaged.

5.3 HEPA Filter Maintenance

- **Cleaning Frequency:** Tap the filter gently to remove dust after each cleaning cycle. Do not wash HEPA filters with water unless explicitly stated by the vacuum manufacturer.
- **Replacement:** Replace HEPA filters every 3-6 months to maintain filtration efficiency.

5.4 Mop Cloth Maintenance

- **Cleaning Method:** After each mopping session, remove the mop cloth and wash it thoroughly with water. It can be hand-washed or machine-washed on a gentle cycle.
- **Drying:** Air dry completely before reattaching or storing.
- **Replacement:** Replace mop cloths every 1-3 months, or when they show signs of wear, reduced absorbency, or staining.

6. TROUBLESHOOTING

If your robot vacuum's performance declines after replacing parts, consider the following:

- **Reduced Suction:** Check if the HEPA filter is correctly installed and not clogged. Ensure the dustbin is empty.
- **Poor Sweeping:** Verify that the main brush and side brushes are free of tangles and installed correctly. Replace if bristles are worn.
- **Ineffective Mopping:** Ensure the mop cloth is clean and properly attached. Check if the water tank is filled (if applicable to your vacuum model).
- **Unusual Noises:** Inspect all brushes for foreign objects or hair tangles that might be causing obstruction.

If issues persist, refer to your Xiaomi Robot Vacuum S10+ / S10 Plus original user manual or contact the vacuum manufacturer's support.

7. SPECIFICATIONS

Feature	Detail
Compatible Robotic Vacuum Cleaner Models	Xiaomi S10+, Xiaomi S10 Plus
Material (Filters)	HEPA
Item Weight (approx.)	1.76 ounces (total package)
Product Dimensions (approx.)	0.39 x 0.39 x 0.39 inches (total package)

7.1 Component Dimensions (Approximate)

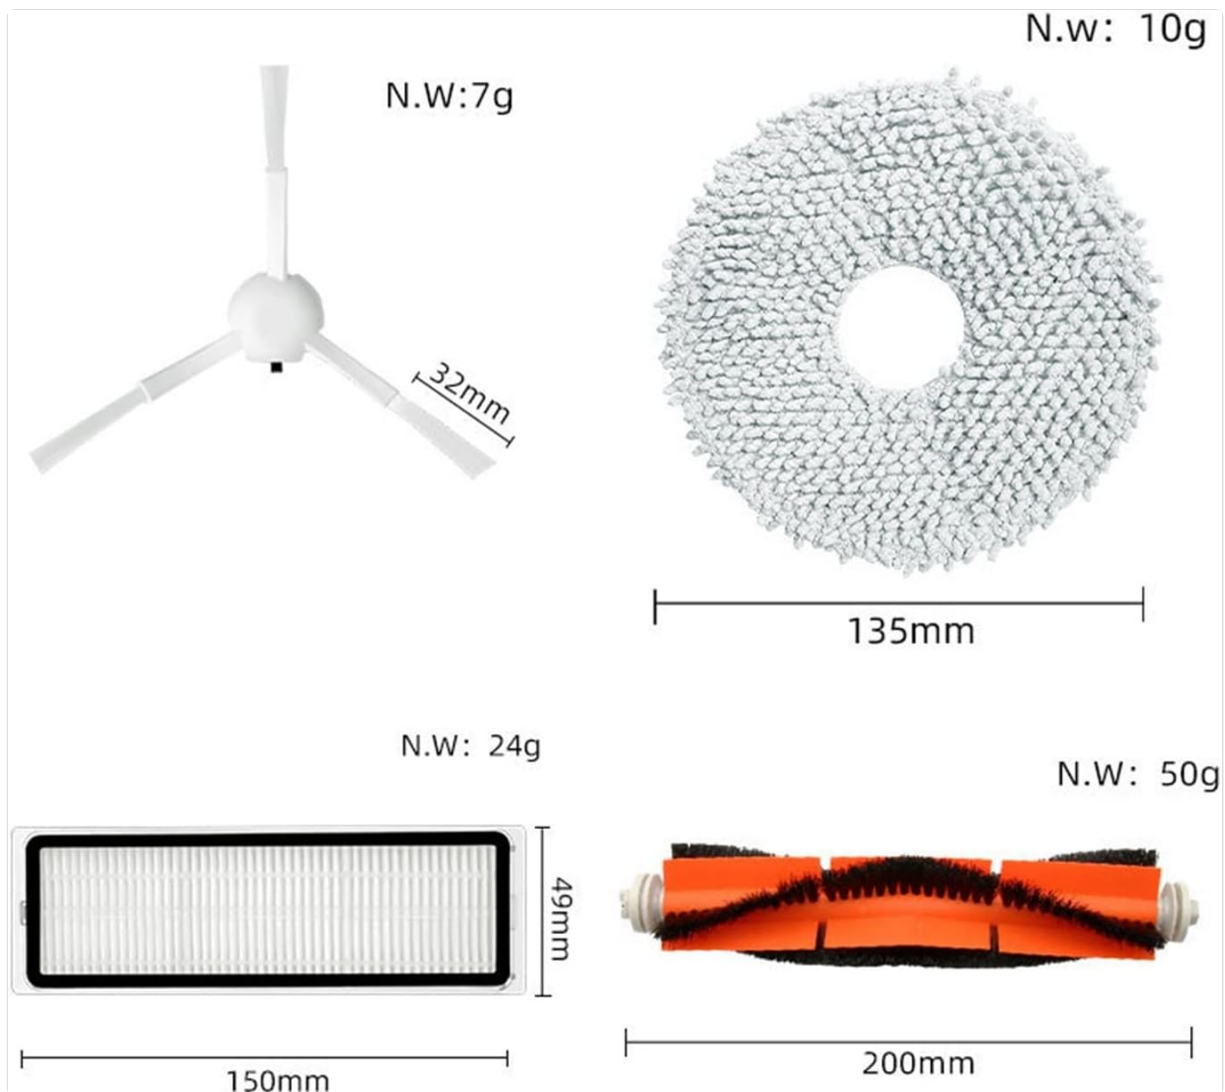

Image: Approximate dimensions and weights of individual components.

- **Side Brush:** Net Weight: 7g, Arm Length: 32mm
- **Mop Cloth:** Net Weight: 10g, Diameter: 135mm
- **HEPA Filter:** Net Weight: 24g, Length: 150mm, Width: 49mm
- **Main Brush:** Net Weight: 50g, Length: 200mm

8. WARRANTY AND SUPPORT

For any questions regarding the McbeAn accessory parts, please contact the seller directly through your purchase platform. Please note that this product is a compatible accessory kit and not an original Xiaomi product. Any warranty or support for the robotic vacuum cleaner itself should be directed to the original manufacturer.
