4. ASSEMBLY INSTRUCTIONS (SETUP)

Assembly is designed to be straightforward. All necessary tools and hardware are included. It is recommended to have two people for assembly.

Step-by-Step Guide:

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out on a clean, soft surface. Refer to the parts list to ensure all pieces are present.
2. **Attach Headboard Legs:** Secure the support legs to the headboard using the provided bolts and Allen wrench. Ensure they are firmly attached.
3. **Assemble Side Rails:** Connect the side rails to the headboard and footboard (if applicable) using the designated hardware. Do not fully tighten bolts yet.
4. **Install Center Support:** Attach the center support beam and legs to the bed frame. This provides crucial stability.

6. **Final Tightening:** Once all components are in place, go back and securely tighten all bolts and screws.
7. **Adjust Headboard Height:** The headboard can be adjusted to a height between 47 and 51 inches. Adjust to your preferred height based on your mattress thickness.
